An application has been made to the Secretary of State in accordance with the Transport and Works (Applications and Objections Procedure) (England and Wales) Rules 2006(a) for an order under sections 3(1)(b) and 5 of the Transport and Works Act 1992(b) (“the 1992 Act”).

(6) Where notice is served under paragraph (5), the owner or occupier of the building or land concerned may, by serving a counter-notice within the period of 10 days beginning with the day on which the notice was served, require the question as to whether it is necessary or expedient to carry out the protective works or to enter and take possession of the building or land to be referred to arbitration under article 68 (arbitration).

(7) The Agency must compensate the owners and occupiers of any building or land in relation to which the powers conferred by this article have been exercised for any loss or damage arising to them by reason of the exercise of those powers.

- (a) protective works are carried out under this article to the building, and

Any planning permission which is deemed by a direction given under section 90(2A) of the 1990 Act^(a) (development with government authorisation) to be granted in relation to the authorised works is to be treated as specific planning permission for the purposes of section 264(3)(a) of that Act (cases in which land is to be treated as operational land).

Rights under or over streets

36.—(1) The Agency may enter upon and appropriate so much of the surface or subsoil of, or airspace over, any street within the Order limits as may be required for the purposes of the authorised works and may use the surface, subsoil or airspace for those purposes or any other purpose ancillary to its undertaking.

 - (ii) any other land within Order limits in respect of which no notice of entry has been served under section 11 of the 1965 Act(a) (powers of entry) (other than in connection with the acquisition of new rights only) or no declaration has been made under section 4 of the Compulsory Purchase (Vesting Declarations) Act 1981 Act(b) (execution of declaration);

- (a) in the case of land specified in columns (1) and (2) of Schedule 6 (land of which temporary possession only may be taken), after the end of the period of 2 years beginning with the date of completion of the works specified in relation to that land in column (3) of that Schedule;
- (b) in the case of any other land within Order limits, after the end of the period of 2 years beginning with the date of completion of the works for which temporary possession of the land was taken unless the Agency has, before the end of that period, served a notice of entry under section 11 of the 1965 Act or made a declaration under section 4 of the Compulsory Purchase (Vesting Declarations) Act 1981 in relation to that land.

(4) Subject to paragraph (5), before giving up possession of land of which temporary possession has been taken under this article, the Agency must remove all temporary works and restore the land to the reasonable satisfaction of the owners of the land.

(5) The Agency is not required to—

(a) Section 11 was amended by Schedule 4 to the Acquisition of Land Act 1981 (c. 67), by paragraph 12(1) of Schedule 5 to the Church of England (Miscellaneous Provisions) Measure 2006 (No. 1), by section 186(2), 187(2) and 188 of, and paragraph 6 of Schedule 14 and paragraphs 2 and 3 of Schedule 16 to, the Housing and Planning Act 2016, and S.I. 2009/1307.

(9) The power to acquire rights in land conferred by article 31 (power to acquire rights in land) does not apply in relation to land referred to in sub-paragraph (1)(a)(i) except that the Agency is not precluded from acquiring rights in any part of the subsoil or airspace of that land under article 35 (power to acquire subsoil or air-space).

(10) Where the Agency takes possession of land under this article, the Agency is not required to acquire the land or any interest in it.

(11) Section 13 of the 1965 Act^(a) (refusal to give possession to acquiring authority) applies to the temporary possession of land pursuant to this article to the same extent as it applies to the acquisition of land under this Order by virtue of article 33(1) (application of Part 1 of the 1965 Act).

Temporary possession of land for maintenance of works

38.—(1) Subject to paragraphs (2) and (3), at any time during the maintenance period relating to any of the scheduled works, the Agency may—

(2) Paragraph (1) does not authorise the Agency to take temporary possession of—

- (b) any building (other than a house) if it is for the time being occupied.

(3) Not less than 28 days before entering upon and taking temporary possession of land under this article the Agency must serve notice of the intended entry on the owners and occupiers of the land.

(4) The Agency may only remain in possession of land under this article for so long as may be reasonably necessary to carry out the maintenance works for which possession of the land was taken.

(a) Section 13 was amended by sections 62(3) and 139(4) to (9) of, and paragraphs 27 and 28 of Schedule 13 to, the Tribunals, Courts and Enforcement Act 2007 (c. 15).

(7) Any dispute as to a person's entitlement to compensation under paragraph (6), or as to the amount of the compensation, is to be determined under Part 1 of the 1961 Act.

(8) Without affecting article 69 (no double recovery), nothing in this article affects any liability to pay compensation under section 10(2) of the 1965 Act (further provision as to compensation for injurious affection) or under any other enactment in respect of loss or damage arising from the execution of any works, other than loss or damage for which compensation is payable under paragraph (7) of this article.

(9) Where the Agency takes possession of land under this article, the Agency is not required to acquire the land or any interest in it.

(10) Section 13 of the 1965 Act (refusal to give possession to acquiring authority) applies to the temporary possession of land pursuant to this article to the same extent as it applies to the acquisition of land under this Order by virtue of article 33 (application of Part 1 of the 1965 Act).

(11) In this article, "the maintenance period", in relation to a scheduled work, means the period of 5 years beginning with the date on which the work is opened for use.

Compensation

Disregard of certain interests and improvements

39.—(1) In assessing the compensation payable to any person on the acquisition from that person of any land under this Order, the tribunal must not take into account—

- (a) any interest in land;
- (b) any enhancement of the value of any interest in land by reason of any building erected, works executed or improvement or alteration made on relevant land,

if the tribunal is satisfied that the creation of the interest, the erection of the building, the execution of the works or the making of the improvement or alteration was not reasonably necessary and was undertaken with the intention of obtaining compensation or increased compensation.

(2) In paragraph (1)(b), "relevant land" means—

- (a) the land acquired from the person concerned, or
- (b) any other land with which that person is, or was at the time when the building was erected, the works executed or the improvement or alteration made, directly or indirectly concerned.

Set-off for enhancement in value of retained land

40.—(1) In assessing the compensation payable to any person in respect of the acquisition from that person under this Order of any land (including the subsoil) the tribunal must set-off against the value of the land so acquired any increase in value of any contiguous or adjacent land belonging to that person in the same capacity which will accrue to that person by reason of the construction of the authorised works.

(2) In assessing the compensation payable to any person in respect of the acquisition from that person under this Order of any new rights over land (including the subsoil or airspace) or the imposition of any restrictive covenants under article 31 (power to acquire rights in land), the tribunal must set-off against the value of the rights so acquired any increase in the value of—

- (a) the land over which the new rights are required or the restrictive covenants imposed; and
- (b) any contiguous or adjacent land belonging to that person in the same capacity,

which will accrue to that person by reason of the construction of the authorised works.

(3) The 1961 Act has effect, subject to paragraphs (1) and (2), as if this Order were a local enactment for the purposes of that Act.

