7. Policy background

What is being done and why?

- 7.1 On 17 March 2019 the Council of the European Union adopted Council Decision (CFSP) 2019/797 and Council Regulation (EU) 2019/796 concerning restrictive measures against cyber-attacks threatening the Union or its Member States. These measures consist of targeted restrictive measures against persons who are responsible for, or provide financial, technical or material support for or are otherwise involved in, cyber-attacks with a potentially significant effect, including cyber-attacks with a potentially significant effect, which constitute an external threat to the European Union or its Member States, as well as persons associated with them.
- 7.2 The restrictive measures include an asset freeze, which requires that all funds and economic resources belonging to, owned, held or controlled by the designated person are frozen, and prohibits funds or economic resources from being made available directly or indirectly to or for the benefit of the designated person. As at the date of this memorandum, the Council has not yet subjected any persons to the measures.
- 7.3 There is no international or European law obligation to implement in the Territories restrictive measures adopted by the European Union. However, it is the policy of Her Majesty's Government to give effect to these measures in the Territories in order to make sanctions as effective as possible. In accordance with usual practice, this Order provides for the relevant criminal offences and enforcement powers in the Territories.

- 8.1 This instrument does not relate to withdrawal from the European Union.
