“Statutory underpin: general

4A.—(1) This regulation and regulations 4B to 4V (provisions relating to the statutory underpin) apply in relation to an eligible member’s remediable service^(a) during the underpin period.

(2) An “eligible member” is a person who—

- (b) has transferred remediable service into the 2014 Scheme from—
 - (i) a Chapter 1 scheme^(b),
 - (ii) a judicial scheme^(c), or
 - (iii) another local government scheme^(d).

(3) The “underpin period” is the period—

- (a) beginning with 1st April 2014; and
- (b) ending with the earlier of—
 - (i) 31st March 2022, and
 - (ii) the date on which the eligible member attains—
 - (aa) the normal retirement age applicable to them under the 2008 Scheme, or
 - (bb) where the person was not a member of the 2008 Scheme, the age of 65.

Statutory underpin: retirement, redundancy, ill health

4B.—(1) This regulation applies in relation to an eligible member whose final underpin date is that in regulation 4H(1)(a), (c), (d) or (e) (statutory underpin: final underpin date).

(2) The pension account to which the final underpin date relates is to be increased by any final guarantee amount calculated in relation to that pension account.

(3) The pension account is to be increased on the day after the eligible member’s final underpin date.

Statutory underpin: flexible retirement

4C.—(1) This regulation applies in relation to an eligible member whose final underpin date is that in regulation 4H(1)(b) (statutory underpin: final underpin date – flexible retirement).

(2) The pension account to which the final underpin date relates (“the pension account”) is to be increased by a percentage of the final guarantee amount that is equal to the percentage of the retirement pension that the eligible member takes under regulation 30(6) of the 2013 Regulations.

(3) On each occasion where the amount of pension taken by the eligible member under regulation 30(6) of the 2013 Regulations is less than 100% of the member’s relevant pension, at the next occurring final underpin date (“the subsequent final underpin date”), a further calculation of the eligible member’s final assumed benefits and final underpin amount relating to the flexible retirement is to be completed in accordance with regulations 4K and 4L.

(4) Where, on the subsequent final underpin date, the eligible member’s final assumed benefits are exceeded by their final underpin amount, the pension account is to be increased

(5) Where paragraph (2) or (4) apply, the pension account is to be increased on the day after the eligible member's final underpin date or subsequent final underpin date, as the case may be.

(6) In paragraph (4), "original retirement pension" means the amount of the eligible member's retirement pension as at the day of the eligible member's first final underpin date.

(7) Paragraphs (8) to (10) apply where the eligible member—

- (a) began their reduced working hours or grade of employment during the underpin period; and
- (b) accrued benefits—
 - (i) after taking payment of a retirement pension under regulation 30(6), but
 - (ii) before the end of the underpin period.

(8) At the eligible member's next occurring underpin date (the "additional underpin date"), the eligible member's provisional assumed benefits and provisional underpin amount are calculated in accordance with regulations 4I and 4J, but—

- (a) the underpin period for the purpose of those calculations begins with the day on which the eligible member's reduced hours or grade began; and
- (b) those calculations are not to include any period which has already been used in the calculation of a final guarantee amount in relation to the pension account.

(9) At the eligible member's next occurring final underpin date (which may be on the same day as the additional underpin date, or after), the eligible member's final assumed benefits and final underpin amount in relation to their pension account are calculated in accordance with regulations 4K and 4L but using the provisional assumed benefits and provisional underpin amounts as provided for in paragraph (8).

(10) Where the eligible member's final assumed benefits, calculated in accordance with paragraph (9), are exceeded by their final underpin amount—

(a) Instead, the final guarantee amount is to be used in the calculation of the lump sum, for which see regulation 34(2A)(b) of the 2013 Regulations (as inserted by regulation 3(4) of these Regulations).

Statutory underpin: transfers

4E.—(1) This regulation applies to an eligible member whose final underpin date is that in regulation 4H(1)(g) or (h) (statutory underpin: final underpin date – transfer to a different scheme).

(2) Where this regulation applies—

- (a) no final guarantee amount is to be calculated in relation to the pension account; and

- (b) the date on which the eligible member attains—
 - (i) the normal retirement age applicable to the eligible member under the 2008 Scheme, or
 - (ii) where the eligible member was not a member of the 2008 Scheme, the age of 65, and
- (c) where the eligible member elects to receive an immediate payment of all or part of their pension under regulation 30(6) of the 2013 Regulations, the day before the date on which the eligible member's reduced working hours or grade of employment begins.

