**2019 No. 450**

**The Trade Remedies (Dumping and  
Subsidisation) (EU Exit) Regulations 2019**

**PART 2**

Dumping

CHAPTER 2

Determination of the normal value

**Alternative methodologies to determine the normal value**

**8.—(1)** Where there is no comparable price, or it is not appropriate to use the comparable price in accordance with regulation 7(2), the TRA must determine the normal value of the goods—

- (a) by determining the costs of production plus a reasonable amount for administrative, selling and general costs and for profits;
- (b) by determining the price of the like goods when exported to an appropriate third country or territory provided that price is representative (see regulation 10); or
- (c) in accordance with regulation 14 (normal value in respect of imports from particular foreign countries and territories) where that regulation applies.

(2) Where regulation 7(2)(c) applies, the TRA may also calculate the normal value on the basis of the data from other overseas exporters of the goods concerned in the exporting country or territory.
