⁽²¹⁾ S.I. 2006/1643 (W. 158).

- (b) more than 0.01 per cent by number of growing plants which show symptoms of either mild or severe virus diseases where those symptoms are attributable to infection in the mother crop.

PART III

Basic seed potatoes

7. A growing crop certificate must not be issued containing a statement that seed potatoes are capable of being marketed as basic seed potatoes of any class unless the authorised officer is satisfied that—

- (a) the land on which the seed potatoes are growing or were grown is land which as a result of an official soil test carried out prior to the planting of the crop has been found not to be contaminated with potato cyst nematode (*Globodera* species infecting potatoes); and if potato cyst nematode has been found on that land at any time during the period of 12 years immediately preceding the planting of the crop that—
 - (i) the land is no longer demarcated under Schedule 15 to the Plant Health (Wales) Order 2006 as infected with potato cyst nematode;
 - (ii) six years have elapsed since the last positive finding of infection by potato cyst nematode on the land; and

- (a) allocate to the person making such application a number to be known as a “producer’s identification number” (where one does not already exist for that person);
 - (b) conduct an official examination of the seed potatoes in order to determine whether the requirements of this Schedule and Part IV of Schedule 3 have been met; and
 - (c) subject to paragraph 3 and regulation 8, issue an authorisation to market seed potatoes for test and trial purposes.
2. An authorisation must state—
- (a) the name and address of the applicant;
 - (b) the producer’s identification number;
 - (c) the amount of seed potatoes for which marketing is authorised;
 - (d) the period for which marketing is authorised;
 - (e) the date on which the authorisation was issued; and
 - (f) the proposed name of the variety of the seed potatoes.
3. An authorisation must not be issued by an authorised officer unless he or she is satisfied that—
- (a) the seed potatoes are of a variety for which an application has been made under regulation 4(1)(a) of the Seeds (National Lists of Varieties) Regulations 2001 for acceptance of the variety concerned on to a National List and which application has not been withdrawn or finally determined;
 - (b) the land on which the seed potatoes are growing or were grown is not land which is demarcated under Schedule 14 to the Plant Health (Wales) Order 2006 as contaminated with Wart Disease (*Synchytrium endobioticum* (Schilb.) Perc.) or is within a safety zone demarcated under that Order;
 - (c) the land on which the seed potatoes are growing or were grown is land which is not contaminated by *Globodera* species infesting potatoes;
 - (d) the seed potatoes are taken from a crop of seed potatoes free from *Globodera* species infesting potatoes, *Synchytrium endobioticum* (Schilb.) Perc., *Clavibacter michiganensis* (Smith) Davis et al. ssp. *sepedonicus* (Spieck. & Kotth.) Davis et al. and *Ralstonia solanacearum* (Smith) Yabuuchi et al.);
 - (e) the number of growing plants affected by blackleg does not exceed 4 per cent;
 - (f) the immediately succeeding crop produced from the seed potatoes is, in the opinion of the authorised officer, likely to contain—
 - (i) not more than 0.5 per cent by number of growing plants which do not breed true to variety and not more than 0.2 per cent by number of growing plants which are of a different variety; and
 - (ii) not more than 10 per cent by number of growing plants which show symptoms, other than slight symptoms, of severe virus diseases prevalent in Europe (light mosaics causing discoloration and not leaf deformation are to be ignored);
 - (g) the seed potatoes are ascertained not to be affected by any of the tolerances for diseases, pests, damage or defects specified in Part IV of Schedule 3.

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations, which apply in relation to Wales, consolidate with amendments the Seed Potatoes Regulations 1991 ([S.I. 1991/2206](#)), the Seed Potatoes (Amendment) Regulations 1992 ([S.I. 1992/1031](#)), the Seed Potatoes (Amendment) Regulations 1993 ([S.I. 1993/1878](#)), the Seed Potatoes (Amendment) Regulations 1994 ([S.I. 1994/2592](#)), the Seed Potatoes (Amendment) Regulations 1997 ([S.I. 1997/1474](#)) and the Seed Potatoes (Amendment) (Wales) Regulations 2001 ([S.I. 2001/3666](#)).

The Regulations control the production with a view to marketing, the certification and the marketing of seed potatoes in Wales, other than those intended for export outside the European Community, and give effect to Council Directive [2002/56/EC](#) of 13 June 2002 on the marketing of seed potatoes (OJ L 193, 20.7.2002, p60), as amended, which codifies the previous Community law. They also give effect to Commission Decision [2004/842/EC](#) of 1 December 2004 concerning implementing rules whereby member States may authorise the placing on the market of seed belonging to varieties for which an application for entry in the national catalogue of varieties of agricultural plant species or vegetable species has been submitted (OJ L 362, 9.12.2004, p21), which sets out the conditions on which seed potatoes which have not yet been added to a National List may be marketed for test and trial purposes.

Regulation 4 prohibits the marketing of any seed potatoes unless they have been certified as either pre-basic, basic or certified seed potatoes, or unless they have been authorised for marketing for scientific purposes or selection work or for test and trial purposes. For seed potatoes produced in Wales, certification, including the determination of the category and class at which the potatoes should be marketed, must take place in accordance with the requirements of regulation 9.

Regulation 5 applies more stringent requirements to seed potatoes to be marketed in the “protected region” (“*rhanbarth sydd wedi ei ddiogelu*”) (defined in regulation 2(1)). Regulation 6 provides that seed potatoes cannot be marketed unless they comply with the size requirements laid down by the regulation.

Regulations 7 and 8 allow the National Assembly for Wales (“the National Assembly”) to authorise the marketing of small quantities of seed potatoes for scientific purposes or selection work and seed potatoes for test and trial purposes.

Regulation 11 provides that seed potatoes (other than retail sales of small quantities of seed potatoes meeting the conditions of regulation 17) may only be marketed in packages or containers. Seed potatoes in packages or containers (other than those authorised to be marketed for scientific purposes or selection work) can only be marketed if labelled and sealed (regulations 12 and 13), the labels bearing the particulars specified in Schedule 2. Documents accompanying seed potatoes that have been genetically modified must include reference to this fact (regulation 14).

Regulation 18 provides for the taking of samples as part of the certification process or to ensure compliance with the provisions of the Regulations.

Regulation 20 provides the National Assembly with powers of examination and production of seed potatoes and relevant documents.

Regulation 21 allows the National Assembly to withdraw official labels or official documents relating to seed potatoes which are found not to comply with the requirements imposed by the Regulations.

Contravention of any provision in the Regulations is an offence under section 16(7)(b) of the Plant Varieties and Seeds Act 1964 (c. 14) incurring liability on summary conviction to a fine not exceeding level 5 on the standard scale.

The Regulations include drafting and other amendments including those consequential on devolution of functions to Scottish Ministers, in relation to Scotland, and to the National Assembly, in relation to Wales.

A Regulatory Appraisal in relation to these Regulations has been prepared. A copy is available from the Department for Environment, Planning and Countryside, Welsh Assembly Government, Cathays Park, Cardiff CF10 3NQ.
