Dear Nicholas

We have the honour to refer to discussions which have taken place between the Department for Work and Pensions and His Majesty’s Revenue and Customs of His Majesty’s Government of the United Kingdom of Great Britain and Northern Ireland, and the Department of Social Security of His Majesty’s Government of Gibraltar. These discussions between our two Governments have concerned existing and future arrangements concerning social security coordination between them, namely:

1. the exchange of letters between the Secretary of State for Foreign and Commonwealth Affairs dated 12 December 1973 and the Governor of Gibraltar dated 30 December 1974 which constitute an Interim Agreement on Social Security arising from the United Kingdom’s Accession to the European Economic Community (‘the 1974 Exchange of Letters’), including the modification of the 1974 Exchange of Letters by a further exchange of letters between the Department for Work and Pensions and His Majesty’s Revenue and Customs dated 16 December 2020 and the Department of Social Security of His Majesty’s Government of Gibraltar dated 21 December 2020 (‘the 2020 Exchange of Letters’), and,
2. the proposed Agreement on Social Security between His Majesty’s Government of the United Kingdom of Great Britain and Northern Ireland and His Majesty’s Government of Gibraltar which is set out in the Annex to this Letter (‘the Agreement’).

In these discussions our two Governments have confirmed the desire to continue to coordinate social security for persons who move between the United Kingdom of Great Britain and Northern Ireland (‘the United Kingdom’) and Gibraltar on the basis of the provisions set out in the Agreement. The existing arrangements constituted by the 1974 Exchange of Letters, as modified by the 2020 Exchange of Letters, shall continue to operate in accordance with Article 65 of the Agreement.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

If the foregoing proposals are acceptable to you, I propose that this letter and your reply notifying the acceptance of His Majesty's Government of Gibraltar will constitute an understanding with regards to social security coordination between the United Kingdom and Gibraltar which will come into effect in accordance with Article 61 of the Agreement.

(1) A person receiving invalidity benefits from a Party shall have those benefits converted to old-age benefits in accordance with Section 2 of this Part if the legislation of that Party provides for such a conversion.

(2) Where a person receiving invalidity benefits from a Party (Party A) becomes eligible for old-age benefits under the legislation of the other Party (Party B) in accordance with Article 25, the relevant authority of Party A shall continue to provide that person with the invalidity benefits to which they are entitled under the legislation it applies, until paragraph (1) becomes applicable in respect of that authority, or for as long as the person concerned satisfies the conditions for such invalidity benefits.

(3) Where invalidity benefits paid to a person under the legislation of a Party (Party A) are converted into old-age benefits in accordance with paragraph (1) and the person concerned does not yet satisfy the conditions for entitlement to old-age benefit under the legislation of the other Party (Party B), the person concerned shall receive, from Party B, invalidity benefits from the date of the conversion.

(4) The invalidity benefits provided by Party B under paragraph (3) shall be provided in accordance with Section 2 of this Part (in the same way, subject to necessary modifications) as if that section had been applicable at the time when the incapacity for work leading to invalidity occurred, until the person concerned satisfies the qualifying conditions for old-age benefit under the legislation of Party B or, for as long as the person is entitled to invalidity benefits under that legislation.

(5) The invalidity benefits provided under Article 17 shall be recalculated in accordance with Section 2 of this Part as soon as the person receives old-age benefits under the legislation of the other Party.

ARTICLE 19

Long-term care benefits

(1) Subject to paragraph (2), an insured person and any members of their family residing in the Party which is not competent shall be entitled to long-term care benefits provided by the other Party in accordance with the legislation it applies.

(2) For the purposes of paragraph (1), when determining any entitlement to such benefit under the legislation of the United Kingdom:

(a) any condition requiring that an EU Social Security Coordination Regulation applies shall not apply; and

(b) as regards periods spent in Gibraltar, only periods of residence during which a person was insured prior to the day on which entitlement to the relevant benefit first arises may be

taken into account in so far as is necessary to satisfy a condition regarding presence in the United Kingdom.

ARTICLE 20

Benefits for pensioners

(1) This Article does not apply where a person who receives a pension, or a member of their family, is entitled under the legislation of or one or both of the Parties to a sickness benefit, maternity and paternity benefit, or long-term care benefit on the basis of the activity of that person or of a member of their family.

