PART 6

Assessment of plans and projects

CHAPTER 1

General provisions

Introductory provisions

Interpretation of Part 6

61.—(1) In this Part—

“the assessment provisions” means regulations 63 and 64;

“the review provisions” means regulations 65 and 66.

(2) In this Part, any reference to—

(a) the giving or granting of any consent, permission or other authorisation (except in the heading to any regulation or in any reference to any such heading), or

(b) directing that planning permission is deemed to be granted,

is to be taken, in relation to any consent, permission or authorisation which is capable of being varied or modified, to include a reference to its variation or modification.

Application of provisions of Chapter 1

62.—(1) The requirements of the assessment provisions and the review provisions apply—

(a) subject to and in accordance with the provisions of Chapters 2 to 7, in relation to the matters specified in those provisions; and

(b) subject to regulation 63(7)(c), in relation to all other plans and projects not relating to matters specified in Chapters 2 to 9.

(2) Supplementary provision is made by regulations 67 to 69.

General provisions for protection of European sites and European offshore marine sites

Assessment of implications for European sites and European offshore marine sites

63.—(1) A competent authority, before deciding to undertake, or give any consent, permission or other authorisation for, a plan or project which—

(a) is likely to have a significant effect on a European site or a European offshore marine site (either alone or in combination with other plans or projects), and

Status: Point in time view as at 31/12/2020.

Changes to legislation: The Conservation of Habitats and Species Regulations 2017, PART 6 is up to date with all changes known to be in force on or before 02 April 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

(b) is not directly connected with or necessary to the management of that site, must make an appropriate assessment of the implications of the plan or project for that site in view of that site's conservation objectives.

(2) A person applying for any such consent, permission or other authorisation must provide such information as the competent authority may reasonably require for the purposes of the assessment or to enable it to determine whether an appropriate assessment is required.

(3) The competent authority must for the purposes of the assessment consult the appropriate nature conservation body and have regard to any representations made by that body within such reasonable time as the authority specifies.

(4) It must also, if it considers it appropriate, take the opinion of the general public, and if it does so, it must take such steps for that purpose as it considers appropriate.

(5) In the light of the conclusions of the assessment, and subject to regulation 64, the competent authority may agree to the plan or project only after having ascertained that it will not adversely affect the integrity of the European site or the European offshore marine site (as the case may be).

(6) In considering whether a plan or project will adversely affect the integrity of the site, the competent authority must have regard to the manner in which it is proposed to be carried out or to any conditions or restrictions subject to which it proposes that the consent, permission or other authorisation should be given.

(7) This regulation does not apply in relation to—

^{F1}(a)

^{F1}(b)

(c) a plan or project to which any of the following apply—

(i) the Offshore Petroleum Activities (Conservation of Habitats) Regulations 2001 ^{M1} (in so far as this regulation is not disapplied by regulation 4 (plans or projects relating to offshore marine area or offshore marine installations) in relation to plans or projects to which those Regulations apply);

(ii) the Environmental Impact Assessment (Agriculture) (England) (No. 2) Regulations 2006 ^{M2};

(iii) the Environmental Impact Assessment (Agriculture) (Wales) Regulations 2017 ^{M3}; or

(iv) [^{F2}the Merchant Shipping (Ship-to-Ship Transfers) Regulations 2020].

(8) Where a plan or project requires an appropriate assessment both under this regulation and under the Offshore Marine Conservation Regulations, the assessment required by this regulation need not identify those effects of the plan or project that are specifically attributable to that part of it that is to be carried out in the United Kingdom, provided that an assessment made for the purpose of this regulation and the Offshore Marine Conservation Regulations assesses the effects of the plan or project as a whole.

(9) In paragraph (1) the reference to the competent authority deciding to undertake a plan or project includes the competent authority deciding to vary any plan or project undertaken or to be undertaken.

Considerations of overriding public interest

64.—(1) If the competent authority is satisfied that, there being no alternative solutions, the plan or project must be carried out for imperative reasons of overriding public interest (which, subject to paragraph (2), may be of a social or economic nature), it may agree to the plan or project notwithstanding a negative assessment of the implications for the European site or the European offshore marine site (as the case may be).

(2) Where the site concerned hosts a priority natural habitat type or a priority species, the reasons referred to in paragraph (1) must be either—

- (a) reasons relating to human health, public safety or beneficial consequences of primary importance to the environment; or
- (b) any other reasons which the competent authority, having due regard to the opinion of the [^{F3}appropriate authority], considers to be imperative reasons of overriding public interest.