Statutory underpin: final underpin date

4H.—(1) An eligible member's final underpin date, in relation to a pension account, is the earliest of the following dates which occur either at the same time as, or after, an underpin date applicable to that pension account—

- (a) the day before the date on which a pension under regulation 30(1), (3) or (5) of the 2013 Regulations (retirement pension) commences;
- (b) where the eligible member elects to receive an immediate payment of all or part of the retirement pension under regulation 30(6) of the 2013 Regulations (flexible retirement), the day before the date on which the eligible member's reduced working hours or grade of employment begins(a);

- (h) where a transfer payment is made in respect of the eligible member under regulation 98 of the 2013 Regulations (bulk transfers), the date used to calculate the value of the transfer payment; and
- (i) the date on which the administering authority makes payment to the eligible member under regulation 18 of the 2013 Regulations relating to the pension account(b).

(2) Where the eligible member has had a final underpin date by virtue of paragraph (1)(b), paragraph (1) subsequently applies as if for “the earliest of the following dates” there were substituted “the next occurring of the following dates”.

Statutory underpin: calculation of provisional assumed benefits

4I.—(1) An eligible member’s provisional assumed benefits are calculated by assessing, at the eligible member’s underpin date, the benefits the eligible member would have been entitled to under the 2014 Scheme over the underpin period if—

- (a) the eligible member had paid contributions under regulation 9 of the 2013 Regulations in respect of the underpin period—
 - (i) including—

 - (dd) in respect of any period of absence from work with permission with no pensionable pay in respect of which the eligible member elected to cover that period by entering into an arrangement under regulation 16 of the 2013 Regulations, but
 - (ii) excluding—
 - (aa) any period where the eligible member was not an active member; and

(a) 1993 c. 48; Part 4ZA was inserted by paragraphs 3 to 27 of Schedule 4 to the Pension Schemes Act 2015 (c. 8).

(b) See regulation 4F for the effect of receiving that repayment on the final guarantee amount.

- (bb) any period of unpaid absence from work without permission;
 - (b) the eligible member or their Scheme employer had, in respect of the underpin period, paid no additional contributions under—

 - (ii) regulation 17 of the 2013 Regulations,
 - (iii) regulation 25(1) of the Administration Regulations 2008(a), or

 - (e) the revaluation adjustment (as defined in Schedule 1 to the 2013 Regulations) that would have applied to the eligible member’s provisional assumed benefits had they been benefits built up in an active member’s pension account, had been made up to and including the eligible member’s underpin date;
 - (f) no transfer value payment had been made to the eligible member’s pension account under regulation 10(5) or (6); and
 - (g) where the balance in the eligible member’s pension account at the underpin date had been adjusted on account of any pension debit or Scheme pays election(c), that adjustment had not occurred.
- (2) Where paragraph (1)(a)(i)(cc) or (dd) apply, the additional pension purchased is to be included in the provisional assumed benefits as if it were pension credited to the eligible member’s pension account on the earliest of—
- (a) 31st March in the Scheme year in which the absence ended;
 - (b) 31st March 2022; and
 - (c) the member’s underpin date.
- (3) Where paragraph (2) applies, if the eligible member fails to pay all of the additional pension contributions due, only the amount of additional pension credited to the pension account is to be included in the provisional assumed benefits (but see paragraph (4)).
- (4) Paragraph (3) does not apply if the eligible member fails to pay all the additional pension contributions due because—
- (a) the eligible member left active membership of the 2014 Scheme under regulation 35 of the 2013 Regulations with an entitlement to Tier 1 or Tier 2 benefits under regulation 35(5) or (6) of those Regulations respectively; or

(c) For the meaning of “Scheme pays election” see Schedule 1 to the 2013 Regulations.

(5) Where paragraph (3) does not apply by virtue of paragraph (4), the eligible member is treated as having paid the additional pension contributions referred to in paragraph (1)(a)(i)(cc) or (dd) in full.

(6) Where paragraph (1)(a)(i)(cc) or (dd) apply in relation to a period during which the eligible member was paying reduced contributions under regulation 10 of the 2013 Regulations, the additional pension included in the provisional assumed benefits for that period is that which would have been payable had the eligible member not been paying reduced contributions.

(7) Where the eligible member has qualifying service for less than a period of two years, the member is treated as having qualifying service for a period of two years for the purpose of calculating their provisional assumed benefits.

(8) Paragraph (9) applies where, after the eligible member's underpin date, the eligible member completes—

- (a) a transfer in of remediable service from—
 - (i) a Chapter 1 scheme,

(10) Paragraph (9) does not apply if there has been a continuous break in active membership of a public service pension scheme of more than five years since the remediable service was accrued.

