### **Requirements for plant passports**

**21.—**(1) Subject to paragraph (7) and article 22, the landing in or movement within Wales by any person of any relevant material of a description specified in Part A of Schedule 6 comprising EC transit goods or material originating in Wales or elsewhere in the European Community is prohibited, unless that relevant material is accompanied by a plant passport and, if originating in Wales, has been the subject of a satisfactory inspection at the place of production.

(2) Subject to paragraph (7) and articles 22 and 23, the landing in or movement within Wales by any person of any relevant material of a description specified in Part B of Schedule 6 comprising EC transit goods or material originating in Wales or elsewhere in the European Community is prohibited, unless that relevant material is accompanied by a plant passport which is valid for Wales as a protected zone and, if originating in Wales, has been the subject of a satisfactory inspection at the place of production.

(3) A person must not move within Wales any relevant material, which if comprised of EC transit goods or material consigned to Wales from another part of the European Community would be subject to paragraph (1), after the phytosanitary certificate accompanying it has been officially stamped in accordance with article 12(7)(a) unless it is accompanied by a plant passport.

(4) Subject to article 23, a person must not move within Wales any relevant material, which if comprised of EC transit goods or material consigned to Wales from another part of the European Community would be subject to paragraph (2), after the phytosanitary certificate accompanying it has been officially stamped in accordance with article 12(7)(a) unless it is accompanied by a plant passport which is valid for Wales as a protected zone.

(5) Subject to article 22, a person must not consign from Wales to another part of the European Community any relevant material of a description specified in Part A of Schedule 7 unless that relevant material is accompanied by a plant passport.

(6) Subject to article 22, a person must not consign from Wales to a protected zone in another part of the European Community any relevant material of a description specified in Part B of Schedule 7 unless that relevant material is accompanied by a plant passport which is valid for that protected zone.

(7) The prohibitions imposed on landing by paragraphs (1) and (2) must not apply to relevant material in respect of which the National Assembly has agreed, pursuant to an agreement described in article 12(6), to carry out a plant health check.

### **Exceptions from certain prohibitions and requirements**

**22.**—(1) The prohibitions on landing in article 19(1)(e), (f) and (g) and on movement in article 20(1)(e) and (f) and the requirements in article 21(1), (2), (5) and (6) for certain relevant material to be accompanied by a plant passport do not apply to small quantities of any relevant material, not showing any signs of the presence of any plant pest, which—

- (a) is not intended for use in the course of a trade or business; and
- (b) is intended for household use.

(2) The National Assembly may exempt from the prohibitions on movement in article 21(1) and (2), the movement of relevant material, which originates in Great Britain—

- (a) where that movement is made locally by small producers or processors whose entire production and sale of such material is intended for final usage by persons on the local market who are not professionally involved in plant production; and
- (b) where the National Assembly is satisfied that there is no risk of the spread of plant pests.

### **Validity of plant passports for Wales**

**23.**—(1) Where a person moves relevant material of a description specified in Part B of Schedule 6 through Wales to a destination outside Wales, he or she is not required to produce a plant passport which is valid for Wales as a protected zone, if paragraph (2) or (3) applies.

(2) A plant passport is not required in respect of relevant material described in paragraph (1) if that material originates in Great Britain.

(3) A plant passport is not required in respect of relevant material described in paragraph (1)—

- (a) which during transit through Wales is accompanied by a document of a type normally used for trade purposes which certifies that the material originates outside Wales and is in transit to a final destination outside Wales; and
- (b) whose packaging and any vehicle used in connection with its transit through Wales is—
  - (i) free from soil and plant debris;
  - (ii) free from any relevant plant pest in relation to which Wales is a protected zone;
  - (iii) of such a nature or construction as to ensure that, if any relevant plant pest is present in the relevant material, there is no risk of its spreading from the packaging or the vehicle as the case may be; and
  - (iv) sealed immediately after packaging or where appropriate after loading, and remains sealed during transit through Wales.

### **General provisions relating to plant passports**

**24.**—(1) Any alteration or erasure in a plant passport automatically invalidates that plant passport unless the alteration or erasure is certified by the authorised officer or the plant trader authorised under article 29 to issue the plant passport placing his or her hand written initials next to the alteration or erasure.

(2) A plant passport relating to any relevant material is treated as accompanying that relevant material only if the plant passport is affixed to—

- (a) the relevant material,
- (b) the packaging of that material, or
- (c) the vehicle transporting that material,

by an authorised officer, the plant trader authorised to issue it or an inspector.

(3) A plant passport, insofar as it comprises an official label, must be affixed in such a way that it cannot be re-used.

(4) A person may only issue a replacement plant passport—

- (a) to replace a plant passport issued in respect of a consignment—
  - (i) that has been divided up;
  - (ii) that has been combined, or part of which has been combined, with another consignment; or
  - (iii) whose plant health status has been changed; and
- (b) if he or she is satisfied that the relevant material to which the replacement plant passport will relate—
  - (i) can be identified; and
  - (ii) is free from any risk of infestation by a plant pest specified in either Schedule 1 or 2.

(5) Without prejudice to the requirements of article 28(1)(b) and (c), where a person in the course of their trade or business is the final professional user for plant production of any relevant material which is accompanied by a plant passport in accordance with the requirements in article 21(1), (2), (3) or (4), he or she must retain that plant passport for at least one year.