(3) Where a competent authority other than the Secretary of State or the Welsh Ministers desires to obtain the opinion of the [^{F4}appropriate authority] as to whether reasons are to be considered imperative reasons of overriding public interest, it may submit a written request to the appropriate authority—

- (a) identifying the matter on which an opinion is sought; and
- (b) accompanied by any documents or information which may be required.

[^{F5}(4) In giving its opinion as to whether the reasons are imperative reasons of overriding public interest, the appropriate authority must have regard to the national interest, and provide its opinion to the competent authority.]

[^{F6}(4A) Before giving its opinion as to whether the reasons are imperative reasons of overriding public interest, the appropriate authority must consult the following, and have regard to their opinion—

- (a) the Joint Nature Conservation Committee;
- (b) where the appropriate authority is the Secretary of State, the devolved administrations;
- (c) where the appropriate authority is the Welsh Ministers, the Secretary of State, and the other devolved administrations; and
- (d) any other person the appropriate authority considers appropriate.]

(5) Where a competent authority other than the Secretary of State or the Welsh Ministers proposes to agree to a plan or project under this regulation notwithstanding a negative assessment of the implications for the site concerned—

- (a) it must notify the appropriate authority; and
- (b) it must not agree to the plan or project before the end of the period of 21 days beginning with the day notified by the appropriate authority as that on which its notification was received, unless the appropriate authority notifies it that it may do so.

(6) Without prejudice to any other power, the appropriate authority may give directions to the competent authority in any such case prohibiting it from agreeing to the plan or project, either indefinitely or during such period as may be specified in the direction.

Review of existing decisions and consents

65.—(1) Where before the date on which a site becomes a European site or a European offshore marine site a competent authority has decided to undertake, or has given any consent, permission or other authorisation for, a plan or project to which regulation 63(1) would apply if it were to be reconsidered as of that date, the authority must, as soon as reasonably practicable—

- (a) review its decision or, as the case may be, the consent, permission or other authorisation; and
- (b) affirm, modify or revoke it.

(2) The authority must for that purpose make an appropriate assessment of the implications for the site in view of that site's conservation objectives; and the provisions of regulation 63(2) to (4) and (8) apply, with the appropriate modifications, in relation to such a review.

(3) Subject to the provisions of Chapters 2 to 7, any review required by this regulation must be carried out under existing statutory procedures where such procedures exist, and if none exists, the appropriate authority may give directions as to the procedure to be followed.

(4) Nothing in this regulation affects anything done in pursuance of the decision, or the consent, permission or other authorisation, before the date mentioned in paragraph (1).

Consideration on review

66.—(1) The following provisions apply where a decision, or a consent, permission or other authorisation, falls to be reviewed under regulation 65.

(2) Subject as follows, the provisions of regulations 63(5) and (6) and 64 apply, with the appropriate modifications, in relation to the decision on the review.

(3) The decision, or the consent, permission or other authorisation, may be affirmed if it appears to the competent authority reviewing it that other action taken or to be taken by it, or by another authority, will secure that the plan or project does not adversely affect the integrity of the site.

(4) Where that object may be attained in a number of ways, the competent authority or authorities concerned must seek to secure that the action taken is the least onerous to those affected.

(5) The appropriate authority may issue guidance to competent authorities for the purposes of paragraph (3) as to the manner of determining which of different ways should be adopted for securing that the plan or project does not have any such effect, and in particular—

- (a) the order of application of different controls; and
 - (b) the extent to which account should be taken of the possible exercise of other powers.
- (6) The competent authorities concerned must have regard to any such guidance.

(7) Any modification or revocation of a decision, or a consent, permission or other authorisation, must be carried out under existing statutory procedures where such procedures exist, and if none exists, the appropriate authority may give directions as to the procedure to be followed.

Co-ordination where more than one competent authority involved

67.—(1) This regulation applies where a plan or project—

- (a) is undertaken by more than one competent authority;
- (b) requires the consent, permission or other authorisation of more than one competent authority; or
- (c) is undertaken by one or more competent authorities and requires the consent, permission or other authorisation of one or more other competent authorities.

(2) Nothing in regulation 63(1) or 65(2) requires a competent authority to assess any implications of a plan or project which would be more appropriately assessed under that provision by another competent authority.