(2) Where a person receives a pension from one or both of the Parties, they, along with the members of their family, shall be entitled to sickness benefits, maternity and paternity benefits, and long-term care benefits under the legislation of the Party which is responsible for meeting the costs of that person's benefits in kind in accordance with the legislation it applies.

(3) Where the application of paragraph (2) would result in both Parties being competent for payment of such benefit(s), only the Party of residence shall be competent for such benefit(s).

ARTICLE 21

Unemployment benefit

Aggregation provision

(1) Where a person has, since their last arrival in a Party, completed a contribution period under the legislation of that Party, then for the purpose of any claim to unemployment benefit made under the legislation of that Party, any insurance period or period of employment, completed under the legislation of the other Party shall be treated in accordance with Article 15 as if it were an insurance period or period of employment completed under the legislation of the former Party, in so far as those periods do not coincide.

(2) Except in the case referred to in Article 22(4)(a), the application of paragraph (1) shall be conditional on the person concerned having completed their most recent insurance period or period of employment in the Party in which the benefit is claimed, as may be required by the legislation of that Party.

Export provision

(3) For the purpose of this Article, Article 7 shall apply only in the cases provided for by paragraphs (4) and (5) and within the limits prescribed in those paragraphs.

(4) A wholly unemployed person who satisfies the entitlement conditions for unemployment benefit under the legislation of the Party competent for payment of such benefit (Party A), and who goes to the other Party (Party B) in order to seek work there, shall retain entitlement to that benefit in accordance with the legislation of Party A and at its own expense, under the following conditions and within the following time limits:

(a) before going to Party B, the person concerned must have registered with the employment services of Party A as a person seeking work and remained available to the employment services of Party A for at least 4 weeks after becoming unemployed (or such shorter time as the relevant authority of Party A may agree);

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(b) the person concerned shall, in Party B:

- (i) register with the employment services of that Party as a person seeking work;
- (ii) be subject to the control procedure organised there; and
- (iii) adhere to the conditions laid down under the legislation of that Party;

within 7 days of ceasing to be available to the employment services of Party A (or such longer time as the relevant authority of Party A may agree to). Where this condition is satisfied, it shall be treated as satisfied for the period before registration;

(c) the person concerned shall retain their entitlement to unemployment benefit from Party A for as long as they remain entitled to it under the legislation of that Party, up to a maximum of 13 weeks from the date when they ceased to be available to the employment services of that Party. Party A may extend the duration of such benefit to a maximum of 26 weeks.

(5) If the person concerned returns to Party A on or before the expiry of the period during which they are entitled to benefits under paragraph (4)(c), they shall continue to be entitled to unemployment benefit under the legislation of that Party provided that the duration for which the benefit is paid under that legislation is not exceeded.

(6) If the person concerned does not return to Party A on or before the expiry of that period, they shall lose entitlement to unemployment benefit from the end of that period, unless the provisions of the legislation of Party A are more favourable or the relevant authority of Party A agrees to extend their entitlement until a date after the expiry of that period.

(7) Unless the legislation of Party A is more favourable, between two periods of employment the maximum total period for which entitlement to unemployment benefit shall be retained under paragraph (4) shall be 13 weeks. However, the relevant authority of Party A may extend that period up to a maximum of 26 weeks.

ARTICLE 22

Unemployed persons who resided in the Party other than the competent Party

(1) A person who is partially or intermittently unemployed and who, during their last activity as an employed or self-employed person, resided in the Party which is not the Party competent for payment of unemployment benefit, shall make themselves available to their employer or register as a person seeking work with the employment services in the competent Party, and shall comply with the conditions applicable under its legislation. The competent Party shall pay unemployment benefit to that person in accordance with its legislation as if the person was residing in that Party.

