

EXPLANATORY MEMORANDUM TO
THE ORGANIC PRODUCTION (CONTROL OF IMPORTS) (AMENDMENT) (EU
EXIT) REGULATIONS

2019 No. 692

1. Introduction

- 1.1 This explanatory memorandum has been prepared by the Department for Environment, Food and Rural Affairs (“Defra”) and is laid before Parliament by Act.

2. Purpose of the instrument

- 2.1 This instrument ensures that organic standards remain the same as now for organic operators within the UK by amending deficiencies within the retained EU legislation.

Explanations

What did any relevant EU law do before exit day?

- 2.2 Organic food and feed has been strictly regulated in the UK and in other EU Member States. The organic scheme rules cover organic production, processing, labelling and imports as well as the inspection systems that must be in place to ensure the requirements are met. The Regulations apply to the import, export and trade in organic food, feed and vegetative propagating material or seeds for cultivation.

Why is it being changed?

- 2.3 Through the European Union (Withdrawal) Act 2018, the existing EU organic regulations will be retained in UK law and continue to apply after we have left the EU.
- 2.4 Parts of this legislation, for example, references to the UK as a ‘Member State’ - will not be operable when applied in a UK-only context. This instrument makes changes to ensure that the retained regulations work in UK law.
- 2.5 In addition to this instrument, three further instruments will be laid prior to exit day. A summary of these is in the second annex.

What will it now do?

- 2.6 This instrument amends the retained EU organic legislation to enable it to work in the UK when we have left the EU. This Instrument makes the organics regulations operable. References will apply to UK borders and import regulations, rather than EU and ensure the continued regulation and certification of organic products to the current standards applicable within the UK.
- 2.7 A summary of amendments made in the Organic Production (Control of Imports) (Amendment) (EU Exit) Regulations 2019 is in the second annex.

3.3 This instrument has effect in the whole of the United Kingdom and, as such, the English Votes for English Laws procedure is not applicable to this instrument.

4. Extent and Territorial Application

4.1 The territorial extent and application of this instrument is the United Kingdom.

5. European Convention on Human Rights

5.1 The Minister of State for Agriculture, Fisheries and Food, Robert Goodwill MP has made the following statement regarding Human Rights:

“In my view the provisions of The Organic Production (Control of Imports) (Amendment) (EU Exit) Regulations 2019 are compatible with the Convention rights.”

6. Legislative Context

6.1 Through the European Union (Withdrawal) Act 2018, existing EU Regulations (Regulation (EC) No 834/2007, Regulation (EC) No 889/2008 and Regulation (EC) No 1235/2008) will be converted into UK law and continue to apply after we have left the EU. The amendments made to these Regulations by this instrument will ensure the operability of these Regulations on exit day.

7. Policy background

What is being done and why?

7.1 This instrument ensures that retained EU organic legislation is operable in the UK on the day the UK leaves the EU.

7.2 The UK has over 6,000 organic operators, many farmers and Small and Medium-sized Enterprises who would be particularly vulnerable. It can take up to three years to convert to organic following which organic products attract a price premium.

7.3 The organic sector is worth £2.2BN p.a. to the UK economy, and in growth. Exports are worth around £200M to the UK economy. Therefore, a fully operational organic regime is essential to ensure the sector can continue to operate after exit day.

7.4 This instrument ensures the continuation of the import and trade in organic food, feed and vegetative propagating material or seeds for cultivation.

8. European Union (Withdrawal) Act 2018/Withdrawal of the United Kingdom from the European Union

- 8.1 This instrument is being made using the power in section 8 of the European Union (Withdrawal) Act 2018 in order to address failures of retained EU law to operate effectively or other deficiencies arising from the withdrawal of the United Kingdom from the European Union. The instrument is also made under paragraph 21 of schedule 7 to the European Union (Withdrawal) Act 2018. In accordance with the requirements of that Act the Minister has made the relevant statements as detailed in Part 2 of Annex 1 to this Explanatory Memorandum.

9. Consolidation

- 9.1 Defra has no plans currently to consolidate the legislation that is amended by this instrument.

10. Consultation outcome

- 10.1 This instrument has been developed in formal consultation with the Devolved Administrations by way of regular meetings and *ad-hoc* communications. Defra considers this reserved policy.
- 10.2 We have worked with the United Kingdom Organic Certifiers Group (“UKOCG”) as industry representatives on this and future implementation of the UK regulations once we have left the EU.

11. Guidance

- 11.1 This instrument does not introduce any new obligations. We will continue to engage with the UK organic sector in preparations for leaving the EU.

12. Impact

- 12.1 There is expected to be no, or no significant, impact on business, charities or voluntary bodies.
- 12.2 There is likely to be some impact on the public sector to ensure operability of systems on Day 1. These impacts relate to the development of a new imports process for the UK.
- 12.3 An Impact Assessment has not been prepared for this instrument as there is expected to be no, or no significant, impact on business as the instrument relates to the maintenance of existing regulatory standards. There may be minimal familiarisation needed for businesses to set up to use the new import and export systems.
- 12.4 The conditions for trade in organic products with the EU in organic products will depend on the arrangement decided with the EU, which is outside of the scope of this instrument. The amendments to the Regulations are intended to simply ensure that the retained EU legislation is operable.

13. Regulating small business

- 13.1 The legislation applies to activities that are undertaken by small businesses.
- 13.2 To minimise the impact of the requirements on small businesses (employing up to 50 people), the approach taken is to retain the EU organic regulations as they apply

directly before EU exit day. This instrument ensures the regulations will be operable in the UK and therefore, any direct impact will be minimal.

14. Monitoring & review

- 14.1 The approach to monitoring of this legislation is continued liaison with the organic sector to ensure there are no unintended consequences.
- 14.2 As this instrument is made under the European Union (Withdrawal) Act 2018, no review clause is required.

Council Regulation (EC) No 834/2007 of 28 June 2007 on organic production and labelling of organic products	<p>This Regulation sets out the organic production framework for the production and labelling of organic food and feed. The provisions included in this instrument are all reserved to the Secretary of State.</p> <p>Minor technical amendments have been made to the Regulation to ensure that this Regulation has effect for the UK organic sector after EU Exit.</p> <p>In Article 38, a ‘shall’ has been changed to ‘may.’ This instrument amends a duty in this legislation where the duty has already been carried out by the EU. This rule has been laid down in the implementing legislation and so there is no longer a need to require detailed rules to be made. This instrument, however, retains the power to lay down a detailed rule and provides that the Secretary of State may do so.</p>
Commission Regulation (EC) No 889/2008 of September 2008 laying down detailed rules for the implementation of Council Regulation (EC)	This Regulation implements the organic production framework for the production and labelling of organic food and feed as it relates to production and labelling. This will ensure the status quo remains immediately after EU Exit.</p> <p>The UK will be able to accept applications from overseas control bodies to certify to the UK organic standards, and subsequently approve these bodies if the UK wishes.</p>
