## EXPLANATORY NOTE

*(This note is not part of the Regulations)*

These Regulations amend the National Health Service (General Medical Service Contracts) Regulations 2004 ([S.I. 2004/291](#), as amended) (“the GMS Contracts Regulations”) and the National Health Service (Personal Medical Services Agreements) Regulations 2004 ([S.I. 2004/627](#), as amended) (“the PMS Agreements Regulations”) which make provision in respect of the services provided under a general medical services contract and a personal medical services agreement made pursuant to provision in Part 4 of the National Health Service Act 2006 (primary medical services). They apply in relation to England only.

Part 2 of the Regulations amends the GMS Contracts Regulations.

Regulation 2 inserts a definition of “armed forces of the Crown” into regulation 2(1).

Regulation 3 amends regulation 10 under which a provider of general medical services under the statutory arrangements governing the provision of those services may choose to be a “health service body” and so for their contract to be an NHS contract. If they do, they may also choose to cease to be such a body and so for their contract to cease to be an NHS contract. Where a contractor chooses to cease to be a health service body, the amendments made by this regulation provide that disputes relating to the period when their contract was an NHS contract must nevertheless be dealt with via the NHS dispute resolution procedure.

Regulation 4 inserts a new regulation 24A which introduces a requirement on contractors to establish and maintain a Patient Participation Group for the purposes of obtaining, reviewing and acting on feedback from the contractor’s registered patients about the services provided by the contractor.

Regulation 5 amends regulation 26B to enable the requirements in paragraph 20 of Schedule 6 to be modified where the contractor does not consider that it is clinically appropriate or practical to continue to provide services to a patient who resides outside of its practice area on a basis which does not include home visits.

Regulation 6 inserts a new paragraph 4A into Schedule 6 to introduce a requirement for the contractor to offer alcohol screening to newly registered patients over the age of 16 and to offer appropriate interventions to any such patient who is identified as drinking at increasing, higher or dependent levels.

Regulation 7 inserts a new paragraph 4B into Schedule 6 to introduce a requirement for the contractor to assign an accountable GP to every patient under the age of 75 years except where a patient does not want to have one assigned to them. The accountable GP is to take lead responsibility for the coordination of the services provided to the patient at the contractor’s practice. Patients are able to express a preference as to which general medical practitioner who is employed or engaged to provide services at the contractor’s practice they would like to have as their accountable GP.

Regulation 8 amends paragraph 11 of Schedule 6 to introduce a requirement on contractors who provide out of hours services to their registered patients to comply with any requests for information about the provision of such services which are made by or on behalf of the National Health Service Commissioning Board (“the Board”).

Regulation 9 inserts a new paragraph 15A into Schedule 6 which enables a contractor to accept a member of Her Majesty’s armed forces as a patient for a maximum period of two years if that person has been authorised in writing by Defence Medical Services to receive medical services under the contract at the contractor’s practice and the contractor is satisfied that the person is living or working within the contractor’s practice area.

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

Regulations 10 and 11 make amendments to paragraphs 25 and 68 of Schedule 6 which are consequential to the amendments made by regulation 9.

Regulation 12 amends paragraph 74C of Schedule 6 to require a contractor to provide patients with online access to their medical record except in certain limited circumstances. It also requires the contractor to take action to increase the number of appointments which are available for its registered patients to book online where this is necessary to meet the reasonable needs of those patients.

Regulation 13 substitutes paragraph 76ZA of Schedule 6 which makes provision in respect of the Friends and Family Test which a contractor is required to make available to patients. The amendment effectively removes the previous requirement for a contractor to publish the results of completed tests at local level.

Regulation 14 inserts a new paragraph 77A into Schedule 6 which requires a contractor to publish earnings information in respect of the previous financial year relating to all general medical practitioners who are party to the contract or who are employed or engaged by the contractor, whether or a full time or part time basis and for a specified minimum period during that year, to provide services at the contractor's practice. The information must be published annually in respect of the preceding financial year on the contractor's practice website (or on the NHS Choices website in any case where the contractor does not have a practice website) and in the contractor's practice leaflet.

Regulation 15 amends paragraph 100 of Schedule 6 so as to provide, in effect, that disputes under a GMS contract that is not a NHS contract, but which relate to a time when the contract was an NHS contract, may be referred to the NHS dispute resolution procedure by either the contractor or the Board. Before these Regulations came into force, disputes under a non-NHS contract could only be dealt with via the NHS dispute resolution procedure with the contractor's consent.

Regulation 16 makes consequential amendments to Schedule 10 to the GMS Contracts Regulations which add to the information listed in that Schedule which the contractor is required to include in its practice leaflet.

Part 3 of the Regulations make amendments to the PMS Agreements Regulations which are similar in nature to those made by regulations 2 to 16 in Part 1.

Part 4 of the Regulations makes an exception by way of a transitional provision to the amendments made by regulation 3, 15, 18 and 29 of these Regulations.