(2) A wholly unemployed person who, during their last activity as an employed or self-employed person, resided in Party A and who continues to reside there or returns there shall register with the employment services in that Party as a person seeking work and comply with the conditions applicable under the legislation of that Party. Without prejudice to Article 21, the wholly unemployed person may, as a supplementary step, register as a person seeking work with the employment services of Party B, if that is the Party in which they pursued that last activity, and only the obligations applicable under the legislation of that Party will apply.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(3) A wholly unemployed person falling within paragraph (2) who remains in Party B after the end of their activity there, shall register as a person seeking work with the employment services of that Party and only the conditions applicable under the legislation of that Party will apply.

(4) (a) The unemployed person referred to in paragraph (2) shall receive unemployment benefits from Party A in accordance with the legislation it applies as if they had been subject to that legislation during their last activity as an employed or self-employed person.

(b) However, a worker shall firstly receive, on their return to Party A, benefits in accordance with Article 21. No benefit shall be payable by Party A in accordance with sub-paragraph (a) for the period during which they receive benefit under the legislation of Party B to which they were last subject.

(5) The benefit provided by Party A under paragraph (4) shall continue to be paid at its own expense. However, subject to paragraphs (6) and (7), Party B (in cases where the person concerned was last subject to the legislation of that Party) shall reimburse Party A for the full amount of the benefits provided by Party A during the first 13 weeks of the payment. The amount of the reimbursement during this period may not be higher than the amount payable as unemployment benefit under the legislation of Party B. In the case referred to in paragraph (4)(b), the period during which benefit is provided under Article 21 shall be deducted from the 13 week period.

(6) However, the period of reimbursement referred to in paragraph (5) shall be extended to 22 weeks when the person concerned has, during the preceding 24 months, completed periods of employment of at least 12 months in Party B, where such periods would be taken into account for the purposes of establishing entitlement to unemployment benefits.

(7) For the purposes of paragraphs (5) and (6), Party A may waive the reimbursement.

(8) Where the legislation applicable in the Parties requires the fulfilment of certain obligations and/or job-seeking activities by the unemployed person, the obligations and/or job-seeking activities required in the Party of residence shall have priority. The non-fulfilment by the unemployed person of all the obligations and/or job-seeking activities in the Party in which they pursued their last activity shall not affect the benefits awarded in the Party of residence.

ARTICLE 23

Calculation of unemployment benefits

(1) For the purpose of calculating a person's entitlement to an unemployment benefit where Gibraltar is competent for payment of such benefit, Gibraltar shall take into account the members of the person's family residing in the United Kingdom as if they resided in Gibraltar.

(2) Paragraph (1) shall not apply where another person is entitled to an unemployment benefit under the legislation of Gibraltar for those same members of the family.

ARTICLE 24

Reimbursement of unemployment benefits

(1) For the purposes of Article 22(5) and (6) the relevant authority of the Party in which the person concerned resides (Party A) shall request reimbursement of unemployment benefits from the relevant authority of the other Party (Party B). The request shall be made within six months of the

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

end of the calendar half-year during which the last payment of unemployment benefit, for which reimbursement is requested, was made. Party B shall not be required to consider requests made after this time-limit. The request shall indicate the:

- (a) amount of benefit paid during the 13 or 22 week period referred to in Article 22(5) and (6);
- (b) period for which the benefits were paid; and
- (c) identification data of the unemployed person.

(2) Where such a request is made during the time-limit set out in paragraph (1), Party B shall pay the amount set out in such request to Party A within 18 months of the end of the month during which the request was sent to Party B. From the end of that 18-month period, interest may be charged by Party A on outstanding claims, calculated on the basis of a rate to be agreed between the Parties.

SECTION 2

OLD-AGE BENEFIT AND SURVIVOR'S BENEFIT

ARTICLE 25

General provisions

(1) Where a person has been subject to the legislation of both Parties, each Party shall determine whether that person satisfies the conditions for entitlement to old-age benefit under its legislation when it receives the person's claim for such benefit, unless the person has expressly requested deferment of the award of old-age benefit under the legislation of that Party (where deferment is allowed under such legislation).

(2) Where the person satisfies the conditions for entitlement to old-age benefit under the legislation of both Parties, each Party shall calculate the person's entitlement to such benefit in accordance with Article 26.