Supplementary

Extinction or suspension of private rights of way etc. over land

41.—(1) Subject to paragraph (5), all private rights of way over land subject to compulsory acquisition under this Order are extinguished—

- (a) as from the date of acquisition of the land by the Agency, whether compulsorily or by agreement, or
- (b) on the date of entry on the land by the Agency under section 11(1) of the 1965 Act (powers of entry),

whichever is sooner.

(2) Subject to paragraph (5), all private rights of way over land owned by the Agency which, being within the Order limits, is required for the purposes of this Order, are extinguished on the appropriation of the land for any of those purposes by the Agency.

(3) Subject to paragraph (5), all private rights of way over land of which the Agency takes temporary possession under this Order are suspended and unenforceable for as long as the Agency remains in lawful possession of the land.

(4) This article does not apply in relation to any right of way to which section 271 or 272 of the 1990 Act(a) (extinguishment of rights of statutory undertakers etc.) applies.

(5) Paragraphs (1), (2) and (3) have effect subject to—

- (a) any notice given by the Agency before—
 - (i) the completion of the acquisition of,
 - (ii) the Agency's appropriation of,
 - (iii) the Agency's entry onto, or
 - (iv) the Agency's taking temporary possession of,

the land, that any or all of those paragraphs do not apply to any right of way specified in the notice;

- (b) any agreement which makes reference to this article made (whether before or after any of the events mentioned in sub-paragraph (a) and before or after the coming into force of this Order) between the Agency and the person in or to whom the right of way in question is vested or belongs.

(6) If any such agreement as is mentioned in sub-paragraph (5)(b) is expressed to have effect also for the benefit of those deriving title from or under the person in or to whom the right of way in question is vested or belongs, it is effective in respect of the persons so deriving title, whether the title was derived before or after the making of the agreement.

(7) Any person who suffers loss by the extinguishment or suspension of any private right of way under this article is entitled to compensation to be determined, in case of dispute, under Part 1 of the 1961 Act.

Time limit for exercise of powers of acquisition

42.—(1) After the end of the period of 5 years beginning with the day on which this Order comes into force—

(a) Section 272 was amended by paragraph 103 of Schedule 17 to the Communications Act 2003 (c. 21).

- (a) no notice to treat is to be served under Part 1 of the 1965 Act as applied to the acquisition of land by article 33 (application of Part 1 of the 1965 Act); and
- (b) no declaration is to be executed under section 4 (execution of declaration) of the Compulsory Purchase (Vesting Declarations) Act 1981 as applied by article 34 (application of the Compulsory Purchase (Vesting Declarations) Act 1981).

(2) The powers conferred by article 37 (temporary possession of land for construction purposes) cease at the end of the period referred to in paragraph (1), save that nothing in this paragraph prevents the Agency remaining in possession of land after the end of that period, if the land was entered and possession of it was taken before the end of that period.

PART 5

OPERATION OF SCHEDULED WORKS

Power to operate scheduled works

- 43.**—(1) The Agency may operate the scheduled works and among other things may—
- (a) open or close the barrier;
 - (b) regulate water levels in the river by means of the barrier.
- (2) The power conferred in paragraph (1) is to be exercised so as to safeguard against flooding.
- (3) Paragraph (2) does not prevent the exercise of the power contained in paragraph (1) in order to—
- (a) prevent or alleviate any emergency;
 - (b) store or release water;
 - (c) ascertain the safest and most effective ways of using the scheduled works, to test their working or to train staff in their operation;
 - (d) facilitate the construction, maintenance or re-laying of any works in or beside the river.
- (4) Except when required to be closed for the purposes mentioned in paragraphs (2) or (3), the barrier is to remain open.
- (5) When operating the barrier the Agency must have regard to—
- (a) the safety of vessels in the river;
 - (b) the requirements of vessels in the river (including the need to have freedom of access to moorings and berths in the river upstream of the barrier);
 - (c) the desirability of developing and conserving flora and fauna in the river;
 - (d) any reasonable request of—
 - (i) the Harbour Authority or other navigation authority for the time being for or in connection with their functions, and
 - (ii) the police or other emergency services.
- (6) Subject as otherwise expressly provided in this Order, no liability arises in respect of any costs, damages, losses or expenses incurred by any person as a direct or indirect result of—
- (a) any obstruction to, delay of, or other interference with the passage of vessels, or
 - (b) any change in the level of water in the river,
- occasioned by the operation of the scheduled works unless the costs, damages, losses or expenses are incurred by reason of negligence in their operation.

Misuse of scheduled works, etc.

- 44.** Any person who without lawful authority or reasonable excuse—
- (a) closes or opens the barrier, or

(b) in any other way interferes with the scheduled works or their operation,
is guilty of an offence and for every such offence is liable on summary conviction to a fine not exceeding level 3 on the standard scale.

Navigation

Navigation etc. in vicinity of barrier

45.—(1) Any person who, without lawful authority or reasonable excuse, other than in an emergency—

- (a) moors a vessel to any part of Work No.1A without the consent of the Agency,
- (b) allows any vessel to drift in the vicinity of the barrier, except for the purpose of passing through the barrier or waiting to do so, or
- (c) moors a vessel in the vicinity of the barrier so as to obstruct access to or egress from a vertical lift gate or cause an obstruction to other vessels,

is guilty of an offence and liable on summary conviction to a fine not exceeding level 3 on the standard scale.

(2) In this article, “in the vicinity of the barrier” means on or in the area of water between—

- (a) a point 100 metres upstream (along the centre line of the navigable river) from the northernmost point of the moveable gate comprised in the barrier, and
- (b) a point 100 metres downstream (along the centre line of the navigable river) from the southernmost point of the moveable gate comprised in the barrier.

Obstruction etc.

Removal of vessels

46.—(1) Whenever any vessel is sunk, stranded, abandoned, or without lawful authority left or moored, in the river area, the Agency may, after giving (except in an emergency) not less than 21 days’ written notice to the owner of the vessel, raise, remove, store or otherwise dispose of the vessel.

(2) The requirement to give notice in paragraph (1) does not apply in any case where it is not practicable after reasonable inquiry to ascertain the name and address of the owner.

(3) Without prejudice to article 50 (emergency powers and consents), the power conferred by paragraph (1) is not exercisable by the Agency if—

- (a) it is within the powers of the Harbour Authority to deal with the vessel and the Harbour Authority decides to do so; and
- (b) the Agency, having given not less than 14 days’ notice to the Harbour Authority, is informed by the Harbour Authority within that time that the Harbour Authority intends to act and the Harbour Authority subsequently does act within 14 days of informing the Agency of its intention to do so.

(4) Where a vessel is left or moored adjoining riparian property the Agency must give not less than one month’s notice to the owner or occupier of that property and such owner or occupier may make representations to the Agency as to the proposed raising, removal, storage, or disposal of the vessel.

