2015 No. 51

The Construction (Design and Management) Regulations 2015

PART 4

General requirements for all construction sites

Fresh air

33.—(1) Suitable and sufficient steps must be taken to ensure, so far as is reasonably practicable, that each construction site, or approach to a construction site, has sufficient fresh or purified air to ensure that the site or approach is safe and without risks to health or safety.

(2) Any plant used for the purpose of complying with paragraph (1) must, where necessary for reasons of health or safety, include an effective device to give visible or audible warning of any failure of the plant.

Changes to legislation:

There are currently no known outstanding effects for the The Construction (Design and Management) Regulations 2015, Section 33.