(3) (a) Where the person satisfies the conditions for entitlement to an old-age benefit under the legislation of one Party (Party A) but does not simultaneously satisfy or no longer satisfies such conditions under the legislation of the other Party (Party B), or has expressly requested deferment of award of such benefit (and the legislation of Party B provides for such deferment), Party A shall calculate their entitlement to the benefit in accordance with sub-paragraph (b) and Article 26.

(b) Where paragraph (a) applies, when performing the calculation in Article 26, Party A shall not take into account insurance periods completed under the legislation of Party B where this gives rise to a lower amount of old-age benefit.

(c) As and when the person satisfies the entitlement conditions for old-age benefit under the legislation of Party B, or makes a claim to Party B for such benefit following deferment of it in accordance with paragraph (1), each Party shall calculate the person's entitlement to such benefit under its legislation in accordance with Article 26, but Party B shall not take into account insurance periods completed under the legislation of Party A which have already been taken into account by virtue of sub-paragraphs (a) and (b).

OFFICIAL

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

ARTICLE 26

Calculation and award of old-age benefit

- (1) Subject to paragraphs (4) and (5) and Articles 27 to 29, the relevant Party shall calculate the amount of old-age benefit that would be due to be paid to a person:
- (a) under the legislation it applies, where the person has satisfied the conditions for entitlement to the old-age benefit exclusively on the basis of all the relevant insurance periods completed under the legislation of that Party (the "independent amount"); and
 - (b) on a pro-rata basis, as follows (the "pro-rata amount"):
 - (i) firstly, calculating the amount of old-age benefit which would be payable by that Party if all the relevant insurance periods completed by the person under the legislation of both Parties had been completed under the legislation which it applies on the date of award of the benefit (the "theoretical amount");
 - (ii) then, expressing the relevant insurance periods completed by the person under the legislation of that Party as a percentage of the sum of all relevant insurance periods completed by that person under the legislation of both Parties;
 - (iii) lastly, by multiplying the theoretical amount by the percentage calculated under paragraph (ii) above.
- (2) Where appropriate, the relevant Party shall apply, to the independent amount or the pro rata amount, all the rules relating to reduction, suspension or withdrawal under the legislation it applies, within the limits provided for by Articles 31 to 33.
- (3) The person concerned shall be entitled to receive from the Party the higher of the independent amount and the pro-rata amount.
- (4) Where, in a Party, the independent amount is invariably equal to or higher than the pro-rata amount, that Party need not carry out the calculation of the pro-rata amount.
- (5) For the purpose of determining the rate of state pension under section 2 or 4 of the Pensions Act 2014, the United Kingdom shall calculate the amount of such benefit based solely on the insurance periods completed or, in accordance with Article 15(6) treated as paid, under its legislation.
- (6) For the purpose of the calculation in paragraph (1), where all the insurance periods completed by a person under the legislation of the United Kingdom amount to less than one qualifying year, or relate only to periods ending before 6 April 1975 and in aggregate amount to less than 50 weeks, those periods shall be treated as if they had been completed under the legislation of Gibraltar.
- (7) Any increase of benefit payable under the legislation of the United Kingdom because of deferred retirement shall be based on the pro-rata amount calculated in accordance with paragraph (1)(b) above.
- (8) Where all the insurance periods completed by a person under the legislation of Gibraltar amount to less than one year, those periods shall be treated as if they had been completed under the legislation of the United Kingdom.
- (9) Notwithstanding Article 60, any Party which establishes, while investigating a claim for old-age benefits, that the person is entitled to an independent amount under its legislation in

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

accordance with paragraph (1)(a) above, shall pay that amount without delay on a provisional basis.

ARTICLE 27

Insurance periods to be taken into account

For the purpose of applying Article 26, a Party shall take into account only insurance periods (completed under the legislation of either Party) which would be taken into account for the determination of benefits under its legislation if they were completed under that legislation.