(5) Any notice given by the Agency under paragraph (1) must—

- (a) identify the vessel in respect of which the notice is served and its approximate location;
- (b) state that if the owner fails to raise and remove the vessel before the expiry of the period specified in the notice, the Agency may raise and remove the vessel and recover all expenses reasonably incurred in doing so; and

- (c) indicate that there is a right to refer the matter to arbitration under article 47 (arbitration in respect of removal of vessels).
- (6) The Agency may recover from the owner of any such vessel all expenses reasonably incurred by the Agency in respect of the raising, removal, storage or disposal of—
- (a) the vessel,
 - (b) any furniture, tackle and apparel, goods chattels and effects of the vessel, or
 - (c) any goods, chattels and effects raised or removed from the vessel.
- (7) In any proceedings by the Agency against the owner of the vessel for the recovery of any expenses which the Agency is entitled to recover under paragraph (6), it is not open to that person to raise any question which could have been raised on a referral to arbitration under article 47.
- (8) Subject to paragraph (9), if any vessel to which paragraph (1) applies is not within 6 weeks of its removal by the Agency, proved to the Agency’s satisfaction to belong to any claimant, the vessel (together with any such furniture, tackle, apparel, goods, chattels and effects) vests in the Agency.
- (9) If within 12 months of its removal a claim is made to the vessel by a person who subsequently proves to the satisfaction of the Agency that that person was the owner of the vessel, or has become the owner since the vessel was sunk, stranded, abandoned, left or moored as mentioned in paragraph (1), then the Agency must—
- (a) if the vessel is unsold, permit that person to retake it with any furniture, tackle, apparel, goods, chattels and effects on the vessel upon payment of the expenses referred to in paragraph (6) and upon the Agency so permitting, the vessel (together with any furniture, tackle, apparel, goods, chattels and effects on the vessel) vests in that person;
 - (b) if the vessel (together with any furniture, tackle, apparel, goods, chattels and effects on the vessel) have been sold, pay to that person the amount of the proceeds of such sale after deducting those expenses, and in case such proceeds are insufficient to reimburse the Agency those expenses the deficiency may be recovered from that person by the Agency.
- (10) In this article—
- “owner”, in relation to any vessel sunk, stranded, abandoned, left or moored, means the owner of the vessel at the time of its sinking, stranding, abandonment, leaving or mooring save where the context expressly states otherwise;
- “riparian property” means land (other than the river bed) immediately abutting the river such that the frontage of the land is in physical contact with the river on a daily basis;
- “vessel” includes any part of a vessel.

Arbitration in respect of removal of vessels

- 47.—**(1) Any person served with a notice by the Agency under article 46(1) (removal of vessels) may, within 21 days of service of the notice, serve a counter-notice on the Agency disputing the notice and stating that—
- (a) the vessel is not sunk, stranded, abandoned, or without lawful authority left or moored, in the river area; or
 - (b) there has been some informality, defect or error in, or in connection with, the notice.
- (2) Any dispute under this article is to be determined in accordance with article 68 (arbitration).
- (3) On the hearing of the dispute the arbitrator may confirm or set aside the notice.
- (4) If and in so far as a dispute under this article is based on the ground of some informality, defect or error in, or in connection with, the notice, the arbitrator must dismiss the dispute if the arbitrator is satisfied that the informality, defect or error was not a material one.

Removal of obstructions other than vessels

48.—(1) This article applies to anything, other than a vessel, causing an obstruction or impediment to the navigation or use of the river area (in this article and article 49 (arbitration in respect of removal of obstructions other than vessels) referred to as an “obstruction”) and which the owner of the obstruction, or the owner or occupier of the land on which the obstruction is situated, as the case may be, caused or knowingly permitted to become or remain an obstruction.

(2) Subject to paragraph (3), the Agency may after giving not less than 21 days’ written notice to the owner of an obstruction or, if the owner is not known, the owner or occupier of any land on which the obstruction is situated, require the owner or occupier to mark, modify or remove the obstruction.

(3) Without prejudice to article 50 (emergency powers and consents), the power conferred by paragraph (2) is not exercisable if—

- (a) it is within the powers of the Harbour Authority to deal with the obstruction and the Harbour Authority decides to do so; and
- (b) the Agency, having given not less than 14 days’ notice to the Harbour Authority, is informed by the Harbour Authority within that time that the Harbour Authority intends to act and the Harbour Authority subsequently does act within 14 days of informing the Agency of its intention to do so.

(4) If a person to whom a notice was given pursuant to paragraph (2) fails to take any action specified by the Agency in that notice the Agency may take that action and recover the reasonable costs of doing so from that person.

(5) In any proceedings by the Agency against any person under paragraph (2) for the recovery of costs which the Agency is entitled to recover under paragraph (4), it is not open to that person to raise any question which could have been raised on a referral to arbitration under article 49 (arbitration in respect of removal of obstructions other than vessels).

(6) If an obstruction removed by the Agency under this article is so marked as to be readily identifiable as the property of any person, the Agency must within one month of its coming into the Agency’s custody give written notice to that person and, if possession of the thing is not retaken within the period specified in, and in accordance with the terms of, the notice, it vests in the Agency at the end of that period.

(7) A notice given under paragraph (6) must specify the thing removed and state that, upon proof of ownership to the reasonable satisfaction of the Agency and payment of the reasonable costs of the raising, removal and storage of the thing, possession may be retaken at the place named in the notice within the time specified in the notice, being not less than 14 days after the date when the notice is served.

(8) If an obstruction removed by the Agency under this article, which is not marked as described in paragraph (6), is not within 3 months of its coming into the custody of the Agency proved to the Agency’s reasonable satisfaction to belong to any person, it vests in the Agency.

(9) The Agency may at such time and in such manner as it thinks fit dispose of anything referred to in paragraph (8) which is of a perishable nature or the custody of which involves unreasonable expense or inconvenience even if at the time it has not vested in the Agency under this article, and if it is sold the proceeds of sale must be applied by the Agency in payment of the expenses incurred by it under this article in relation to the thing, and any balance is—

- (a) to be paid to any person who, within 3 months from the time when the thing came into the custody of the Agency, proves to the reasonable satisfaction of the Agency that the person was the owner of the thing at that time, or
- (b) otherwise, to vest in the Agency.

(10) If an obstruction removed by the Agency under this article—

- (a) is sold by the Agency and the proceeds of sale are insufficient to reimburse it for the amount of the expenses incurred by it in the exercise of its powers of removal, or
- (b) is unsaleable,

the Agency may recover the deficiency or the whole of the expenses, as the case may be, from the person who was the owner of the item removed at the time of its abandonment or loss, if that person caused or knowingly permitted the obstruction to be there.

(11) In paragraph (1), reference to anything causing an obstruction or impediment to the navigation or use of the river area is a reference to anything causing an obstruction or impediment to a vessel of a size customarily navigated or used in that area.

