1. All hens must be inspected by the owner or the person responsible for the hens at least once a day.

2. The sound level shall be minimised. Constant or sudden noise shall be avoided. Ventilation fans, feeding machinery or other equipment shall be constructed, placed, operated and maintained in such a way that they cause the least possible noise.

3. All buildings shall have light levels sufficient to allow all hens to see one another and be seen clearly, to investigate their surroundings visually and to show normal levels of activity. Where there is natural light, light apertures must be arranged in such a way that light is distributed evenly within the accommodation.

After the first days of conditioning, the lighting regime shall be such as to prevent health and behavioural problems. Accordingly it must follow a 24-hour rhythm and include an adequate uninterrupted period of darkness lasting approximately one third of the day, so that the hens may rest and to avoid problems such as immunodepression and ocular anomalies. A period of twilight of sufficient duration ought to be provided when the light is dimmed so that the hens may settle down without disturbance or injury.

4. Those parts of buildings, equipment or utensils which are in contact with the hens shall be thoroughly cleansed and disinfected regularly and in any case every time depopulation is carried out and before a new batch of hens is brought in. While the cages are occupied, the surfaces and all equipment shall be kept satisfactorily clean. Droppings must be removed as often as necessary and dead hens must be removed every day.

5. Cages must be suitably equipped to prevent hens escaping.

6. Accommodation comprising two or more tiers of cages must have devices or appropriate measures must be taken to allow inspection of all tiers without difficulty and facilitate the removal of hens.

7. The design and dimensions of the cage door must be such that an adult hen can be removed without undergoing unnecessary suffering or sustaining injury.]

WEANERS AND REARING PIGS

48. Pigs shall be placed in groups as soon as possible after weaning. They shall be kept in stable groups with as little mixing as possible.

49. If pigs unfamiliar with one another have to be mixed, this should be done at as young an age as possible, preferably before or up to one week after weaning. When pigs are mixed they shall be provided with adequate opportunities to escape and hide from other pigs.

50. The use of tranquillising medication in order to facilitate mixing shall be limited to exceptional conditions and only after consultation with a veterinary surgeon.

51. When signs of severe fighting appear, the causes shall be immediately investigated and appropriate measures shall be taken.

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations, which apply to Wales only, implement the following Community legislation — Council Directive [88/166/EEC](#) laying down minimum standards for the protection of laying hens kept in battery cages (OJ No. L74, 19.3.88, p.83);

Council Directive [91/629/EEC](#) laying down minimum standards for the protection of calves (OJ No. L340, 11.12.91, p.28), as amended by Council Directive [97/2/EC](#) (OJ No. L25, 28.1.97, p.24) and Commission Decision [97/182/EC](#) (OJ No. L76, 24.2.97, p.30);

Council Directive [91/630/EEC](#) laying down minimum standards for the protection of pigs (OJ No. L340, 11.12.91, p.33); and

Council Directive [98/58/EC](#) concerning the protection of animals kept for farming purposes (OJ No. L221, 8.8.98, p.23).

The Regulations (and the Community legislation which they implement) reflect the obligations contained in the European Convention for the Protection of Animals kept for Farming Purposes of 10th March 1976 (European Treaty Series No.87), as read with the Protocol of Amendment to the European Convention for the Protection of Animals kept for Farming Purposes of 6th February 1992 (European Treaty Series No.145).

Status: Point in time view as at 28/03/2007.

Changes to legislation: There are currently no known outstanding effects for the *The Welfare of Farmed Animals (Wales) Regulations 2001*. (See end of Document for details)

The Regulations apply to all animals kept for farming purposes (subject to certain limited exceptions) (regulation 2(2)).

Regulation 3(1) lays down the general principle that owners and keepers of animals kept for farming purposes must take reasonable steps to ensure the welfare of animals in their care and to prevent them any unnecessary pain, suffering or injury. This principle applies to all animals (including fish, reptiles and amphibians).

The Regulations also provide for general requirements as to the conditions in which all farmed animals (other than fish, reptiles and amphibians) are bred or kept (regulation 3(2) and Schedule 1) and for specific additional requirements as to the conditions in which laying hens kept in battery cages (regulation 4 and Schedule 2), poultry (other than laying hens kept in battery cages) (regulation 5 and Schedule 3), calves (regulation 6 and Schedule 4), cattle (regulation 7 and Schedule 5), pigs (regulation 8 and Schedule 6) and rabbits (regulation 9 and schedule 7) are bred or kept.

Regulation 10 contains provision to ensure that those in charge of animals have access to copies of the welfare codes issued under section 3 of the Agriculture (Miscellaneous Provisions) Act 1968 which apply to the animals being bred or kept and that they are acquainted with those codes. Information relating to the welfare codes that have been issued under the 1968 Act may be obtained from the National Assembly for Wales, Agriculture Policy Division, Cathays Park, Cardiff, CF10 3NQ.

Regulation 11 provides for the service of enforcement notices requiring action to be taken to deal with any breach of the Regulations and regulation 12 provides for a power of entry for persons authorised by the European Commission for the purpose of enforcing Community legislation. Under regulation 13(1), any contravention of the Regulations is an offence under section 2 of the Agriculture (Miscellaneous Provisions) Act 1968. Under section 7 of that Act, the maximum penalty for such an offence is 3 months imprisonment and/or a fine at level 4 on the standard scale (currently, £2,500).

These regulations revoke and replace (with amendments):

The Welfare of Livestock Regulations 1994 (S.I. 1994/2126, amended by S.I. 1998/1709); and
The Welfare of Livestock (Amendment) Regulations 1998 (S.I. 1998/1709).

Schedule 1, which provides for general requirements as to the conditions in which all farmed animals (other than fish, reptiles and amphibians) are bred or kept, contains a number of changes from corresponding provisions in Schedule 4 of the Welfare of Livestock Regulations 1994 (as amended).

In particular, there are a number of requirements which, under the 1994 Regulations, applied only to either animals kept in intensive systems or animals kept in buildings, but the scope of which is now extended to cover all farmed animals (other than fish, reptiles and amphibians). There are also a number of new requirements.