ARTICLE 28

Overlapping contribution periods

For the purpose of applying Article 26:

(a) where a compulsory contribution period or credited period completed under the legislation of one Party (Party A) coincides with a voluntary contribution period or continued optional contribution period completed under the legislation of the other Party (Party B), only the compulsory contribution period or credited period shall be taken into account;

(b) where a compulsory contribution period completed under the legislation of Party A coincides with a credited period completed under the legislation of Party B, only the contribution period completed under the legislation of Party A shall be taken into account;

(c) where a credited period completed under the legislation of one Party coincides with a credited period completed under the legislation of the other Party, account shall be taken only of the credited period completed:

(i) under the legislation under which the person was last compulsorily insured before the day when the periods in question began; or

(ii) if they were never compulsorily insured before that day, under the legislation under which they first became compulsorily insured after the day when the periods in question ended;

(d) where it is not possible to determine accurately the period of time in which certain insurance periods were completed under the legislation of one Party, such insurance periods shall be treated as if they did not overlap with insurance periods completed under the legislation of the other Party and shall be taken into account where possible and to the best advantage of the person concerned.

(e) Subject to sub-paragraph (f), where periods of voluntary or optional continued insurance have not been taken into account under this Article, the Party under whose legislation those periods were completed shall, where possible, calculate the amount of old-age benefit to which the person concerned would be entitled, on the basis of those periods under the legislation it applies. The pro-rata amount of the benefit payable to the person, calculated in accordance with Article 26(1), shall be increased by the amount corresponding to periods of voluntary or optional continued insurance.

(f) Each Party shall calculate, under the legislation it applies, the amount of old-age benefit to which the person concerned is entitled, on the basis of periods of voluntary or optional continued insurance which, under the last sentence of Article 31(3), shall not be subject to the other Party's rules relating to withdrawal, reduction or suspension.

OFFICIAL

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

ARTICLE 29

Benefits to be excluded

For the purpose of applying Article 26 no account shall be taken of the following benefits payable to the person concerned under the legislation of the United Kingdom:

- (i) any additional pension;
- (ii) any graduated retirement benefit payable by virtue of any graduated contributions paid before 6 April 1975;

but any such benefit shall be added to the amount of any benefit payable under that legislation in accordance with Article 26(3).

ARTICLE 30

Survivor's benefit

Articles 25 to 29 shall apply in the same way, subject to any necessary modifications, to survivor's benefit.

ARTICLE 31

Rules to prevent overlapping

- (1) Any overlapping entitlement to an old-age, invalidity or survivor's benefit under the legislation of both Parties and calculated or provided on the basis of insurance periods completed by the same person shall be considered, for the purposes of this Article and Article 32, to be overlapping of benefits of the same kind.
- (2) Overlapping entitlement to benefits which cannot be considered to be of the same kind within the meaning of paragraph (1) shall be considered to be overlapping of benefits of a different kind.
- (3) For the purpose of any rules preventing overlapping under the legislation of a Party (Party A) in the case of overlapping of an old-age, invalidity or survivor's benefit with a benefit of the same kind or a benefit of a different kind, Party A shall take into account the amount of benefits to be paid to the person by the other Party (Party B) before deduction of tax, social security contributions and other individual levies or deductions, where the legislation of Party A provides for benefits acquired abroad to be taken into account and unless such legislation provides otherwise. Party A shall not take into account any amount of benefits acquired under the legislation of Party B on the basis of voluntary insurance or continued optional insurance.
- (4) If one Party applies rules to prevent overlapping because the person concerned receives benefits of the same or of a different kind under the legislation of the other Party, the benefit due may be reduced solely by the amount of such benefits.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

ARTICLE 32

Overlapping of benefits of the same kind

Where benefits of the same kind due under the legislation of both Parties overlap, the rules to prevent overlapping laid down by the legislation of a Party shall not be applicable to a pro-rata amount (calculated under Article 26(1)(b)).

ARTICLE 33

Overlapping of benefits of a different kind

- (1) If the receipt of benefits of a different kind requires the application of the rules to prevent overlapping provided for by the legislation of the Parties regarding:
 - (a) two independent amounts, the Parties shall divide the amounts of the benefit or benefits, as they have been taken into account, by the number of benefits subject to the said rules;
 - (b) one or more pro-rata amounts, the Parties shall take into account the benefit or benefits or other income and all the elements stipulated for applying the rules to prevent overlapping as a function of the ratio between the insurance periods established for the calculation referred to in Article 26(1)(b)(ii); or
 - (c) one or more independent amounts and one or more pro-rata amounts, the Parties shall apply sub-paragraph (a) in the same way, subject to any necessary modifications, as regards independent amounts and sub-paragraph (b) as regards pro-rata amounts.