Arbitration in respect of removal of obstructions other than vessels

49.—(1) Any person served by the Agency with a notice under article 48 (removal of obstructions other than vessels) may, within 21 days of being served, serve a counter-notice on the Agency disputing the notice on any of the following grounds—

- (a) that the item the Agency required to be marked, removed or modified is not an obstruction,
- (b) that the item required to be marked, removed or modified is an obstruction which has occurred naturally and that to mark, remove or modify it is unreasonable,
- (c) where the requirement is to remove the obstruction, that it would be adequate in all the circumstances of the case to mark or modify the obstruction, or
- (d) where the requirement is to modify the obstruction, that it would be adequate in all the circumstances of the case to mark the obstruction.

(2) Any dispute under this article is to be determined in accordance with article 68 (arbitration).

(3) On the hearing of a dispute under this article the arbitrator may confirm, vary or set aside the requirement of the notice, as the case may be.

Emergency powers and consents

50. The Agency's powers under articles 46 (removal of vessels) and 48 (removal of obstructions other than vessels) may be exercised by the Agency in an emergency without prior notice to the owner or Harbour Authority provided that the Harbour Authority is informed of the action as soon as possible afterwards.

Byelaws

Byelaws

51.—(1) In addition to its powers to make byelaws under any other enactment, the Agency may make byelaws in relation to the navigation and use of the river area, and for its good management in connection with such navigation and use.

(4) Where an agreement has been made by virtue of paragraph (2) references in this Order to the Agency include references to the transferee or the lessee.

Application of landlord and tenant law

61.—(1) This article applies to any agreement for leasing to any person the whole or any part of the authorised works or the right to operate those works, and any agreements entered into by the Agency with any person for the construction, maintenance, use or operation of the authorised works, or any part of them, so far as any such agreement relates to the terms on which any land

(2) No enactment or rule of law regulating the rights and obligations of landlords and tenants prejudices the operation of any agreement to which this article applies.

(3) No such enactment or rule of law applies in relation to the rights and obligations of the parties to any lease granted by or under any such agreement so as to—

- (a) that the nuisance relates to premises used by the Agency for the purposes of or in connection with the exercise of powers conferred by this Order with respect to the authorised works and that the nuisance is attributable to the carrying out of the authorised works which are being carried out in accordance with a notice served under section 60 of the Control of Pollution Act 1974(c) (control of noise on construction sites), or a consent given under section 61 of that Act(d) (prior consent for work on construction sites), or
- (b) that the nuisance is a consequence of the operation of the authorised works and that it cannot reasonably be avoided.

(2) Section 61(9) of the Control of Pollution Act 1974 (consent for work on construction site to include statement that it does not of itself constitute a defence to proceedings under section 82 of the Environmental Protection Act 1990) does not apply where the consent relates to the use of premises by the Agency for the purposes of or in connection with the exercise of powers conferred by this Order with respect to works.

MODIFICATION OF COMPENSATION AND COMPULSORY PURCHASE ENACTMENTS FOR CREATION OF NEW RIGHTS

Compensation enactments

1. The enactments for the time being in force with respect to compensation for the compulsory purchase of land apply, with the necessary modifications as respects compensation, in the case of a compulsory acquisition under this Order of a right by the creation of a new right and in the case of a restrictive covenant, as they apply as respects compensation on the compulsory purchase of land and interests in land.

2.—(1) Without limitation on the scope of paragraph 1, the 1961 Act has effect subject to the following modification.

(2) For section 5A(5A) of the 1961 Act **(a)** (relevant valuation date), substitute—

“(5A) If—

- (a) the acquiring authority enters on land for the purpose of exercising a right in pursuance of a notice of entry under section 11(1) of the 1965 Act;
- (b) the acquiring authority is subsequently required by a determination under paragraph 13 of Schedule 2A to the 1965 Act (as substituted by paragraph 10 of Schedule 4 (modification of compensation and compulsory purchase enactments for creation of new rights) to the Bridgwater Tidal Barrier Order 2022) to acquire an interest in the land; and
- (c) the acquiring authority enters on and takes possession of that land, the authority is deemed for the purposes of subsection (3)(a) to have entered on that land where it entered on that land for the purpose of exercising that right.”.

3.—(1) Without limitation on the scope of paragraph 1, the Land Compensation Act 1973 **(b)** has effect subject to the modifications set out in sub-paragraph (2).

(2) In section 44(1) (compensation for injurious affection), as it applies to compensation for injurious affection under section 7 of the 1965 Act (measure of compensation in case of severance) as substituted by paragraph 4—

- (a) for “land is acquired or taken” substitute “a right or restrictive covenant over land is purchased”;
- (b) for “acquired or taken from him” substitute “over which the right is exercisable or the restrictive covenant enforceable”.

Application of the 1965 Act

4.—(1) The 1965 Act has effect with the modifications necessary to make it apply to the compulsory acquisition under this Order of a right by the creation of a new right, or to the imposition under this Order of a restrictive covenant, as it applies to the compulsory acquisition under this Order of land, so that, in appropriate contexts, references in that Act to land are to be read (according to the requirements of the particular context) as referring to, or as including references to—

- (a) the right acquired or to be acquired or the restrictive covenant imposed or to be imposed,
or

(a) Section 5A was inserted by section 103 of the Planning and Compulsory Purchase Act 2004 (c. 5). Subsection (5A) was inserted by paragraph 4 of Part 2 of Schedule 17 to the Housing and Planning Act 2016 (c. 22).

(b) 1973 c. 26.

- (b) the land over which the right is or is to be exercisable or the restrictive covenant is or is to be enforceable.

(2) Without limitation on the scope of sub-paragraph (1), Part 1 of the 1965 Act (compulsory purchase under Acquisition of Land Act of 1946) applies in relation to the compulsory acquisition under this Order of a right by the creation of a new right, or in relation to the imposition of a restrictive covenant, with the modifications specified in paragraphs 5 to 10.

5. For section 7 of the 1965 Act (measure of compensation in case of severance), substitute—

“7. In assessing the compensation to be paid by the acquiring authority under this Act, regard must be had not only to the extent (if any) to which the value of the land over which the right is to be acquired or the restrictive covenant to be imposed is depreciated by the acquisition of the right or the imposition of the restrictive covenant but also to the damage (if any) to be sustained by the owner of the land by reason of its severance from other land of the owner, or injuriously affecting that other land by the exercise of the powers conferred by this or the special Act.”

6. The following provisions of the 1965 Act (which state the effect of a deed poll executed in various circumstances where there is no conveyance by persons with interests in the land)—

- (a) section 9(4) (failure by owners to convey);
- (b) paragraph 10(3) of Schedule 1 (owners under incapacity);
- (c) paragraph 2(3) of Schedule 2 (absent and untraced owners);
- (d) paragraph 2(3) and 7(2) of Schedule 4 (common land),

are modified so as to secure that, as against persons with interests in the land which are expressed to be overridden by the deed, the right which is to be compulsorily acquired or the restrictive covenant which is to be imposed is vested absolutely in the acquiring authority.

