The Planning (Hazardous
Substances) (Wales) Regulations
2015

NODYN ESBONIADOL

EXPLANATORY NOTE

(Nid yw'r nodyn hwn yn rhan o'r Rheoliadau)

(This note is not part of the Regulations)

Mae'r Rheoliadau hyn yn cydgrynhoi, gyda diwygiadau, Reoliadau Cynllunio (Sylweddau Peryglus) 1992 (O.S. 1992/656) ac offerynnau diwygio dilynol i'r graddau y maent yn gymwys i Gymru. Maent hefyd yn cynnwys darpariaeth sy'n ymwneud â'r cyfnod ar gyfer penderfynu gweithdrefn o dan adrannau 20 ac 21 o Ddeddf Cynllunio (Sylweddau Peryglus) 1990 ("y DCSP").

These Regulations consolidate, with amendments, the Planning (Hazardous Substances) Regulations 1992 (S.I. 1992/656) and subsequent amending instruments insofar as they apply to Wales. They also include provision relating to the period for determination of procedure under sections 20 and 21 of the Planning (Hazardous Substances) Act 1990 ("the PHSA").

Mae'r Rheoliadau hyn hefyd yn gweithredu'r agweddau defnydd tir yng Nghyfarwyddeb 2012/18/EU Senedd Ewrop a'r Cyngor ar reoli peryglon damweiniau mawr sy'n cynnwys sylweddau peryglus (O.J. Rhif L 197, 24.7.2012, t. 1) ("Cyfarwyddeb Seveso III"). Mae'r Gyfarwyddeb honno yn diwygio ac yn diddymu Cyfarwyddeb y Cyngor 96/82/EC. Er mwyn gweithredu'r gofynion hynny yn llawn, mae rhannau o reoliadau 24 a 26 o Reoliadau Cynllunio (Sylweddau Peryglus) 2015 (O.S. 2015/627) yn gymwys i Gymru. Maent yn gymwys i'r graddau y maent yn ymwneud â materion cynllunio seilwaith nad ydynt wedi eu datganoli. Gweithredir yr agweddau nad ydynt yn ymwneud â chynllunio yng Nghyfarwyddeb Seveso III drwy Reoliadau Rheoli Peryglon Damweiniau Mawr 2015 (O.S. 2015/483).

These Regulations also implement the land-use aspects of Directive 2012/18/EU of the European Parliament and the Council on the control of major-accident hazards involving dangerous substances (O.J. No. L 197, 24.7.2012, p. 1) (the "Seveso III Directive"). That Directive amends and repeals Council Directive 96/82/EC. In order to fully implement those requirements, parts of regulations 24 and 26 of the Planning (Hazardous Substances) Regulations 2015 (S.I. 2015/627) apply to Wales. They apply to the extent that they relate to non-devolved infrastructure planning matters. The non-planning aspects of the Seveso III Directive are implemented through The Control of Major-Accident Hazards Regulations 2015 (S.I. 2015/483).

O ganlyniad mae'r Rheoliadau a ganlyn wedi eu dirymu i'r graddau y maent yn gymwys i Gymru:

Consequently the following Regulations are revoked so far as they apply to Wales:

(1) Rheoliadau Cynllunio (Sylweddau Peryglus) 1992;

(1) The Planning (Hazardous Substances) Regulations 1992;

(2) Rheoliadau Cynllunio (Rheoli Peryglon Damweiniau Mawr) 1999 (O.S. 1999/981);

(2) The Planning (Control of Major-Accident Hazards) Regulations 1999 (S.I. 1999/981);

(3) Rheoliad 10 o Orchymyn Cynllunio Gwlad a Thref (Cymhwyso Is-ddeddfwriaeth i'r Goron) 2006 (O.S. 2006/1282);

Mae'r prif newidiadau yn y Rheoliadau hyn fel a ganlyn—

(1) mae'r esemptiadau sydd eisoes yn bodoli i'r gofyniad i gael cydsyniad sylweddau peryglus wedi eu hestyn yn rheoliad 4 ac Atodlen 2;