The application of sub-paragraph (a) shall not deprive the person concerned of their status as a pensioner for the purposes of this Agreement.

- (2) A Party shall not apply the division stipulated in respect of independent amounts, if the legislation it applies provides for account to be taken of benefits of a different kind and all other elements for calculating part of their amount determined as a function of the ratio between insurance periods referred to in Article 26(1)(b)(ii).
- (3) Paragraphs (1) and (2) shall apply in the same way, subject to necessary modifications, where the legislation of one or both Parties provides that a right to a benefit cannot be acquired in cases where the person concerned is in receipt of a benefit of a different kind, payable under the legislation of the other Party.

SECTION 3

BENEFITS FOR ACCIDENTS AT WORK AND OCCUPATIONAL DISEASES

ARTICLE 34

General provisions

- (1) A person who has sustained an accident at work or has contracted an occupational disease and who resides in a Party (Party A) which is not the Party competent for payment of

OFFICIAL

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

benefits for accidents at work and occupational diseases (Party B) shall be entitled to such benefits in accordance with the legislation of Party B.

- (2) By agreement between the two Parties, such benefits may, however, be provided by Party A in accordance with its legislation, at the expense of Party B.

ARTICLE 35

Dual attribution and aggravation of an occupational disease

- (1) Subject to paragraph (2), where a person who has contracted an occupational disease has, under the legislation of both Parties, pursued an activity as an employed person which by its nature is likely to cause the said disease, and they would be entitled to receive a benefit for accidents at work and occupational diseases in respect of that disease under the legislation of both Parties whether by virtue of this Agreement or otherwise, any benefits that the person or their survivors may claim shall be provided exclusively under the legislation of the Party in which they were last employed in that occupation before the disease was diagnosed.
- (2) Where a person has suffered an aggravation of an occupational disease for which a benefit has been paid or is payable by a Party (Party A) in accordance with paragraph (1), the following provisions shall apply:
- (a) if the person concerned, while in receipt of such benefit, has not pursued, under the legislation of the other Party (Party B), any further activity as an employed person in an occupation likely to cause or aggravate the disease in question, Party A shall bear the cost of the benefit taking into account the aggravation;
 - (b) if the person concerned, while in receipt of such benefit, has pursued such an activity under the legislation of Party B:
 - (i) Party A shall bear the cost of the benefit under its legislation without taking the aggravation into account; and
 - (ii) Party B shall grant a supplement to the person concerned, the amount of which shall be equal to the difference between the amount of benefits due after the aggravation and the amount which would have been due prior to the aggravation under the legislation it applies as if they had first contracted the disease whilst pursuing such activity under the legislation of that Party; and
 - (c) the rules concerning reduction, suspension or withdrawal laid down by the legislation of a Party shall not be invoked against persons receiving benefits provided by both Parties in accordance with sub-paragraph (b).

ARTICLE 36

Equivalence of accidents at work and occupational diseases in the two Parties

When assessing the degree of incapacity, the right to benefit for such accident or disease or the amount of a benefit for accidents at work and occupational diseases, Article 5 shall apply to a Party (Party A) as regards the equivalence in that Party of an accident at work and occupational disease which has either occurred in the other Party (Party B), or been confirmed subsequently under the legislation of Party B, on condition that:

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(a) no compensation from a third party is due in respect of an accident at work or an occupational disease which had occurred previously in Party B or had been confirmed previously under the legislation of Party B; and

(b) no compensation is due in respect of a further accident at work or occupational disease which had also occurred in Party B or also been confirmed subsequently under the legislation of Party B.

ARTICLE 37

Exchange of information between the Parties and advance payments in the event of an appeal

(1) In the event of an appeal against a decision to refuse a claim for a benefit for accidents at work and occupational diseases to a person, taken by the relevant authority of one Party (Party A) under whose legislation the person concerned pursued an activity as an employed person likely to have caused the occupational disease in question, that relevant authority shall inform the relevant authority of the other Party (Party B) of such appeal and shall subsequently inform it when a final decision is reached.