7. Section 11 of the 1965 Act (powers of entry) is modified so as to secure that, as from the date on which the acquiring authority has served notice to treat in respect of any right or restrictive covenant, it has power, exercisable in the like circumstances and subject to the equivalent conditions, to enter for the purpose of exercising that right or enforcing that restrictive covenant (which is to be deemed for this purpose to have been created on the date of service of the notice); and section 12 of the 1965 Act^(a) (penalty for unauthorised entry) and section 13 of that Act (entry on warrant in the event of obstruction) are modified correspondingly.

8. Section 20 of the 1965 Act^(b) (protection for interests of tenants at will etc.) applies with the modifications necessary to secure that persons with such interests in land as are mentioned in that section are compensated in a manner corresponding to that in which they would be compensated on a compulsory acquisition under this Order of that land, but taking into account only the extent (if any) of such interference with such an interest as is actually caused, or likely to be caused, by the exercise of the right or the enforcement of the restrictive covenant in question.

9. Section 22 of the 1965 Act (interests omitted from purchase) is modified so as to enable the acquiring authority, in circumstances corresponding to those referred to in that section, to continue to be entitled to exercise the right acquired, subject to compliance with that section as respects compensation.

10. For Schedule 2A of the 1965 Act substitute—

(a) Section 12 was amended by section 56(2) of, and Part 1 of Schedule 9 to, the Courts Act 1971 (c. 23), and paragraphs 2 and 4 of Schedule 16 to the Housing and Planning Act 2016 (c. 22).

(b) Section 20 was amended by paragraph 4 of Schedule 15 to the Planning and Compensation Act 1991 (c. 34) and S.I. 2009/1307.

“SCHEDULE 2A COUNTER-NOTICE REQUIRING PURCHASE OF LAND

Introduction

1. This Schedule applies where an acquiring authority serves a notice to treat in respect of a right over, or restrictive covenant affecting, the whole or part of a house, building or factory and has not executed a general vesting declaration under section 4 of the Compulsory Purchase (Vesting Declarations) Act 1981^(a) as applied by article 34 of the Bridgwater Tidal Barrier Order 2022 (application of the Compulsory Purchase (Vesting Declarations) Act 1981) in respect of the land to which the notice to treat relates.

2. In this Schedule, “house” includes any park or garden belonging to a house.

Counter-notice requiring purchase of land

3. A person who is able to sell the house, building or factory (“the owner”) may serve a counter-notice requiring the acquiring authority to purchase the owner’s interest in the house, building or factory.

4. A counter-notice under paragraph 3 must be served within the period of 28 days beginning with the day on which the notice to treat was served.

Response to counter-notice

5. On receiving a counter-notice, the acquiring authority must decide whether to—

- (a) withdraw the notice to treat,
- (b) accept the counter-notice, or
- (c) refer the counter-notice to the Upper Tribunal.

6. The acquiring authority must serve notice of their decision on the owner within the period of 3 months beginning with the day on which the counter-notice is served (“the decision period”).

7. If the acquiring authority decides to refer the counter-notice to the Upper Tribunal it must do so within the decision period.

8. If the acquiring authority does not serve notice of a decision within the decision period it is to be treated as if it had served notice of a decision to withdraw the notice to treat at the end of that period.

9. If the acquiring authority serves notice of a decision to accept the counter-notice, the compulsory purchase order and the notice to treat are to have effect as if they included the owner’s interest in the house, building or factory.

Determination by Upper Tribunal

10. On a referral under paragraph 7, the Upper Tribunal must determine whether the acquisition of the right or the imposition of the restrictive covenant would—

- (a) in the case of a house, building or factory, cause material detriment to the house, building or factory, or
- (b) in the case of a park or garden, seriously affect the amenity or convenience of the house to which the park or garden belongs.

^(a) 1981 c. 66, as amended by Part 7 of the Housing and Planning Act 2016 (c. 22).

- 11.** In making its determination, the Upper Tribunal must take into account—
- (a) the effect of the acquisition of the right or the imposition of the covenant,
 - (b) the use to be made of the right or covenant proposed to be acquired or imposed, and
 - (c) if the right or covenant is proposed to be acquired or imposed for works or other purposes extending to other land, the effect of the whole of the works and the use of the other land.
- 12.** If the Upper Tribunal determines that the acquisition of the right or the imposition of the covenant would have either of the consequences described in paragraph 10, it must determine how much of the house, building or factory the acquiring authority ought to be required to take.
- 13.** If the Upper Tribunal determines that the acquiring authority ought to be required to take some or all of the house, building or factory, the compulsory purchase order and the notice to treat are to have effect as if they included the owner’s interest in that land.
- 14.—**(1) If the Upper Tribunal determines that the acquiring authority ought to be required to take some or all of the house, building or factory, the acquiring authority may at any time within the period of 6 weeks beginning with the day on which the Upper Tribunal makes its determination withdraw the notice to treat in relation to that land.
- (2) If the acquiring authority withdraws the notice to treat under this paragraph it must pay the person on whom the notice was served compensation for any loss or expense caused by the giving and withdrawal of the notice.
- 15.** Any dispute as to the compensation is to be determined by the Upper Tribunal.”.

Application and Interpretation

1. This Schedule has effect unless otherwise agreed in writing between the Agency and the specified undertaker concerned.

On-street apparatus

2. This Schedule does not apply to anything done or proposed to be done in relation to or affecting apparatus in respect of which the relations between the Agency and the specified undertaker are regulated by the provisions of Part 3 of the 1991 Act.

3. The provisions of Schedule 8 (statutory undertakers, etc.), in so far as they relate to the removal of apparatus, do not apply in relation to apparatus to which this Schedule applies.

4.—(1) In this Schedule—

“alternative apparatus” means alternative apparatus adequate to enable the specified undertaker in question to fulfil its statutory functions in a manner not less efficient than previously;

“in land”, in relation to apparatus or alternative apparatus, includes a reference to under, over, across, along or upon land;

“plans” includes sections, specifications and method statements;

“specified undertaker” means—

(a) Western Power Distribution (South West) plc, whose registered office is Avonbank, Feeder Road, Bristol, BS2 0TB; and

(b) Wessex Water Services Limited, whose registered office is Operation Centre, Claverton Down Road, Claverton Down, Bath, Somerset, United Kingdom, BA2 7WW.

or any person succeeding any such company as a licence holder within the meaning of Part 1 of the Electricity Act 1989, a gas transporter within the meaning of Part 1 of the Gas Act 1986(a), a water undertaker within the meaning of the Water Industry Act 1991, or as a sewerage undertaker, and “the specified undertaker” in relation to any apparatus means the specified undertaker to whom the apparatus belongs or by whom it is maintained.

(2) In paragraph (1), “functions” includes powers and duties.

Acquisition of land

5.—(1) Regardless of any provision in this Order or anything shown on the deposited plans the Agency must not acquire any apparatus other than by agreement with the specified undertaker.

(2) The Agency may, in the exercise of the powers conferred by this Order, acquire or appropriate any interest in any land in which any apparatus is placed and, following the removal of such apparatus in accordance with the provisions of this Schedule, any rights in that land relating to that apparatus are extinguished, but that apparatus must not be removed under this Schedule and any right of a specified undertaker to use, maintain or renew that apparatus in that land must not be extinguished, until alternative apparatus has been constructed and is in operation to the reasonable satisfaction of the specified undertaker in question.