Statutory underpin: calculation of the provisional underpin amount

4J.—(1) The eligible member's provisional underpin amount is calculated by assessing the benefits the eligible member would have been entitled to under the 2008 Scheme over the underpin period at the eligible member's underpin date if—

- (a) the member had accrued membership under the 2008 Scheme, rather than the 2014 Scheme;
- (b) the period of membership taken into account for the purposes of sub-paragraph (a) was—

 - (ii) any period of unpaid absence due to a trade dispute, or absence from work with permission, otherwise than because of illness or injury, child related leave, or reserve forces service leave, if the eligible member elected to cover that period by entering into an arrangement under regulation 16 of the 2013 Regulations (additional pension contributions), and
 - (iii) where the member became entitled to Tier 1 or Tier 2 benefits under regulation 35 of the 2013 Regulations, any additional period of membership that would have been added to the member's total membership under

regulation 20(2) (in respect of a Tier 1 pension) or regulation 20(3) (in respect of a Tier 2 pension) of the Benefits Regulations^(a), up to the end of the underpin period, as if the member had been entitled to an increase in benefits under the provision in question at the underpin date;

- (c) the eligible member's final pay used to calculate the provisional underpin amount is calculated in accordance with regulations 8 to 11 of the Benefits Regulations and those regulations apply in relation to the eligible member as if those Regulations were still in force at the underpin date;
- (d) the eligible member had been credited with 2008 Scheme benefits in respect of remediable service transferred from—
 - (i) a Chapter 1 scheme,
 - (ii) a judicial scheme, or
 - (iii) another local government scheme, andthere was no continuous break of more than five years in active membership of a public service pension scheme since the remediable service was accrued; and
- (e) where the balance in the eligible member's pension account at the underpin date had been adjusted on account of any pension debit or Scheme pays election, that adjustment had not occurred.

(2) Where paragraph (1)(b)(ii) applies, the unpaid period to be used in relation to the provisional underpin amount is the proportion of the period of absence that is equal to the proportion of the full amount of contributions to be paid under the arrangement that have been paid by the eligible member.

(3) Paragraph (2) does not apply if the eligible member fails to pay all the additional pension contributions due because—

- (a) the eligible member left active membership of the 2014 Scheme with an entitlement to Tier 1 or Tier 2 benefits under regulation 35(5) or (6) of the 2013 Regulations respectively; or
- (b) the eligible member died.

(4) Where paragraph (2) does not apply, any part of the period of absence falling within the underpin period that is covered by the arrangement under regulation 16(1) or (3) of the 2013 Regulations (additional pension contributions) entered into by the eligible member is to be included in the calculation of the provisional underpin amount.

(5) Where the eligible member has qualifying service for less than a period of two years, the member is treated as having qualifying service for a period of two years for the purpose of calculating their provisional underpin amount.

(6) Paragraph (7) applies where, after the eligible member's underpin date, the eligible member completes—

- (a) a transfer in of remediable service from—
 - (i) a Chapter 1 scheme,
 - (ii) a judicial scheme, or

- (b) any calculation of a provisional underpin amount done in respect of the pension account into which the remediable service has been transferred or aggregated is set aside.

(8) Paragraph (7) does not apply if there has been a continuous break in active membership of a public service pension scheme of more than five years since the remediable service was accrued.

Statutory underpin: calculation of final assumed benefits

4K.—(1) An eligible member's final assumed benefits are calculated by adjusting their provisional assumed benefits at the eligible member's final underpin date in accordance with this regulation.

(2) Where the eligible member's underpin date is not the same date as their final underpin date, apply any revaluation adjustment or index rate adjustment to provisional assumed benefits that would have applied to a deferred benefit in the 2014 Scheme as if the last day of scheme membership was the underpin date.

(3) Where regulation 30(4) of the 2013 Regulations (pension taken later than normal pension age) applies to the eligible member, apply the enhancement as set out in that provision to provisional assumed benefits.

(4) Where regulation 30(5) (pension taken earlier than normal pension age) or (6) (pension by virtue of flexible retirement) of the 2013 Regulations applies to the eligible member and their benefits under the 2014 Scheme are being reduced as set out in that provision, apply an equivalent reduction to provisional assumed benefits.

(5) Where paragraph (4) applies, also reflect in the reduction such transitional provisions under Schedule 2 as apply (if any).

(6) Where—

- (a) the eligible member's provisional assumed benefits include any additional pension under regulation 16 of the 2013 Regulations;
- (b) the member is taking payment of their pension before the normal pension age applicable to them under the 2014 Scheme; and

(7) This regulation is subject to regulation 4N (statutory underpin: effect of uplift of Tier 3 benefits to Tier 2 benefits).

Statutory underpin: calculation of final underpin amount

4L.—(1) An eligible member's final underpin amount is calculated by adjusting their provisional underpin amount at the eligible member's final underpin date in accordance with this regulation.