(3) The appropriate authority may issue guidance to competent authorities for the purposes of regulations 63 to 66 as to the circumstances in which a competent authority may or should adopt the reasoning or conclusions of another competent authority as to whether a plan or project—

- (a) is likely to have a significant effect on a European site or a European offshore marine site; or
- (b) will adversely affect the integrity of a European site or a European offshore marine site.

(4) The competent authorities concerned must have regard to any such guidance.

(5) In determining whether a plan or project should be agreed to under regulation 64, a competent authority other than the Secretary of State or the Welsh Ministers must seek and have regard to the views of the other competent authority or authorities involved.

Compensatory measures

68. Where in accordance with regulation 64—

- (a) a plan or project is agreed to, notwithstanding a negative assessment of the implications for a European site or a European offshore marine site, or
- (b) a decision, or a consent, permission or other authorisation, is affirmed on review, notwithstanding such an assessment,

the appropriate authority must secure that any necessary compensatory measures are taken to ensure that the overall coherence of Natura 2000 is protected.

Modifications of regulations 63 to 68 in certain cases

69.—(1) Where any provision of regulations 63 to 68 (a “general provision”) applies in relation to a provision specified in paragraph (2), that general provision applies with the following modifications—

- (a) any reference to the Welsh Ministers is omitted; and
- (b) for any reference to the appropriate authority, substitute a reference to the Secretary of State.

(2) The provisions specified for the purposes of paragraph (1) are—

- (a) regulation 70(1)(e)(i) and (2) (grant of planning permission) in so far as those provisions relate to a direction given by the Secretary of State under section 90 of the TCPA 1990

Status: Point in time view as at 31/12/2020.

- (b) in any other case, for any reference to the appropriate authority, substitute a reference to the Secretary of State.
- (6) This paragraph applies where the function in question is exercisable in relation to—
- (a) any application to the Welsh Ministers for an authorisation in respect of marine works;
- (b) any application to any other authority for—
- (i) an authorisation in respect of marine works, the refusal of which gives rise to a right of appeal to the Welsh Ministers;
- (ii) an authorisation in respect of marine works in relation to which the Welsh Ministers exercise any power of direction or call-in; or
- (iii) an authorisation of harbour works which are, or are to be, carried out in relation to a fishery harbour in Wales under legislation of a kind mentioned in regulation 103(6)(c);

(b) granting planning permission on an application under section 293A of that Act (urgent Crown development)^{M7};

(c) granting planning permission, or upholding a decision of the local planning authority to grant planning permission (whether or not subject to the same conditions and limitations as those imposed by the local planning authority), on determining an appeal under section 78 of that Act (right to appeal against planning decisions)^{M8} in respect of such an application;

(d) granting planning permission under—

(i) section 141(2)(a) of that Act (action in relation to purchase notice); or

(2) Where the assessment provisions apply, the competent authority may, if it considers that any adverse effects of the plan or project on the integrity of a European site or a European offshore marine site would be avoided if the planning permission were subject to conditions or limitations, grant planning permission, or, as the case may be, take action which results in planning permission being granted or deemed to be granted, subject to those conditions or limitations.

(3) Where the assessment provisions apply, outline planning permission must not be granted unless the competent authority is satisfied (whether by reason of the conditions and limitations to which the outline planning permission is to be made subject, or otherwise) that no development likely adversely to affect the integrity of a European site or a European offshore marine site could be carried out under the permission, whether before or after obtaining approval of any reserved matters.

(4) In paragraph (3), “outline planning permission” and “reserved matters” have the same meanings as in section 92 of the TCPA 1990 (outline planning permission) ^{M18}.

- (b) it was granted subject to a condition as to the time within which the development to which it related was to be begun and that time has expired without the development having been begun; or
- (c) it was granted for a limited period and that period has expired.

(2) The review provisions do not apply to planning permission granted or deemed to have been granted—

- (a) by a development order, local development order or neighbourhood development order (but see regulations 75 to 81);
- (b) by virtue of the adoption of a simplified planning zone scheme or of alterations to such a scheme (but see regulation 82); or

Planning permission: consideration on review

72.—(1) In reviewing any planning permission or deemed planning permission under the review provisions, the competent authority must—

- (a) consider whether any adverse effects could be overcome by planning obligations under section 106 of the [TCPA 1990](#) (planning obligations) ^{M24} being entered into; and

(3) Where the authority ascertains that the carrying out or, as the case may be, the continuation of the development would adversely affect the integrity of a European site or a European offshore marine site, it nevertheless need not proceed under the review provisions if and so long as it considers that there is no likelihood of the development being carried out or continued.