(2) darperir ar gyfer esemptiad newydd i'r gofyniad ar gyfer cydsyniad sylweddau peryglus yn achos mân newidiadau penodol yn rheoliad 4 a pharagraffau 16 a 17 o Atodlen 2;

Nid yw'r gofynion hyn yn gymwys i gynlluniau a rhaglenni sy'n ddarostyngedig i gyfranogiad cyhoeddus o dan Ran 3 o Reoliadau Aseidiadau Amgylcheddol o Gynlluniau a Rhaglenni (Cymru) 2004 (O.S. 2004/1656 (Cy. 70));

(8) mae gofynion newydd ar gyfer ymgynghori â'r cyhoedd cyn y gwneir penderfyniadau ar ddatblygu o amgylch sefydliadau sylweddau peryglus yn rheoliad 28 pan allai'r lleoliad neu'r datblygiad achosi damwain fawr neu gynyddu'r risg o ddamwain fawr neu ychwanegu at ganlyniadau damwain o'r fath;

(3) Regulation 10 of The Town and Country Planning (Application of Subordinate Legislation to the Crown) Order 2006 (S.I. 2006/1282);

(4) The Planning (Hazardous Substances) (Amendment) (Wales) Regulations 2010 (S.I. 2010/450 (W. 48));

(6) The Planning (Hazardous Substances) (Determination of Procedure) (Prescribed Period) (Wales) Regulations 2014 (S.I. 2014/2777 (W. 283)).

(10) yn Rhan 3 o Atodlen 1 mae rheolaeth ar sylweddau y gellid eu cynhyrchu wrth gollu rheolaeth ar broses ddiwydiannol pan fo'n rhesymol rhag-weld y gallai sylwedd peryglus gael ei gynhyrchu.

(2) Mae'r ffi a grybwyllir ym mharagraff (1) yn daladwy gan bob person sydd wedi gwneud apêl ddilys yn erbyn yr hysbysiad tramgwydd sylweddau peryglus perthnasol ac nad yw ei apêl wedi ei thynnu'n ôl cyn y dyddiad y dyroddir hysbysiad gan Weinidogion Cymru o dan baragraff (4).

(4) Rhaid talu'r ffi sy'n ddyledus ar yr adeg y caiff Gweinidogion Cymru yn yr achos penodol ei bennu drwy hysbysiad ysgrifenedig i'r apelydd.

ac ar y dyddiad y dyroddwyd yr hysbysiad perthnasol nid oedd y cais hwnnw wedi ei benderfynu neu, yn achos apêl a wnaed cyn y dyddiad hwnnw, nid oedd yr apêl honno wedi ei phenderfynu.

(6) Rhaid i Weinidogion Cymru ad-dalu unrhyw ffi a dalwyd mewn cysylltiad â'r cais tybiedig i'r apelydd—

Fees for deemed applications

24.—(1) Subject to paragraph (5), a fee must be paid to the Welsh Ministers in every case where an application for hazardous substances consent is deemed to have been made by virtue of section 177(5) of the TCPA (in consequence of an appeal under section 174 of that Act against a hazardous substances contravention notice).

(2) The fee mentioned in paragraph (1) is payable by every person who has made a valid appeal against the relevant hazardous substances contravention notice and whose appeal has not been withdrawn before the date on which the Welsh Ministers issue a notice under paragraph (4).

(3) Subject to paragraph (7), the fee payable is the amount which would be payable under regulation 23 if the application were an application to which that regulation applied.

(4) The fee due must be paid at such time as the Welsh Ministers may in the particular case specify by notice in writing to the appellant.

(5) This regulation does not apply where the appellant had—

- (a) before the date when the hazardous substances contravention notice was issued, applied to the hazardous substances authority for hazardous substances consent for the presence of the quantity of the substance to which the notice relates, and had paid to the authority the fee payable in respect of that application, or
- (b) before the date specified in the notice as the date on which it is to take effect, made an appeal to the Welsh Ministers against the refusal of the hazardous substances authority to grant consent,

and at the date when the relevant notice was issued that application or, in the case of an appeal made before that date, that appeal, had not been determined.

