

EXPLANATORY MEMORANDUM TO
**THE EQUINE (RECORDS, IDENTIFICATION AND MOVEMENT)
(AMENDMENT) (EU EXIT) REGULATIONS 2019**
2019 No. 591

1. Introduction

- 1.1 This explanatory memorandum has been prepared by the Department for the Environment, Food and Rural Affairs and is laid before Parliament by Command of Her Majesty.
- 1.2 This memorandum contains information for the Joint Committee on Statutory Instruments.

2. Purpose of the instrument

- 2.1 The purpose of this instrument is to ensure that direct EU legislation regarding equine identification and retained by section 3 of the European Union (Withdrawal) Act 2018 remains operable once the UK leaves the EU.
- 2.2 The current system of equine identification is set out in EU legislation, primarily by Commission Implementing Regulation (EU) 2015/262 (Equine Passport Regulation).
- 2.3 The aim is to retain a robust system of equine identification to support high standards of equine biosecurity, enforcement, food safety, fraud prevention, welfare and international trade.

Explanations

What did any relevant EU law do before exit day?

- 2.4 EU law sets out the current system of equine identification. Key features include single lifetime identification documents that identify individual equines, their markings (e.g. microchips and diagrams) and food chain eligibility.
- 2.5 EU law also prescribes the Central Equine Database, and the UK's database holds much of the aforementioned information and is of particular use for enforcement, biosecurity, food safety, fraud prevention and welfare purposes.

Why is it being changed?

- 2.6 These Regulations will make those amendments necessary to retain an effective system of equine identification in order to sustain biosecurity, equine movements, food safety and welfare.
- 2.7 The Regulations have been drafted using the assumption of a 'no deal' EU Exit.

What will it now do?

- 2.8 These Regulations will ensure that equines continue to be identified both by way of a single lifetime document and Central Equine Database, and will maintain high standards of biosecurity, equine movements, food safety and welfare.

3. Matters of special interest to Parliament

Matters of special interest to the Joint Committee on Statutory Instruments

- 3.1 The Equine (Records, Identification and Movement) (Amendment) (EU Exit) Regulations 2018 were presented to the sifting committees on 20 November 2018. The Commons sifting committee agreed with the Government that this instrument does not have to have a debate in Parliament, though one may still occur. However, the Lords sifting committee disagreed with the Government and recommended that this instrument be debated in Parliament. The recommendation was published on gov.uk on 6 December 2018.
- 3.2 The Lords sifting committee noted potential costs associated with moving an equine from the UK to the EU mentioned in the Technical Notice on ‘taking horses abroad if there’s no Brexit deal’, which was published on gov.uk on 12 October 2018 and referred to in the Explanatory Memorandum presented to the sifting committees alongside this instrument. In recommending that the instrument was made subject to the affirmative resolution procedure, the Lords sifting committee remarked (in its 8th Report of Session 2017-19 on proposed negative statutory instruments under the European Union (Withdrawal) Act 2018, published on 6 December 2018 on parliament.uk) that while Defra emphasises that the additional costs and administrative requirements would not be a result of the instrument itself but of a ‘no deal’ withdrawal from the EU, the Committee nevertheless is of the view that the instrument highlights the considerable impact that a ‘no deal’ withdrawal from the EU could have in this area, and that the House may wish to debate some of these issues.
- 3.3 Consequently, the Parliamentary Under Secretary of State for the Department for Environment, Food and Rural Affairs, Lord Gardiner of Kimble, has agreed for this instrument to be made subject to the affirmative procedure.
- 3.4 No substantive changes have been made to the instrument since it was presented to the sifting committees.

Matters relevant to Standing Orders Nos. 83P and 83T of the Standing Orders of the House of Commons relating to Public Business (English Votes for English Laws)

- 3.5 The territorial application of this instrument is the UK.

4. Extent and Territorial Application

- 4.1 The territorial extent of this instrument is the UK.
- 4.2 The territorial application of this instrument is the UK.

5. European Convention on Human Rights

- 5.1 The Parliamentary Under Secretary of State for the Department for Environment, Food and Rural Affairs, Lord Gardiner of Kimble, has made the following statement regarding Human Rights:
- “In my view the provisions of the Equine (Records, Identification and Movement) (Amendment) (EU Exit) Regulations 2019 are compatible with the Convention rights.”

6. Legislative Context

- 6.1 This instrument is made in exercise of the powers conferred by the European Union (Withdrawal) Act 2018 (c. 16) ('the Withdrawal Act') (in particular under section 8(1) to (3) and (6) of, and paragraph 21 of Schedule 7 to, that Act) in order to address failures of retained EU law to operate effectively and other deficiencies arising from the withdrawal of the UK from the EU.
- 6.2 This instrument makes amendments to EU legislation in the field of equine identification which, prior to the UK's withdrawal from the EU, has had direct effect in the UK and is retained post EU Exit by virtue of the Withdrawal Act.
- 6.3 Part 1 of this instrument makes amendments to Commission Implementing (EU) Regulation 2015/262 laying down rules pursuant to Council Directives 90/427/EEC and 2009/156/EC as regards the methods for the identification of equidae (OJ L 59, 3.3.2015 p 1 – 51). Part 3 makes similar amendments to Commission Decision 92/216/EEC, Commission Decision 92/353 and Commission Decision 92/354/EEC. Part 4 makes corresponding amendments to Annex 1 of the Agreement on the European Economic Area.

