“the specified material” has the meaning given in regulation 5(2)(c).

(2) The notice must state—

- (a) the name and overseas entity ID of the registered overseas entity to which the material relates;
- (b) what material the registrar intends to remove, or has removed, and on what grounds, and
- (c) where the material is, or was, in the register.

Removal of material on application

5.—(1) An application for removal of material from the register can be made by any person.

(2) An application for removal must—

- (a) be in writing;
- (b) contain the required information about the applicant (see paragraph (4));
- (c) specify the material which the applicant wants the registrar to remove from the register (“the specified material”) and where in the register the specified material is;

- (e) explain the basis for that view.

(3) An application for removal must be accompanied by any information in writing which the applicant wishes to rely on.

(4) The “required information about the applicant” means—

- (a) name;
- (b) address;
- (c) email address, and

- (d) a description of any current or past connection the applicant has or had with the registered overseas entity.

Rejection of application for removal

6.—(1) This regulation applies where an application for removal has been delivered to the registrar and all of the specified material is material that the registrar—

- (a) is not satisfied the registrar has the power to remove, or
- (b) does not intend to remove.

(2) The registrar must reject the application and give a notice stating it is rejected to the applicant and to any other person the registrar considers appropriate.

Notice of decision to remove material

7.—(1) This regulation applies where an application for removal has been delivered to the registrar and the registrar—

- (a) is satisfied that the registrar has power to remove some or all of the specified material;
- (b) intends to exercise that power in relation to some or all of that material, and
- (c) does not consider it necessary to provide a period for objections to be made to the removal of that material.

(3) The notice must state—

Objection to removal of material

9.—(1) Where a notice has been given under regulation 8 following an application for removal, the registrar must determine the application as soon as reasonably practicable after the end of the period for objecting.

(2) In determining the application for removal, the registrar must take into account any objection made within the period for objecting.

(3) The period for objecting is the period beginning with the date of the notice under regulation 8(3)(d) (or, if more than one notice was given in respect of the application, the date of the earliest notice) and ending with the date stated in the notice under regulation 8(3)(f).

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations provide the registrar for England and Wales with new powers to annotate the register of overseas entities that the registrar maintains in accordance with the Economic Crime (Transparency and Enforcement) Act 2022 (c. 10, “the 2022 Act”), with a view to providing clarity to people who inspect the register. These Regulations also make provision about the removal of material from the register of overseas entities by the registrar using powers contained in section 28 of the 2022 Act, which was substituted by the Economic Crime and Corporate Transparency Act 2023 (c. 56, “the 2023 Act”) and which replaces narrower provisions permitting administrative removal and rectification of the register on application to the registrar. This mirrors reforms made by the 2023 Act to the registrar’s removal powers under the Companies Act 2006 (c. 46).

Part 2 of these Regulations empowers the registrar to annotate the register of overseas entities in order to remedy, so far as possible, the misleading or confusing nature of any material in it, and to place in it such information as appears to the registrar to be appropriate to address any confusion that may arise where material that was formerly considered by the registrar to form part of the register is no longer considered by the registrar to do so.

Part 3 of these Regulations makes provision in connection with the exercise by the registrar of the power in section 28 of the 2022 Act to remove registered material. This includes provision concerning the required contents of applications for removal, the notices to be given of the receipt of applications and decisions of the registrar under section 28 and Part 3 of these Regulations, and about periods (if any) within which people may object to the removal of material.