General development orders

General development orders

75. It is a condition of any planning permission granted by a general development order made on or after 30th November 2017, that development which—

- (a) is likely to have a significant effect on a European site or a European offshore marine site (either alone or in combination with other plans or projects), and
- (b) is not directly connected with or necessary to the management of the site,

must not be begun until the developer has received written notification of the approval of the local planning authority under regulation 77 (approval of local planning authority).

General development orders: opinion of appropriate nature conservation body

76.—(1) Where it is intended to carry out development in reliance on the permission granted by a general development order, application may be made in writing to the appropriate nature conservation body for its opinion as to whether the development is likely to have a relevant effect.

(2) The application must give details of the development which is intended to be carried out.

(3) On receiving such an application, the appropriate nature conservation body must consider whether the development is likely to have such an effect.

(4) Where it considers that it has sufficient information to conclude that the development will, or will not, have such an effect, it must notify the applicant and the local planning authority in writing of its opinion.

(5) If the appropriate nature conservation body considers that it has insufficient information to reach either of those conclusions, it must notify the applicant in writing indicating in what respects it considers the information insufficient, and the applicant may supply further information with a view to enabling it to reach a decision on the application.

(6) The opinion of the appropriate nature conservation body, notified in accordance with paragraph (4), that the development is not likely to have a relevant effect is conclusive of that question for the purpose of reliance on the planning permission granted by a general development order.

(7) In this regulation and in regulation 77, “a relevant effect” means an effect of a kind mentioned in regulation 75(a).

Status: Point in time view as at 31/12/2020.

- (a) give details of the development which is intended to be carried out; and
- (b) be accompanied by—
 - (i) a copy of any relevant notification by the appropriate nature conservation body under regulation 76; and
 - (ii) any fee required to be paid.

(2) For the purposes of its consideration of the application the local planning authority must assume that the development is likely to have a relevant effect.

(3) The authority must send a copy of the application to the appropriate nature conservation body and must take account of any representations made by it.

(4) If in its representations the appropriate nature conservation body states its opinion that the development is not likely to have a relevant effect, the local planning authority must send a copy of the representations to the applicant.

(5) The sending of the copy of the representations to the applicant under paragraph (4) has the same effect as a notification by the appropriate nature conservation body of its opinion under regulation 76(4).

(6) In any other case in which the application has been sent to the appropriate nature conservation body, the local planning authority must, taking account of any representations made by the appropriate nature conservation body, make an appropriate assessment of the implications of the development for the European site or European offshore marine site in view of that site's conservation objectives.

(7) In the light of the conclusions of the assessment the local planning authority may approve the development only after having ascertained that it will not adversely affect the integrity of the site.

General development orders: supplementary

78.—(1) The local planning authority for the purposes of regulations 75 to 77 is the authority to which an application for approval under regulation 77 would fall to be made if it were an application for planning permission.

- (2) The fee payable in connection with an application for such approval is £30.
- (3) Approval required by regulation 75 is to be treated—
 - (a) for the purposes of the provisions of the TCPA 1990 relating to appeals, as approval required by a condition imposed on a grant of planning permission; and
 - (b) for the purposes of the provisions of any general development order relating to the time within which notice of a decision should be given, as approval required by a condition attached to a grant of planning permission.

CHAPTER 8

Land Use Plans

Land use plans

Assessment of implications for European sites and European offshore marine sites

105.—(1) Where a land use plan—

- (a) is likely to have a significant effect on a European site or a European offshore marine site (either alone or in combination with other plans or projects), and
- (b) is not directly connected with or necessary to the management of the site,

the plan-making authority for that plan must, before the plan is given effect, make an appropriate assessment of the implications for the site in view of that site's conservation objectives.

(2) The plan-making authority must for the purposes of the assessment consult the appropriate nature conservation body and have regard to any representations made by that body within such reasonable time as the authority specifies.

(3) The plan-making authority must also, if it considers it appropriate, take the opinion of the general public, and if it does so, it must take such steps for that purpose as it considers appropriate.

(4) In the light of the conclusions of the assessment, and subject to regulation 107, the plan-making authority must give effect to the land use plan only after having ascertained that it will not adversely affect the integrity of the European site or the European offshore marine site (as the case may be).

