2009 No. 1267

**The Traffic Management Permit
Scheme (Wales) Regulations 2009**

PART 3

Permit Scheme Content

Specified streets

8.—(1) Subject to the following paragraphs of this regulation, a permit scheme must specify the streets (or types of streets) within its specified area to which controls on the carrying out of specified works are to apply (which must be the “specified streets” for the purposes of that permit scheme).

(2) Subject to paragraph (3), a permit scheme may not specify any streets which are not maintainable highways as being streets to which controls on the carrying out of specified works are to apply.

(3) A permit scheme may specify a street which is not a maintainable highway as being a street to which controls on specified works are to apply if —

- (a) the Permit Authority anticipates that the street will become a maintainable highway; and
- (b) the permit scheme provides that the controls on specified works apply only in relation to works in that street which are carried out after the street has become a maintainable highway.

(4) A permit scheme may specify streets as being streets to which controls on the carrying out of specified works are to apply notwithstanding that the permit authority is not the highway authority for those streets.
