

SCHEDULE 1

Amendments to the Electricity Capacity Regulations 2014

PART 2

Demand Side Response, Metering, and other amendments

Regulation 15 (general eligibility criteria)

14. In regulation 15, for paragraph (4) substitute—

“(4) The second condition is—

- (a) in the case of a generating CMU or an interconnector CMU, that the connection capacity of the CMU is equal to or greater than 2MW (the “minimum capacity threshold”); or
- (b) in the case of a demand side response CMU, that the DSR capacity of the CMU is equal to or greater than the minimum capacity threshold.”.