(5) A plan-making authority must provide such information as the appropriate authority may reasonably require for the purposes of the discharge by the appropriate authority of its obligations under this Chapter.

(6) This regulation does not apply in relation to a site which is—

- (a) a European site by reason of regulation 8(1)(c), or
- (b) a European offshore marine site by reason of regulation 18(c) of the Offshore Marine Conservation Regulations (site protected in accordance with Article 5(4) of the Habitats Directive).

Status: Point in time view as at 31/12/2020.

Changes to legislation: The Conservation of Habitats and Species Regulations 2017, PART 6 is up to date with all changes known to be in force on or before 02 April 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

Assessment of implications for European site: neighbourhood development plans

106.—(1) A qualifying body which submits a proposal for a neighbourhood development plan must provide such information as the competent authority may reasonably require for the purposes of the assessment under regulation 105 or to enable it to determine whether that assessment is required.

(2) In this regulation, “qualifying body” means a parish council, or an organisation or body designated as a neighbourhood forum, authorised for the purposes of a neighbourhood development plan to act in relation to a neighbourhood area as a result of section 61F of the TCPA 1990 (authorisation to act in relation to neighbourhood areas)^{M61}, as applied by section 38C of the 2004 Planning Act (supplementary provisions)^{M62}.

(3) Where the competent authority decides to revoke or modify a neighbourhood development plan after it has been made, it must for that purpose make an appropriate assessment of the implications for any European site likely to be significantly affected in view of that site's conservation objectives; and regulation 105 and paragraph (1) apply with the appropriate modifications in relation to such a revocation or modification.

(4) This regulation applies in relation to England only.

Considerations of overriding public interest

107.—(1) If the plan-making authority is satisfied that, there being no alternative solutions, the land use plan must be given effect for imperative reasons of overriding public interest (which, subject to paragraph (2), may be of a social or economic nature), it may give effect to the land use plan notwithstanding a negative assessment of the implications for the European site or the European offshore marine site (as the case may be).

(2) Where the site concerned hosts a priority natural habitat type or a priority species, the reasons referred to in paragraph (1) must be either—

- (a) reasons relating to human health, public safety or beneficial consequences of primary importance to the environment; or
- (b) any other reasons which the plan-making authority, having due regard to the opinion of the [^{F16}appropriate authority], considers to be imperative reasons of overriding public interest.

(3) Where a plan-making authority other than the Secretary of State or the Welsh Ministers desire to obtain the opinion of the [^{F17}appropriate authority] as to whether reasons are to be considered imperative reasons of overriding public interest, it may submit a written request to the appropriate authority—

- (a) identifying the matter on which an opinion is sought; and
- (b) accompanied by any documents or information which may be required.

[^{F18}(4) In giving its opinion as to whether the reasons are imperative reasons of overriding public interest, the appropriate authority must have regard to the national interest, and provide its opinion to the competent authority.]

[^{F19}(4A) Before giving its opinion as to whether the reasons are imperative reasons of overriding public interest, the appropriate authority must consult the following, and have regard to their opinion—

- (a) the Joint Nature Conservation Committee;
- (b) where the appropriate authority is the Secretary of State, the devolved administrations;
- (c) where the appropriate authority is the Welsh Ministers, the Secretary of State and the other devolved administrations; and
- (d) any other person the appropriate authority considers appropriate.]

(5) Where a plan-making authority other than the Secretary of State or the Welsh Ministers propose to give effect to a land use plan under this regulation notwithstanding a negative assessment of the implications for the site concerned it must—

- (a) notify the appropriate authority; and
- (b) not give effect to the land use plan before the end of the period of 21 days beginning with the day notified by the appropriate authority as that on which its notification was received, unless the appropriate authority notify it that it may do so.

(6) Without prejudice to any other power, the appropriate authority may give directions to the plan-making authority in any such case prohibiting it from giving effect to the land use plan, either indefinitely or during such period as may be specified in the direction.

(2) Nothing in paragraph (1) of regulation 105 requires a local planning authority to assess any implications of a joint local development document or plan which would be more appropriately assessed under that provision by another local planning authority.

(3) The appropriate authority may issue guidance to local planning authorities for the purposes of regulation 105(1) as to the circumstances in which a local planning authority may or should adopt the reasoning or conclusions of another local planning authority as to whether a joint local planning document or plan—