Removal of apparatus

6.—(1) If, for the purpose of executing any works in, on or under any land purchased, held, appropriated or used under this Order, the Agency requires the removal of any apparatus placed in that land, it must give to the specified undertaker written notice of that requirement, together with plans of the work proposed, and of the proposed position of the alternative apparatus to be provided or constructed and in that case (or if in consequence of the exercise of any of the powers conferred by this Order a specified undertaker reasonably needs to remove any of its apparatus) the Agency must, subject to sub-paragraph (3), afford to the specified undertaker the necessary facilities and rights for the construction of alternative apparatus in other land of the Agency and for the subsequent use, maintenance and renewal of that apparatus.

(2) If alternative apparatus or any part of such apparatus is to be constructed elsewhere than in other land of the Agency, or the Agency is unable to afford such facilities and rights as are mentioned in sub-paragraph (1), in the land in which the alternative apparatus or part of such apparatus is to be constructed, the specified undertaker in question must, on receipt of a written notice to that effect from the Agency, as soon as reasonably possible use reasonable endeavours to obtain the necessary facilities and rights in the land in which the alternative apparatus is to be constructed.

(a) 1986 c. 44.

(3) The obligation imposed on the specified undertaker under sub-paragraph (2) does not extend to the exercise by the specified undertaker of any power to acquire any land or rights in land by compulsory purchase order.

(4) Any alternative apparatus to be constructed in land of the Agency under this Schedule is to be constructed in such manner and in such line or situation as may be agreed between the specified undertaker and the Agency or in default of agreement settled by arbitration in accordance with article 68 (arbitration).

(5) The specified undertaker must, after the alternative apparatus to be provided or constructed has been agreed or settled by arbitration in accordance with article 68 (arbitration), and after the grant to the specified undertaker of any such facilities and rights as are referred to in sub-paragraphs (1) or (2), proceed with all reasonable despatch to construct and bring into operation the alternative apparatus and subsequently to remove any apparatus required by the Agency to be removed under the provisions of this Schedule.

(6) Regardless of anything in sub-paragraph (5), if the Agency gives notice in writing to the specified undertaker in question that it desires itself to execute any work to which this sub-paragraph applies, that work, instead of being executed by the specified undertaker, may be executed by the Agency with the prior written consent of the specified undertaker (which must not be unreasonably withheld or delayed and is to be subject to any such conditions as are reasonable and proper to protect the apparatus) in accordance with plans and in a position agreed between the specified undertaker and the Agency or, in default of agreement, determined by arbitration, with all reasonable despatch under the superintendence, if given, and to the reasonable satisfaction of the specified undertaker.

(7) In carrying out any work under sub-paragraph (6) the Agency must comply with all statutory obligations which would have been applicable had the works been carried out by the specified undertaker.

(8) Sub-paragraph (6) applies to any part of any work necessary in connection with construction of alternative apparatus, or the removal of apparatus required to be removed, as will take place in any land of the Agency.

(9) Nothing in sub-paragraph (6) authorises the Agency to execute the placing, installation, bedding, packing, removal, connection or disconnection of any apparatus, or execute any filling around the apparatus (where the apparatus is laid in a trench) within 600 millimetres of the apparatus.

Facilities and rights for alternative apparatus

7.—(1) Where, in accordance with this Schedule, the Agency affords to a specified undertaker facilities and rights for the construction, use, maintenance and renewal in land of the Agency of alternative apparatus in substitution for apparatus to be removed, those facilities and rights must be granted upon such terms and conditions as may be agreed between the Agency and the specified undertaker or in default of agreement settled by arbitration in accordance with article 68 (arbitration).

(2) In settling those terms and conditions in respect of the alternative apparatus to be constructed across or along the authorised works, the arbitrator must—

- (a) give effect to all reasonable requirements of the Agency for ensuring the safety and efficient operation of the authorised works and for securing any subsequent alterations or adaptations of the alternative apparatus which may be required to prevent interference with any proposed works of the Agency; and
- (b) so far as it may be reasonable and practicable to do so in the circumstances of the particular case, give effect to the terms and conditions if any applicable to the apparatus constructed across or along the authorised works for which the alternative apparatus is to be substituted and to any other reasonable requirements of the specified undertaker.

(3) If the facilities and rights to be afforded by the Agency in respect of any alternative apparatus, and the terms and conditions subject to which those facilities and rights are to be granted, are in the opinion of the arbitrator more or less favourable on the whole to the specified

undertaker than the facilities and rights enjoyed by it in respect of the apparatus to be removed and the terms and conditions to which those facilities and rights are subject, the arbitrator must make such provision for the payment of compensation to or by the Agency by or to that specified undertaker as appears to the arbitrator to be reasonable having regard to all the circumstances of the particular case.

Retained apparatus: protection and plan approval

8.—(1) Not less than 28 days before starting the execution of any works of the type referred to in paragraph 6(1) that are near to, or will or may affect, any apparatus the removal of which has not been required by the Agency under paragraph 5(1), the Agency must submit to the specified undertaker in question plans of those works.

(2) Those works are to be executed only in accordance with the plans submitted under sub-paragraph (1) and in accordance with such reasonable requirements as may be made in accordance with sub-paragraph (3) by the specified undertaker for the alteration or otherwise for the protection of the apparatus, or for securing access to it, and an officer of the specified undertaker is entitled to watch and inspect the execution of those works.

(3) Any requirements made by the specified undertaker under sub-paragraph (2) must be made within a period of 21 days beginning with the date on which the plans under sub-paragraph (1) are submitted to it.

(4) If a specified undertaker in accordance with sub-paragraph (3) and in consequence of the works proposed by the Agency, reasonably requires the removal of any apparatus and gives written notice to the Agency of that requirement, paragraphs 1 to 6 apply as if the removal of the apparatus had been required by the Agency under paragraph 5(1).

(5) Nothing in this paragraph precludes the Agency from submitting at any time or from time to time, but in no case less than 28 days before commencing the execution of any works, new plans instead of the plans previously submitted, and having done so the provisions of this paragraph apply to and in respect of the new plans.

(6) The Agency is not required to comply with sub-paragraph (1) in a case of emergency but in that case it must give to the specified undertaker notice as soon as is reasonably practicable and plans of those works as soon as reasonably practicable subsequently and must comply with sub-paragraph (2) in so far as is reasonably practicable in the circumstances.

(7) Nothing in sub-paragraph (6) entitles the Agency to carry out works to any apparatus but, upon receipt of notice from the Agency, the specified undertaker must proceed to carry out such works as may be required without unreasonable delay.

