

## SCHEDULE 2

### TSE monitoring

## **PART 2**

### Contents of an RMOP

#### **Brain stem sampling**

- 8.**—(1) The RMOP must show that there are –
- (a) sufficient staff trained and competent in the taking, labelling, packaging and dispatch of brain stem samples;
  - (b) hygienic facilities for sampling; and
  - (c) sampling procedures that do not jeopardise the hygienic production of meat intended for human consumption.
- (2) It must describe how health and safety guidelines designed to minimise the risk of exposure of staff to BSE during brain stem sampling and packaging will be complied with.

**Status:**

Point in time view as at 03/05/2006. This version of this provision has been superseded.

**Changes to legislation:**

There are currently no known outstanding effects for the The Transmissible Spongiform Encephalopathies (Wales) Regulations 2006 (revoked), Paragraph 8.
