- (a) a change in the nature or composition of that waste; or
- (b) the production of another waste.

(3) Paragraph (1) does not apply to the extent that the mixing is part of a disposal or recovery operation and is authorised by, and is conducted in accordance with, the requirements (howsoever expressed) of a waste permit <sup>F4</sup>....

(5) In paragraph (4)—

“recycling” means any recovery operation by which waste materials are reprocessed into products, materials or substances whether for the original or other purposes, including the reprocessing of organic material but not including energy recovery or reprocessing into materials that are to be used as fuels;