Expenses

9.—(1) Subject to the following provisions of this paragraph, the Agency must repay to a specified undertaker the reasonable expenses incurred by that specified undertaker in, or in connection with—

- (a) the inspection, removal and relaying or replacing, alteration or protection of any apparatus or the construction of any alternative apparatus under any provision of this Schedule (including any costs reasonably incurred or compensation properly paid in connection with the acquisition of facilities and rights or exercise of statutory powers for such apparatus);
- (b) the cutting off of any apparatus from any other apparatus, or the making safe of any redundant apparatus in consequence of the exercise by the Agency of any power under this Order; and
- (c) the survey of any land, apparatus or works; the inspection, superintendence and monitoring of works; or the installation or removal of any temporary works reasonably necessary in consequence of the exercise by the Agency of any power under this Order; and any other work or thing rendered reasonably necessary in consequence of the exercise by the Agency of any such power,

within a reasonable time of being notified by the specified undertaker that it has incurred such expenses.

(2) The value of any apparatus removed under the provisions of this Schedule is to be deducted from any sum payable under sub-paragraph (1), that value being calculated after removal.

(3) If in accordance with the provisions of this Schedule—

- (a) alternative apparatus of better type, of greater capacity or of greater dimensions is placed in substitution for existing apparatus except where this has been solely due to using the nearest currently available type, or
- (b) apparatus or alternative apparatus is placed at a depth greater than the depth at which the apparatus was situated

and the placing of that apparatus is not agreed by the Agency or, in default of agreement, is not determined by arbitration in accordance with article 68 (arbitration) to be necessary, then, if such placing involves cost in the construction of works under this Schedule exceeding that which would have been involved if the apparatus placed had been of the existing type, capacity or dimensions, or at the existing depth, as the case may be, the amount which apart from this paragraph would be payable to the specified undertaker in question by virtue of sub-paragraph (1), is to be reduced by the amount of that excess.

(4) For the purposes of sub-paragraph (3)—

- (a) an extension of apparatus to a length greater than the length of existing apparatus must not be treated as placing of apparatus of greater dimensions than those of the existing apparatus, except in a case where the apparatus as so extended serves a purpose (either additional to or instead of that served by the existing apparatus) which was not served by the existing apparatus; and
- (b) where the provision of a joint in a cable is agreed, or is determined to be necessary, the consequential provision of a jointing chamber or of a manhole must be treated as if it also had been agreed or so determined.

(5) An amount which apart from this sub-paragraph would be payable to a specified undertaker in respect of works by virtue of sub-paragraph (1) must, if the works include the placing of apparatus provided in substitution for apparatus placed more than 7 years and 6 months earlier so as to confer on the specified undertaker any financial benefit by deferment of the time for renewal of the apparatus in the normal course, be reduced by the amount which represents that benefit as calculated in accordance with the Code of Practice entitled “Measures Necessary where Apparatus is Affected by Major Works (Diversionary Works)”, approved by the Secretary of State on 30th June 1992 and as revised and re-issued from time to time.

(6) In any case where work is carried out by the Agency under paragraphs 5(6) to (8) and, if such work had been carried out by the specified undertaker, the repayment made to the specified undertaker under sub-paragraph (1) would fall to be reduced under sub-paragraphs (3) to (5), the specified undertaker must pay to the Agency such sum as represents the amount of that reduction.

Indemnity

10.—(1) Subject to sub-paragraphs (2) and (3), if by reason or in consequence of the construction, maintenance or failure of any of the authorised works, any damage is caused to any apparatus (other than apparatus the repair of which is not reasonably necessary in view of its intended removal for the purposes of those works) or property of a specified undertaker, or there is any interruption in any service provided, or in the supply of any goods, by any specified undertaker, the Agency must bear and pay the cost reasonably incurred by that specified undertaker in making good such damage or restoring the supply, and must—

- (a) make reasonable compensation to that specified undertaker for any other expenses, loss, damages, penalty or costs incurred by the specified undertaker; and
- (b) indemnify the specified undertaker against all claims, demands, proceedings, costs, damages and expenses which may be made or taken against or recovered from, or incurred by, the specified undertaker,

by reason or in consequence of any such damage or interruption; and the fact that any act or thing may have been done by the specified undertaker on behalf of the Agency or in accordance with plans approved by the specified undertaker or in accordance with any requirement of the specified undertaker or under its supervision does not, subject to sub-paragraph (2), excuse the Agency from any liability under the provisions of this paragraph.

(2) Nothing in sub-paragraph (1) imposes any liability on the Agency with respect to any damage or interruption to the extent that it is attributable to the act, neglect or default of a specified undertaker, its officers, servants, contractors or agents.

(3) A specified undertaker must give the Agency reasonable notice of any such claim or demand and no settlement or compromise is to be made without the consent of the Agency, which, if it withholds such consent, has the sole conduct of any settlement or compromise or of any proceedings necessary to resist the claim or demand.

Access

11. If in consequence of the exercise of the powers conferred by this Order the access to any apparatus is materially obstructed the Agency must provide such alternative means of access to that apparatus as will enable the specified undertaker to maintain or use the apparatus no less effectively than was possible before the obstruction.

Cooperation

12. Where in consequence of the proposed construction of any of the authorised works, the Agency or the specified undertaker requires the removal of apparatus under paragraph 6(1) or the specified undertaker makes requirements for the protection or alteration of apparatus under paragraph 8(2), the Agency must use its best endeavours to co-ordinate the execution of the works in the interests of safety and the efficient and economic execution of the authorised works and the specified undertaker must use all reasonable endeavours to co-operate with the Agency for that purpose.

Exercise of safeguarding and survey powers

13.—(1) The Agency must, so far as is reasonably practicable, exercise the powers conferred by article 21 (protective works) so as not to obstruct or render less convenient the access to any apparatus.

(2) The Agency must not, in the exercise of the powers conferred by section 11(3) of the 1965 Act (powers of entry), as applied by this Order, or by article 23 (power to survey and investigate land, etc.), make any trial holes which interfere with any apparatus without the consent of the specified undertaker (which must not be unreasonably delayed or withheld).

Arbitration

14.—(1) Any difference arising between the Agency and a specified undertaker under this Schedule (other than a difference as to its meaning or construction) must be determined by arbitration in the manner provided by article 68 (arbitration).

(2) In determining any difference under this Schedule the arbitrator may, if the arbitrator thinks fit, require the Agency to execute any temporary or other works so as to avoid, so far as may be reasonably possible, interference with the use of any apparatus.

PROTECTION OF PORT OF BRIDGWATER

1. This Schedule has effect unless otherwise agreed in writing between the Agency and the Harbour Authority.

2. In this Schedule—

“accumulation” means any accumulation of silt or other material which constitutes an impediment to navigation;

“construction” includes execution and placing, maintenance, extension, enlargement, alteration, replacement, relaying, and removal, and “construct” and “constructed” are to be construed accordingly;

“erosion” means any erosion of the bed or banks of the river or any jetty or other structure of whatever nature owned or occupied by the Harbour Authority;

“harbour property” means any land or works owned or administered by the Harbour Authority as part of its harbour undertaking at the Port of Bridgwater;

“plans” includes sections, descriptions, drawings, specifications and method statements;

“specified work” means so much of any permanent or temporary work authorised by this Order (which includes any removal of gravel or other material, any dredging or similar work and any geotechnical investigations that may be undertaken) as is on, in, under or over—

- (a) the surface of land below the level of mean high water springs forming part of the river;
- (b) any other harbour property.

