- (a) accepted onto the contractor’s list of patients; or
- (b) assigned to that list by the Board,

(3) Where, under sub-paragraph (2), the contractor identifies a patient as positive using either of the shortened versions of the AUDIT questionnaire specified in sub-paragraph (2), the remaining questions of the full ten question AUDIT questionnaire must be used by the contractor to determine increasing risk, higher risk or likely dependent drinking.

(4) Where a patient is identified as drinking at increasing or higher risk levels, the contractor must—

- (a) offer the patient appropriate advice and lifestyle counselling;
- (b) respond to any other need identified in the patient which relates to the patient’s levels of drinking, including by providing any additional support or treatment required for people with mental health issues; and
- (c) in any case where the patient is identified as a dependent drinker, offer the patient a referral to such specialist services as are considered clinically appropriate to meet the needs of the patient.

(5) Where a patient is identified as drinking at increasing or higher risk levels or as a dependent drinker, the contractor must ensure that the patient is—

- (a) assessed for anxiety and depression;
- (b) offered screening for anxiety or depression; and
- (c) where anxiety or depression is diagnosed, provided with any treatment and support which may be required under the agreement, including a referral for specialist mental health treatment.