7. Policy background

What is being done and why?

- 7.1 This instrument will ensure that equines continue to be identified by way of a single lifetime document to underpin high standards in biosecurity, food safety and welfare.
- 7.2 This includes ensuring that the human food chain continues to be protected from potentially harmful substances that may be given to equines.
- 7.3 This instrument helps ensure that UK equines continue to be able to travel to and from the EU with the minimum of disruption, whilst maintaining high biosecurity and welfare standards.
- 7.4 Equine welfare is enforced by local authority Trading Standards and robust identification information makes it easier to deal with cases of abandoned, lost or stolen equines.
- 7.5 The UK's Central Equine Database, established in accordance with Commission Implementing (EU) Regulation 2015/262, provides accurate, up to date, information about equines, their owners and food chain eligibility, all of which are important features of a robust system of equine identification and enforcement. This instrument provides a clear legal basis for these important features.

8. European Union (Withdrawal) Act 2018/Withdrawal of the United Kingdom from the European Union

- 8.1 This instrument is being made using the power in section 8 of the European Union (Withdrawal) Act 2018 in order to address failures of retained EU law to operate effectively or other deficiencies arising from the withdrawal of the UK from the EU. The instrument is also made in accordance with Paragraph 21 of Schedule 7 of the 2018 Act. In accordance with the requirements of that Act the Minister has made the relevant statements as detailed in Part 2 of the Annex to this Explanatory Memorandum.

9. Consolidation

9.1 None.

10. Consultation outcome

10.1 Devolved Administrations have been consulted and are content.

11. Guidance

11.1 Guidance amended as necessary to reflect this instrument will be offered to UK Passport Issuing Organisations and local authority Trading Standards.

12. Impact

12.1 There is no significant impact on business, charities or voluntary bodies.

12.2 The impact on the public sector is minimal. Local authorities and the Food Standard Agency may need to update some references in their respective guidance relating to their implementation and enforcement procedures.

12.3 An Impact Assessment has not been prepared for this instrument because the total cost of the proposals falls below the £5 million de minimus requirement for Impact Assessments. This instrument relates to the maintenance of existing regulatory standards and will not introduce new policy.

12.4 For the purposes of clarity, guidance on ‘taking horses abroad if there’s no Brexit deal’ was published on 12 October 2018 on GOV.UK. This explains possible costs to owners if additional blood tests are required as part of the export certification process. Whilst this instrument supports the continued movement of equines into and through the EU with the minimum of disruption, any such costs do not result from this instrument.

13. Regulating small business

13.1 The legislation applies to activities that are undertaken by small businesses.

13.2 The Equine (Records, Identification and Movement) (Amendment) (EU Exit) Regulations 2019 are vital in order to address failures of retained EU law to operate effectively, or other deficiencies relating to equine identification arising from the withdrawal of the UK from the EU, to ensure that equines are able to continue to move into and through the EU. All principal policy and enforcement changes to equine identification policy were previously introduced by the domestic Equine (Identification) (England) Regulations 2018. These domestic Regulations were fully consulted on in 2017. The domestic legislation was laid before Parliament on 25 June 2018, and came into force on 1 October 2018, apart from a provision for retrospective microchipping older horses, which will apply from 1 October 2020, with parallel domestic legislation being prepared in Devolved Administrations.

13.3 The Equine (Records, Identification and Movement) (Amendment) (EU Exit) Regulations 2019 were not separately consulted on following the full consultation exercise carried out in 2017 for domestic equine identification legislation, as the Equine (Records, Identification and Movement) (Amendment) (EU Exit) Regulations 2019 do not change policy, but seek only to address failures of retained EU law to operate effectively following the UK’s withdrawal from the EU.

14. Monitoring & review

- 14.1 As this instrument is made under the European Union (Withdrawal) Act 2018, no review clause is required.
- 14.2 However, certain reviews will be carried out, such as the one described in the Explanatory Memorandum to the Equine Identification (England) Regulations 2018 (S.I. 2018 No. 761) that describes a review of the impact and operation of UK Passport Issuing Organisations, local authorities and the Food Standards Agency (in the context of equine identification regulations) to be completed by no later than October 2023.

15. Contact

- 15.1 Queries may be directed to the Equine Identification Team at the Department for Environment, Food and Rural Affairs by telephone on 02080264133 or by email to Equine.Identification@defra.gsi.gov.uk.
- 15.2 Catherine Harrold, Deputy Director for Future Animal and Plant Health, Endemics and Traceability, at the Department for Environment, Food and Rural Affairs confirm that this Explanatory Memorandum meets the required standard.
- 15.3 The Parliamentary Under Secretary of State for Rural Affairs and Biosecurity at the Department for Environment, Food and Rural Affairs, Lord Gardiner of Kimble, can confirm that this Explanatory Memorandum meets the required standard.