(2) Add any amount by which the provisional underpin amount would be increased if it were a pension to which the Pensions (Increase) Act 1971(a) applied, which relates to the period—

- (a) beginning with the day after the day on which the period used for the purposes of calculating the eligible member's final pay under regulations 8 to 11 of the Benefits Regulations ends; and
- (b) ending with the eligible member's final underpin date.

(a) 1971 c. 56.

(4) Where—

(a) regulation 30(5) (pension taken earlier than normal pension age) or (6) (pension by virtue of flexible retirement) of the 2013 Regulations applies to an eligible member); and

(b) the eligible member has not attained the age of 65,

(iii) regulation 37(7)(c) of those Regulations (cessation of benefit following review).

(2) Where this regulation applies—

(a) the eligible member ceases to be entitled to any future payments of any final guarantee amount to which the person became entitled by virtue of being entitled to Tier 3 benefits from the date those benefits cease; and

(b) regulations 4A to 4V apply in relation to the eligible member as if they had never previously had a final underpin date in relation to the pension account.

Statutory underpin: effect of uplift of Tier 3 benefits to Tier 2 benefits

4N.—(1) This regulation applies in relation to an eligible member—

(a) who takes payment of Tier 3 benefits under regulation 35(7) of the 2013 Regulations; and

(b) whose Tier 3 benefits subsequently cease—

(i) by virtue of being awarded Tier 2 benefits under regulation 37(7)(b) or (10) of the 2013 Regulations, or

(ii) for a different reason but who is awarded Tier 2 benefits following a request for review made by the eligible member under regulation 37(10) within 3 years of those benefits ceasing.

(2) Where this regulation applies—

(a) any final guarantee amount relating to the eligible member's Tier 3 pension ceases to be payable;

(b) the eligible member's provisional assumed benefits and provisional underpin amount are recalculated (in accordance with regulations 4I and 4J respectively) from the date on which the eligible member became entitled to Tier 3 benefits as if the member was entitled to Tier 2 benefits from that date; and

- (c) the amounts recalculated under sub-paragraph (a) are to be used to recalculate the eligible member's final assumed benefits and final underpin amounts (in accordance with regulations 4K and 4L respectively).
- (3) The recalculated final assumed benefits and final underpin amount are to be used to determine the eligible member's final guarantee amount ("the recalculated final guarantee amount").
- (4) The recalculated final guarantee amount is to have applied to it such revaluation adjustment or index rate adjustment as would have applied had it been in payment from the date the Tier 3 benefits commenced.
- (5) The recalculated final guarantee amount is to be added to the eligible member's pension account.
- (6) Notwithstanding regulation 4B(3), the amount to be added under paragraph (5) is to be added from the date the eligible member is awarded Tier 2 benefits.

Statutory underpin: survivor's guarantee amount calculation

- 40.**—(1) This regulation applies where—
- (a) an eligible member dies; and
 - (b) as a result, a survivor member's pension becomes payable under regulation 41, 42, 44, 45, 47 or 48 of the 2013 Regulations.
- (2) A proportion of a survivor guarantee amount is to be added to a survivor member's pension account in accordance with this regulation on the day after the eligible member's death.
- (3) A "survivor guarantee amount" is the amount by which an eligible member's adjusted assumed benefits are exceeded by their adjusted underpin amount.
- (4) The eligible member's adjusted assumed benefits are calculated by adjusting their provisional assumed benefits as follows—
- (a) where the eligible member's date of death is the same as their underpin date, increase the eligible member's provisional assumed benefits by an amount equivalent to 1/49th of their annual assumed pensionable pay, calculated in accordance with regulation 21(4) of the 2013 Regulations as at the date of the eligible member's death;
 - (b) where, in the opinion of an IRMP, the member was, at the date of their death, in part time service wholly or partly as a result of the condition that caused or contributed to their death, the increase referred to in sub-paragraph (a) is to take no account of any reduction in pensionable pay due to such reduction in service as is attributable to that condition; and
 - (c) where the eligible member's date of death is not the same date as their underpin date, apply any revaluation adjustment or index rate adjustment that would have applied to a deferred benefit in the 2014 Scheme as if the last day of scheme membership was the underpin date.
- (5) The increase referred to in paragraph (4)(a) applies in relation to the period—
- (a) beginning with the day after the eligible member's death; and
 - (b) ending with the earlier of—
 - (i) 31st March 2022, and
 - (ii) the date on which the eligible member would have attained—
 - (aa) the normal retirement age applicable to them under the 2008 Scheme; or
 - (bb) where the person was not a member of the 2008 Scheme, the age of 65.
- (6) The eligible member's adjusted underpin amount is calculated by adjusting their provisional underpin amount as follows—

- (a) where the eligible member’s date of death is the same as their underpin date, increase the eligible member’s provisional underpin amount according to any additional period of membership that would have been added to the member’s total membership under regulation 20(2) of the Benefits Regulations up to and including 31st March 2022 if the member’s employment had been terminated on grounds of ill-health or infirmity of mind or body; and
- (b) add any increase that would apply were the adjusted underpin amount a pension to which the Pensions (Increase) Act 1971 applied, which relates to the period—
 - (i) beginning with the day after the day on which the period used for the purposes of calculating the eligible member’s final pay under regulations 8 to 11 of the Benefits Regulations ends, and
 - (ii) ending with the date of the eligible member’s death.