(2) Where a person is entitled to such benefit under the legislation of Party B, that Party shall make advance payments of the benefit in accordance with the legislation of that Party. The relevant authority of Party A shall reimburse to Party B the amount of advance payments made if, as a result of the appeal, it is obliged to provide those benefits. Party A shall then deduct that amount from the benefits due under its legislation to the person concerned.

SECTION 4

FAMILY BENEFITS

ARTICLE 38

Family Benefits

(1) Articles 5 to 11 shall not apply to family benefits.

(2) In relation to family benefit, where under the legislation applicable to a Party:

(a) the completion of a period of presence in that Party is required, any period during which a person was in the other Party shall be treated as a period during which they were in the Party to which the legislation applies;

(b) the place of a person's birth is relevant, a person who was born in the other Party shall be treated as having been born in the Party to which the legislation applies.

(3) Family benefits shall not be payable in respect of the same child under the legislation of both Parties and where, but for this provision, they would have been so payable, they shall be paid under the legislation which applies to the Party in which the child is resident.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

SECTION 5
DEATH GRANTS

ARTICLE 39

Death grant

(1) Where a person (other than a pensioner), or a member of their family, dies in the Party which is not competent for the payment of death grants, their death shall be treated as if it had occurred in the competent Party.

(2) Where a pensioner, who was entitled to a pension under the legislation of one or both Parties, or a member of their family dies, the Party competent for the payment of benefits under Article 20 shall also be competent for the payment of death grants.

(3) Where a person or a member of their family dies, the competent Party shall pay the death grant under the legislation it applies, even if the person entitled to it resides in the other Party.

(4) This Article shall also apply when the death is the result of an accident at work or an occupational disease.

PART V
MISCELLANEOUS PROVISIONS

SECTION 1

PRINCIPLES

ARTICLE 40

Collection of contributions and recovery of benefits

(1) Collection of contributions due to one Party and recovery of overpaid or wrongly paid benefits provided by one Party may be effected in the other Party in accordance with the procedures and with the guarantees and privileges applicable in relation to similar claims arising in the latter Party.

(2) Enforceable decisions of the judicial and administrative authorities relating to the collection of contributions, interest and any other charges or to the recovery of overpaid or wrongly paid benefits in one Party shall be recognised and enforced at the request of the relevant authority in the other Party, to the extent that the laws of the latter Party allow and within the limits and in accordance with the procedures laid down by the legislation and any other procedures applicable to similar decisions of that Party. Such decisions shall be declared enforceable in the latter Party in so far as the legislation and any other procedures of that Party so require.

(3) Claims of a relevant authority of one Party shall in enforcement, bankruptcy or settlement proceedings in the other Party enjoy the same privileges as the legislation of the latter Party accords to similar claims.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

ARTICLE 41

Offsetting provisions

For the purposes of applying Article 40, and within the framework set out in this Agreement, the recovery of claims shall, wherever possible, be effected by way of offsetting either between the relevant authorities of the Party concerned, or vis-à-vis the individual or entity concerned in accordance with Article 43. If it is not possible to recover all or any of the claim via this offsetting procedure, the remainder of the amount due shall be recovered in accordance with Articles 44 to 54. No costs are payable between the Parties where the claim is recovered through this offsetting procedure.

ARTICLE 42

Rights of institutions

- (1) This paragraph applies where a person receives benefits under the legislation of one Party (Party A) in respect of an injury resulting from events occurring in the other Party (Party B).
- (2) Where paragraph (1) applies and the relevant authority of Party A has a direct right against a third party which is liable to provide compensation to the person for the injury, Party B shall recognise such right.
- (3) Where paragraph (1) applies, the provisions of the legislation of Party A which determine the cases in which the civil liability of employers or of their employees is to be excluded shall apply with regard to the person or to the relevant authority of Party A.
- (4) Paragraph (2) shall also apply to any rights of the relevant authority of Party A against employers or their employees in cases where their liability is not excluded.

