

## SCHEDULE 1

### Information the safety case must contain

#### **General information**

2. General descriptions of—
  - (a) the applicant's organisation and management structure;
  - (b) the launch vehicle to be used including descriptions and, where appropriate, diagrams of—
    - (i) its concept of operations,
    - (ii) any payload or class of payload, and
    - (iii) the layout of systems that are part of it;
  - (c) any carrier aircraft to be used including descriptions and, where appropriate, diagrams of—
    - (i) its concept of operations,
    - (ii) any payload or class of payload, and
    - (iii) the layout of systems that are part of it;
  - (d) the facilities and major items of equipment that the applicant will need to carry out the proposed spaceflight activities, and which, if any, of these will be provided by a proposed spaceport licensee or by a proposed range control service provider;
  - (e) the areas which could be affected by a major accident during the proposed spaceflight activities, including—
    - (i) their geography,
    - (ii) any structures in them built by humans or built for human use or benefit, and
    - (iii) the existing and expected locations of humans and areas of habitation within those areas.