(7) Where, in the opinion of the scheme manager, the eligible member was in part-time service at the date of their death wholly or partly as the result of the condition that caused or contributed to the member’s death, for the purposes of calculating the adjusted underpin amount, no account is to be taken of any reduction in membership due to such reduction in service as is attributable to that condition.

(8) A survivor pension paid under a provision listed in column 2 of the following table is to be increased by the proportion of the survivor guarantee amount specified in the corresponding entry in column 3 of the table—

| <i>1. Type of survivor pension</i> | <i>2. Provision of the 2013 Regulations under which the pension is paid</i> | <i>3. Proportion of survivor guarantee amount to be added</i> |
|---|---|---|
| Partner pension: spouse, civil partner or cohabiting partner | 41(4), 44(4), 47(4) | 49/160 |
| Child’s pension: one eligible child and survivor pension paid to deceased member’s partner | 42(4), 45(4), 48(4) | 49/320 |
| Child’s pension: more than one eligible child and survivor pension paid to deceased member’s partner | 42(5), 45(5), 48(5) | 49/160 |
| Child’s pension: one eligible child and no survivor pension paid to deceased member’s partner | 42(9), 45(9), 48(9) | 49/240 |
| Child’s pension: more than one eligible child and no survivor pension paid to deceased member’s partner | 42(10), 45(10), 48(10) | 49/120 |

- (a) an eligible member who is a deferred member or deferred pensioner member of the 2014 Scheme dies; and
- (b) as a result, a death grant becomes payable under regulation 43 of the 2013 Regulations.

(2) A deferred guarantee amount relating to the eligible member is to be included in the amount the eligible member would have been entitled to receive as retirement pension

annually for the purposes of the calculation of a death grant under regulation 43(3) of the 2013 Regulations.

(3) A deferred guarantee amount is the amount by which the eligible member's deferred assumed benefits are exceeded by their deferred underpin amount.

(4) An eligible member's deferred assumed benefits are calculated by adjusting their provisional assumed benefits to apply any revaluation adjustment or index rate adjustment that would have applied to a deferred benefit in the 2014 Scheme as if the last day of scheme membership was the underpin date.

(5) An eligible member's deferred underpin amount is calculated by adjusting their provisional underpin to apply any amount by which it would be increased if it were a pension to which the Pensions (Increase) Act 1971 applied, which relates to the period—

- (a) beginning with the day after the day on which the final pay period used for the purposes of calculating the eligible member's final pay under regulations 8 to 11 of the Benefits Regulations ends; and
- (b) ending with date of the eligible member's death.

Statutory underpin: multiple pension accounts

4Q.—(1) This regulation applies to an eligible member who has an aggregated pension account.

(2) Paragraphs (3) to (7) apply where the eligible member does not have a continuous break in active membership of a public service pension scheme of more than 5 years that began after the member's active membership in respect of the inactive pension account that has been aggregated with the eligible member's active pension account ceases.

(3) The provisional assumed benefits and the provisional underpin amount calculated in relation to the eligible member's inactive pension account prior to it being aggregated with the eligible member's active pension account are extinguished.

(4) The underpin date for the purpose of regulations 4I and 4J in their application to the aggregated account is the underpin date that relates to the active pension account.

(5) Where the pension accounts were held concurrently before being aggregated, paragraphs (3) and (4) do not apply if the eligible member had attained, before they ceased to be an active member in relation to each inactive pension account that has been aggregated with the active pension account—

- (a) the normal retirement age applicable to them under the 2008 Scheme; or
- (b) where the eligible member was not a member of the 2008 Scheme, the age of 65.

- (b) where the eligible member was not a member of the 2008 Scheme, the age of 65.

(7) Where paragraph (5) or (6) applies—

- (a) the provisional assumed benefits and provisional underpin amount calculated in relation to the inactive account prior to it being aggregated with the eligible member's active pension account are applied to the active pension account; and
- (b) that provisional underpin amount and provisional assumed benefits are to be used as the basis for the calculations of the final underpin amount and final assumed benefits, adjusted assumed benefits and adjusted underpin amount under regulation 4O, or deferred assumed benefits and deferred underpin amount under regulation 4P, as the case may be, for the active pension account.