3.—(1) Before beginning any operations for the construction of any specified work (except minor works of maintenance or repair), the Agency must submit to the Harbour Authority plans of the work and such further particulars available to it as the Harbour Authority may within 14 days of the submission of the plans reasonably require.

(2) Any specified work must not be constructed except in accordance with such plans as may be approved in writing by the Harbour Authority or determined to be in accordance with article 68 (arbitration).

(3) Any approval of the Harbour Authority required under this paragraph must not be unreasonably withheld and—

- (a) is deemed to be given if it is neither given or refused (with an indication of the grounds for refusal) within 28 days of the later of the submission of the plans or the submission of any further particulars under sub-paragraph (1), and
- (b) may be given subject to such reasonable requirements as the Harbour Authority may make for the protection of—
 - (i) navigation in, or the flow or regime of, the river; or
 - (ii) the use of its land other than such parts as are required for the specified works for the purposes of performing its statutory functions.

4. The Agency must give to the Harbour Authority—

- (a) not less than 14 days’ written notice of its intention to commence the construction of a specified work (except minor works of maintenance or repair), and
- (b) not more than 14 days after completion written notice of the completion of such construction.

5. The Agency must carry out all operations for the construction of any specified works with all reasonable dispatch to the reasonable satisfaction of the Harbour Authority so that navigation in, or the flow or regime of, the river and the exercise of the Harbour Authority’s statutory functions

do not suffer more interference than is reasonably practicable and the Harbour Authority will be entitled by its officer at all reasonable times, on giving such notice as may be reasonable in the circumstances, to inspect and survey such operations.

6.—(1) After the purpose of any temporary works has been accomplished the Agency must with all reasonable dispatch, or after a reasonable period of notice in writing from the Harbour Authority requiring the Agency so to do, remove any such temporary works or any related materials which may have been placed below the level of high water by or on behalf of the Agency.

(2) Where the Agency fails to remove such works or materials within a reasonable period after receiving a notice described in sub-paragraph (1), the Harbour Authority may remove the same and may recover the reasonable costs of so doing from the Agency.

7.—(1) If—

- (a) during the construction of a tidal work or within 10 years after the completion of that work and wholly or partly in consequence of its construction, or
- (b) during the exercise of the powers conferred by article 6 (works and dredging etc. in the river) or within 10 years after and wholly or partly in consequence of the exercise of those powers,

there is caused or created an accumulation or erosion which results or is likely to result in interference with navigation or damage to harbour property, the Agency must, if so requested by the Harbour Authority acting reasonably and having regard in particular to its and the Agency's statutory functions, remedy such accumulation or erosion to the extent attributable to such construction or exercise of powers in the manner specified in sub-paragraph (3) and, if it refuses or fails to do so, the Harbour Authority may itself cause the work to be done and may recover the reasonable cost of doing so from the Agency.

(2) If any such accumulation or erosion is remedied in accordance with sub-paragraph (1), any recurrence of such accumulation or erosion must, from time to time, if reasonably so required to do by the Harbour Authority after notice in writing to it from the Agency and having regard in particular to its and the Agency's statutory functions, be so remedied by the Agency, save that the Agency's obligation under this paragraph will cease if, following the remedying of any accumulation or erosion, a period of 10 years elapses without any further accumulation or erosion being caused or created in consequence of such construction or exercise.

(3) For the purposes of sub-paragraph (1) and (2) above—

- (a) in the case of an accumulation, the remedy must be its removal;
- (b) in the case of erosion, the remedy must be the carrying out of such reconstruction works and other protective works or measures as may be necessary.

(4) In the event that any surveys, inspection, tests or sampling establish that such accumulation or erosion may have been caused in any event by factors other than the construction of a tidal work or the exercise of the powers conferred by article 6 (works and dredging etc. in the river), the Agency is liable to remedy such accumulation or erosion only to the extent that the same is attributable to such construction or exercise.

(5) For the purposes of sub-paragraph (1) the date of completion of a work is the date on which it is brought into use.

8. The Agency must pay to the Harbour Authority the reasonable costs of such alterations to the marking and lighting of the navigational channel of the river as may be necessary during or within five years of the completion of and in consequence of the construction of a tidal work and afford to the Harbour Authority such facilities as it may reasonably require for the placing and maintenance on any tidal work of signals, tide-boards, tide-gauges or other apparatus for the safety or benefit of navigation.

9. Without affecting the other provisions of this Schedule, the Agency must reimburse the Harbour Authority for all costs which may reasonably be incurred by or occasioned to the Harbour Authority by reason of or arising from or in connection with—

- (a) the carrying out of surveys, inspections, tests and sampling within and of the river (including the bed and banks of the river) where the Harbour Authority has reasonable cause to believe that the construction of any of the tidal works or the exercise of the powers conferred by article 6 (works and dredging etc. in the river) is causing or has caused any such accumulation or erosion;
- (b) the surveillance, co-ordination and regulation of traffic within the Port of Bridgwater which becomes reasonably necessary by reason of the exercise or the prospective exercise by the Agency of its powers to close the river or any part of the river to navigation under article 17 (temporary closing of river in connection with works).

10.—(1) The Agency must indemnify the Harbour Authority from all claims, demands, proceedings or damages, which may be made or given against, or recovered from the Harbour Authority and any costs or expense reasonably incurred by the Harbour Authority by reason of any damage to the bed or banks of the river or other harbour property which is caused by the construction, maintenance or failure of any specified work or any act or omission of the Agency, its contractors, agents or employees whilst engaged upon the work.

(2) The Harbour Authority must give to the Agency reasonable notice of any such claim or demand and no settlement or compromise of any such claim or demand must be made without the consent of the Agency, which, if it notifies the Harbour Authority that it desires to do so, may have the sole conduct of any settlement or compromise or of any proceedings necessary to resist the claim or demand.

11.—(1) Nothing in paragraph 10 imposes any liability on the Agency with respect to any damage to the extent that it is attributable to any prior defect, want of maintenance or want of repair to the beds or banks of the river or other harbour property or to the act, neglect or default of the Harbour Authority, its officers, servants, contractors or agents.

(2) The fact that any work or thing has been executed or done in accordance with a plan approved or deemed to be approved by the Harbour Authority, or to its satisfaction, or in accordance with a determination under article 68 (arbitration), does not (in the absence of negligence on the part of the Harbour Authority, its officers, servants, contractors or agents) relieve the Agency from any liability under the provisions of this Schedule.

12. Save to the extent expressly provided for nothing in this Order affects prejudicially any statutory or other rights, powers or privileges vested in, or enjoyed by, the Harbour Authority at the commencement of this Order.