SECTION 2

OFFSETTING

ARTICLE 43

Benefit overpayments

- (1) If a Party (Party A) has overpaid an amount of benefit to a person, Party A may, within the terms and limits laid down in the legislation applying in that Party, request that the other Party (Party B) deduct the overpaid amount from arrears or on-going payments of benefit (whether of the same or a different type) payable by that Party to the person concerned. Party B shall deduct the amount subject to the conditions and limits applying to this kind of offsetting procedure under the legislation it applies in the same way as if it had made the overpayment itself, and shall transfer the amount deducted to Party A.
- (2) By way of derogation from paragraph (1), if Party A has overpaid an amount of a pension to a person, Party A may request that the relevant authority of Party B deduct the overpaid amount from the arrears of a benefit of the same type payable by that Party to the person concerned. After Party B has informed Party A of these arrears, Party A shall within two months inform Party B of the amount of the overpayment. If Party B receives that communication within such time, it shall deduct the amount, subject to the conditions and limits applying to this kind of offsetting procedure under the legislation it applies, in the same way as if it had made the

overpayment itself, and shall transfer the amount deducted to Party A. If such time elapses without having received such communication, Party B shall without delay pay the arrears to the person concerned.

- (3) (a) If a person has received social assistance in one Party (Party A) during a period in which they were entitled to benefits under the legislation of the other Party (Party B) and Party A is entitled under its own legislation to recover an amount of social assistance paid to such person, Party A shall request that Party B deduct such amount of social assistance from the arrears or ongoing payments of benefit payable by Party B to the person concerned.

(b) Sub-paragraph (a) shall apply in the same way, subject to necessary adjustments, to any member of a person's family who has received social assistance from one Party during a period in which the person was entitled to benefits under the legislation of the other Party in respect of that member of their family.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

ARTICLE 46

Notification to the addressee

 - (b) the claim and/or instrument permitting its enforcement are not disputed in that Party;
 - (c) it has, in that Party, applied appropriate recovery procedures available to it on the basis of the instrument permitting enforcement, and the measures taken will not result in the payment in full of the claim;

ARTICLE 48

Instrument permitting enforcement of the recovery

- (1) Any instrument permitting enforcement of the claim in Party A shall be directly recognised and treated automatically as an instrument permitting the enforcement of that claim in Party B, to the extent that the laws of Party B allow.
- (2) Notwithstanding paragraph (1), the instrument permitting enforcement of the claim may, where appropriate and in accordance with the provisions in force in Party B, be accepted as, recognised as, supplemented with, or replaced by an instrument permitting enforcement in that Party. Within three months of the date of receipt of the request for recovery, the relevant authority shall endeavour to complete the acceptance, recognition, supplementing or replacement, except in cases where paragraph (3) applies. The relevant authorities may not refuse to complete these actions where the instrument permitting enforcement is properly drawn up. Party B shall inform Party A of the grounds for exceeding the three-month period.
- (3) If any of these actions should give rise to a dispute in connection with the claim and/or the instrument permitting enforcement issued by Party A, Article 50 shall apply.

 - (b) Party A shall without delay notify Party B of this action;
 - (c) as soon as Party B has received notification of the action, it shall suspend the enforcement procedure pending the decision of the appropriate authority;
 - (d) where the appropriate authority is a judicial or administrative tribunal, the decision of that tribunal, insofar as it permits recovery of the claim in Party A, shall constitute the "instrument permitting enforcement" within the meaning of Article 48 and the recovery of the claim shall proceed on the basis of that decision.
- (2) Where the dispute concerns enforcement measures taken in Party B, the action shall be brought before the appropriate authority in Party B in accordance with the laws in force in Party B.

ARTICLE 51

Limits applying to assistance by Party B

Party B shall not be obliged:

- (a) to grant assistance with recovery of a claim if it would create serious economic or social difficulties in Party B, insofar as the laws in force in Party B allow it to refrain from taking such action for similar domestic claims;
- (b) to grant assistance with a request for information, notification or recovery of a claim, if the initial request applies to claims more than five years old, dating from the date the instrument permitting the recovery was established in accordance with the laws in force in Party A. If the claim or instrument is contested, the time limit begins from the date it is established that the claim or the instrument may no longer be contested.

In such a case the relevant authority of Party A shall forward the request for review or reconsideration without delay to the relevant authority of Party B.