(8) Paragraphs (9) and (10) apply where the eligible member has had a continuous break in active membership of a public service pension scheme of more than 5 years that began

after the member's active membership in relation to the inactive pension account that has been aggregated with the eligible member's active pension account ceased.

(9) The provisional assumed benefits and the provisional underpin amount calculated in relation to the eligible member's inactive pension account prior to it being aggregated with the eligible member's active pension account are extinguished.

(10) Any remediable service built up in the inactive pension account is ignored for the purposes of regulations 4A to 4V.

(11) In this regulation—

- (a) pension accounts are held concurrently if, immediately before the accounts are aggregated, the eligible member held active membership of the 2014 Scheme in relation to the pension account that becomes the active pension account at the same time as holding active membership of the 2014 Scheme in the pension account that becomes the inactive pension account;
- (b) pension accounts are held consecutively before being aggregated if they are not held concurrently.

(12) In this regulation—

(5) Where the recalculated death grant exceeds the death grant that has already been paid in respect of the person, the difference is to be paid by the administering authority, without undue delay—

- (a) where there was a single recipient of the death grant, to that recipient; or
- (b) where there was more than one recipient, to those recipients in the same proportions as they were paid the death grant.

EXPLANATORY NOTE

(This note is not part of the Regulations)

The Public Service Pensions Act 2013 (c. 25) (“the 2013 Act”) makes provision, and confers further powers to make provision (in the form of “scheme regulations” as defined in section 1 of that Act) about the establishment of public service pension schemes. The Local Government

Pension Scheme Regulations 2013 (S.I. 2013/2356, “the 2013 Regulations”) are the scheme Regulations establishing the successor local government pension scheme (“the 2014 Scheme”) to the pension scheme constituted by the Local Government Pension Scheme (Administration Regulations) 2008, The Local Government Pensions Scheme (Benefits, Membership and Contributions) Regulations 2007 and the Local Government Pension Scheme (Transitional Provisions Regulations 2008) (“the 2008 Scheme”). The Local Government Pension Scheme (Transitional Provisions, Savings and Amendment) Regulations 2014 (S.I. 2014/525, “the 2014 Regulations) provide transitional protection (“the statutory underpin”) for 2008 Scheme members including, in particular, for members who were within 10 years of their normal pension age under the 2008 Scheme. Similar transitional protection was made under the 2013 Act for members of judicial pension schemes and members of firefighters pension schemes. The transitional protection for members of the judicial and firefighters schemes was subsequently found to unlawfully discriminate between members of the respective schemes on the basis of age. Although the statutory underpin was not subject to legal action, all schemes established under the 2013 Act are subject to review. These Regulations do this in relation to the 2014 Scheme.

The Public Service Pensions and Judicial Offices Act 2022 (c. 7) (“PSPJOA 2022”), at Chapter 3 of Part 1, makes provision, and confers powers for scheme regulations under the 2013 Act to make further provision, in relation to specified service (“remediable service”, as defined in section 77 of PSPJOA 2022) of members who benefitted from the statutory underpin or who did not by reason of their age. Section 85 of PSPJOA 2022 requires certain powers in Chapter 3 of Part 1 to be exercised in accordance with Treasury Directions.

These Regulations are scheme regulations under the 2013 Act and are made in accordance with PSPJOA 2022 in relation to a member’s remediable service in the local government legacy schemes and the 2014 Scheme. They are, to the extent required by section 85 of PSPJOA 2022, made in accordance with Treasury Directions (in the form of the Public Service Pensions (Exercise of Powers, Compensation and Information) Directions 2022). These Regulations have retrospective effect, which is authorised by section 3(3)(b) of the 2013 Act.

Part 1 of these Regulations makes general provision.

Part 2 amends the 2014 Regulations in relation to the statutory underpin:

Regulation 2(2) amends regulation 1 of the 2014 Regulations and introduces the concept of the “final guarantee amount”. This is the amount by which a member’s benefits under the 2014 Scheme (as assessed in accordance with the amendments made by these Regulations) are exceeded by the amount the member would have been entitled to under the local government legacy schemes.

Regulation 2(3) omits regulation 4 of those regulations (which contained the original provision relating to the statutory underpin)

Regulation 2(4) inserts new regulations 4A to 4V, which, by their effect, replace regulation 4:

- Regulation 4A makes provision in relation to the application of the replacement statutory underpin provisions to certain members (“eligible members”) and in respect of a certain period (“the underpin period”).
- Regulation 4B makes provision for eligible members who become entitled to a pension on the basis of retirement, redundancy, or ill health to have their pension account increased by the final guarantee amount on the day after they become so entitled.
- Regulation 4C makes provision for eligible members who become entitled to a pension on the basis of taking flexible retirement under regulation 30(6) of the 2013 Regulations to have their pension account increased by the final guarantee amount depending on the reason for their next final underpin date.
- Regulation 4D prevents eligible members who take a lump sum payment from having their pension account increased by the final guarantee amount relating to the pension account.

- Regulation 4E prevents eligible members who transfer to a different scheme from having a final guarantee amount determined in relation to their pension account.
- Regulation 4F prevents eligible members who take a repayment of contributions from having a final guarantee amount calculated in respect of those repaid contributions.
- Regulation 4G provides for an “underpin date” to be determined in respect of eligible members. The underpin date is the date in respect of which a provisional calculation of the member’s benefits under the 2014 Scheme and the 2008 Scheme in respect of the underpin period are made.
- Regulation 4H provides for a “final underpin date” to be determined in respect of eligible members. The final underpin date is the date in respect of which the final calculation of the eligible members benefits under the 2014 Scheme and 2008 Scheme, on the basis of which the final guarantee amount is calculated.
- Regulation 4I contains the calculation of an eligible member’s provisional assumed benefits. This is the provisional calculation of the benefits a member is entitled to under the 2014 Scheme.
- Regulation 4J contains the calculation of an eligible member’s provisional underpin amount. This is the provisional calculation of the benefits a member would otherwise have been entitled to under the 2008 Scheme.
- Regulation 4K provides for the calculation of an eligible member’s “final assumed benefits” for the purpose of the statutory underpin. This is the final calculation of the benefits the person is entitled to under the 2014 Scheme.
- Regulation 4L provides for the calculation of an eligible member’s “final underpin amount” for the purpose of the statutory underpin. This is the final calculation of the benefits the person is entitled to under the 2008 Scheme.
- Regulation 4M sets out the effect of the cessation of “Tier 3 benefits” under regulation 35(7) of the 2013 Regulations on an eligible member’s final guarantee amount.
- Regulation 4N sets out the effect of an eligible member’s Tier 3 benefits being uplifted to Tier 2 benefits under regulation 37(7)(b) of the 2013 Regulations.
- Regulation 4O makes provision for the calculation of a “survivor guarantee amount” and for that amount to be added to a survivor member’s pension in respect of a deceased eligible member’s entitlement to a final guarantee amount.
- Regulation 4P makes provision for the calculation of a “deferred guarantee amount” relating to an eligible member who is deceased and for that amount to be included in the calculation of a death grant payable in respect of the member.
- Regulation 4Q makes provision in relation to the calculation of provisional assumed benefits and provisional underpin amount for eligible members who have a pension account that has been aggregated from two or more pension accounts.
- Regulation 4R makes provision for the calculation of the cash equivalent value of an eligible member’s relevant benefits (as defined in section 29 of the Welfare Reform and Pensions Act 1999 (c. 30)) where the eligible member is divorced or dissolves a civil partnership.
- Regulation 4S empowers an administrative authority to pay additional benefits under the 2014 Scheme, instead of an amount under section 82 of PSPJOA 2022, in respect of a compensatable loss that is a Part 4 tax loss.
- Regulation 4T prevents an administering authority from paying an amount by way of compensation under section 82 of PSPJOA 2022, or additional benefits under regulation 4S, unless the eligible member concerned or their personal representatives have made an application. It makes provision for the contents of such an application, requires administering authorities to determine the amounts payable to the eligible member or their personal representatives and for appeals against such determinations.
- Regulation 4U provides that compensation under section 82 of PSPJOA 2022 or regulation 4S may be paid from the pension fund concerned.

- Regulation 4V makes provision for the payment of interest in respect of the payment of an additional benefit under regulation 4S.

Regulation 2(5) amends regulation 9 of the 2014 Regulations to provide that where a transfer payment is received into the 2014 Scheme, which includes a payment in respect of remediable service, in respect of a person from a different public service pension scheme, that payment entitles the person to benefits under the 2014 Scheme, so long as there has been no continuous break of more than 5 years in active membership since the remediable service was accrued.

Regulation 3 makes consequential amendments to the 2013 Regulations, including the following:

Regulation 3(2) amends regulation 28 to ensure that any final guarantee amount calculated in relation to discontinued Tier 3 benefits or any related revaluation adjustment is not to be included in the amount of accrued pension for the purpose of a member's deferred pensioner account.

Regulation 3(3) amends regulation 30 to provide, in respect of a member's pension, that an enhancement (where the member receives their pension after their normal pension age), reduction (where the member receives their pension earlier than their normal pension age), or adjustment (where the member reduces working hours or grade), does not apply to any final guarantee amount which has been added to the pension account in question.

Regulation 3(4) amends regulation 34 to provide that the pension used to calculate a member's commutation payments may under certain circumstances include a final guarantee amount.

Regulation 3(5), (6), (8), (9), (10) and (11) exclude the final guarantee amount to which an eligible member may otherwise have been entitled from the pension the member would have been entitled to for the purpose of the calculation of survivor benefits.

Regulation 3(7) makes similar provision in relation to death grants.

Regulation 3(12) and (13) provides that compensation paid under section 82 of PSPJOA 2022 or additional benefits paid under regulation 4S are liabilities for the purpose of actuarial valuations of a pension fund's liabilities.

Regulation 3(14) amends regulation 81 to disapply its provisions on the payment of interest in relation to sums in respect of which interest is payable under regulation 4V of the 2014 Regulations or regulation 14 of these Regulations.

Regulation 3(15) amends regulation 96 to provide that, where a non-Club transfer out of the pension fund is applied for by an eligible member under paragraph (1) of that regulation, the value of the transfer is to be calculated in accordance with actuarial guidance issued by the Secretary of State, taking into account the member's provisional underpin amount and provisional assumed benefits.

Regulation 3(16) and (17) provide that an actuary determining the amount of a bulk transfer payment must take into account the member's provisional underpin amount and provisional assumed benefits.

Regulation 3(18) inserts a number of definitions into the 2013 Regulations, including the definition of "final guarantee amount", which is linked to the definition in the 2014 Regulations.

Part 3 makes provision in relation to certain specified classes of person to put them in the position they would have been had the amendments made by these Regulations been in force from 2014. The provision being made is as follows:

Regulation 4 makes general provision, including about the persons to whom, or in respect of whom, provision is made.

Regulation 5 makes provision in relation to members who retired or died before 1st October 2023. It is to be determined whether the person should be entitled to a final guarantee amount. If so, the amount is to be paid to the member's pension account or personal representatives.

Regulation 6 makes provision in relation to death grants in respect of members who died before 1st October 2023. Provisional assumed benefits and a provisional underpin amount are to be calculated in respect of the member and regulation 43 of the 2013 regulations is to be applied to recalculate the death grant, with any excess being paid to the original recipients of the death grant.

Regulation 7 makes provision in relation to pensioner member death grants in respect of members who died before 1st October 2023. The death grant payable in respect of the person is to be recalculated under regulation 46 and the amount is to be paid to the original recipients of the death grant.

Regulation 8 makes provision in relation to survivor benefits in respect of members who died before 1st October 2023. Provisional assumed benefits and a provisional underpin amount are to be calculated in respect of the member and regulation 4O is to be applied to the person and any survivor guarantee amount is to be added to the original survivor member's pension account payable under regulation 41, 42, 44, 45, 47 or 48 of the 2013 Regulations.

Regulation 9 makes provision in relation to members who transferred into the fund before 1st October 2023 from certain schemes. Where that transfer results in the person being entitled to benefits under the 2014 Scheme or having a transfer value accepted under regulation 100 of the 2013 Regulations, the transfer is to be treated as a transfer to which regulation 9(1ZA) and, as the case may be (1ZB) of the 2014 Regulations applies.

Regulation 10 makes provision in relation to members who transferred out of the fund before 1st October 2023 under regulation 96 or 98 of the 2013 Regulations. Provisional assumed benefits and a provisional underpin amount are to be calculated in respect of the member and the transfer value is to be recalculated. Where a payment must be made, it is to be made to the trustees or manager of the new scheme for the benefit of the person.

Regulation 11 provides that where a person took a trivial commutation payment or lump sum under regulation 34(1) of the 2013 Regulations before 1st October 2023, it is to be determined whether the person is entitled to a final guarantee amount in accordance with regulations 4A to 4V of the 2014 Regulations.

Regulation 12 makes provision in relation to members who divorced or dissolved a civil partnership before 1st October 2023. The cash equivalent value of the person's relevant benefits (for the purpose of section 29 of the Welfare Reform and Pensions Act 1999) is to be recalculated in accordance with actuarial guidance issued by the Secretary of State. Where the recalculated amount exceeds the original calculation, the annual pension awarded to the member's spouse or civil partner is to be recalculated based on that amount.

Regulation 13 makes provision for a member with underpin dates (within the meaning of regulation 4G of the 2014 Regulations) that occur before 1st October 2023, but who do not have a final underpin date (within the meaning of regulation 4H of those Regulations) before that date. This regulation makes provision for the calculation of a provisional underpin amount and provisional assumed benefits in relation to the member and for the modification of the provision applying a final underpin date to the member.

Regulation 14 makes provision for the payment of interest in respect of sums payable under this Part of the Regulations.

No impact assessment has been produced for this instrument as no, or no significant, impact on the private or voluntary sectors is foreseen.