(6) Any fee paid in respect of the deemed application must be refunded to the appellant by the Welsh Ministers if—

- (a) the Welsh Ministers decline jurisdiction on the relevant appeal on the grounds that it does not comply with one or more of the requirements of subsections (1) to (3) of section 174 of the TCPA;

- (b) os yw Gweinidogion Cymru yn gwrthod yr apêl berthnasol wrth arfer y pwerau o dan adran 176(3)(a) o'r DCGTh (ar y sail bod yr apelydd wedi methu â chydymffurfio ag adran 174(4) o'r Ddeddf honno);
 - (c) os yw Gweinidogion Cymru yn caniatáu'r apêl berthnasol ac yn diddymu'r hysbysiad tramgwydd sylweddau peryglus perthnasol wrth arfer y pwerau o dan adran 176(3)(b) o'r DCGTh (ar y sail bod yr awdurdod sylweddau peryglus wedi methu â chydymffurfio â rheoliad 17(2) o'r Rheoliadau hyn);
 - (d) os yw'r apêl berthnasol yn cael ei thynnu'n ôl ac o ganlyniad bod o leiaf 21 o ddiwrnodau rhwng y dyddiad y mae Gweinidogion Cymru yn cael yr hysbysiad ysgrifenedig am y tynnu'n ôl ac—
 - (i) y dyddiad (neu yn achos gohiriad, y dyddiad hwyrach) a bennir ar gyfer cynnal ymchwiliad neu wrandawriad ar gyfer yr apêl honno; neu
 - (ii) yn achos apêl sy'n cael ei thrin drwy gyfrwng sylwadau ysgrifenedig, y dyddiad (neu yn achos gohiriad, y dyddiad hwyrach) a bennir ar gyfer arolygu'r safle y mae'r hysbysiad yn ymwneud ag ef;
 - (e) os yw'r awdurdod sylweddau peryglus yn tynnu'r hysbysiad tramgwydd sylweddau peryglus perthnasol yn ôl cyn iddo gael effaith, neu os yw Gweinidogion Cymru yn penderfynu nad oes grym i'r hysbysiad;
 - (f) os yw Gweinidogion Cymru yn caniatáu'r apêl berthnasol ar unrhyw un neu ragor o'r seiliau a nodir yn adran 174(2)(b) i (e) o'r DCGTh; neu
 - (g) os yw Gweinidogion Cymru yn caniatáu'r apêl berthnasol ar y sail bod yr hysbysiad yn annilys, neu ei fod yn cynnwys nam, gwall neu gamddisgrifiad na ellir ei gywiro o dan adran 176(1)(a) o'r DCGTh.
- (b) the Welsh Ministers dismiss the relevant appeal in exercise of the powers under section 176(3)(a) of the TCPA (on the grounds that the appellant has failed to comply with section 174(4) of that Act);
 - (c) the Welsh Ministers allow the relevant appeal and quash the relevant hazardous substances contravention notice in exercise of the powers under section 176(3)(b) of the TCPA (on the grounds that the hazardous substances authority have failed to comply with regulation 17(2) of these Regulations);
 - (d) the relevant appeal is withdrawn with the result that there are at least 21 days between the date on which notice in writing of the withdrawal is received by the Welsh Ministers and—
 - (i) the date (or in the event of postponement, the latest date) appointed for the holding of an inquiry or hearing into that appeal; or
 - (ii) in the case of an appeal which is being dealt with by written representations, the date (or in the event of postponement, the latest date) appointed for the inspection of the site to which the notice relates;
 - (e) the hazardous substances authority withdraws the relevant hazardous substances contravention notice before it takes effect, or the Welsh Ministers decide that the notice is a nullity;
 - (f) the Welsh Ministers allow the relevant appeal on any of the grounds set out in section 174(2)(b) to (e) of the TCPA; or
 - (g) the Welsh Ministers allow the relevant appeal on the ground that the notice is invalid, or that it contains a defect, error or misdescription which cannot be corrected under section 176(1)(a) of the TCPA.

(7) Pan fo hysbysiad tramgwydd sylweddau peryglus yn cael ei amrywio o dan adran 176(1) o'r DCGTh ac eithrio er mwyn ystyried rhoi cydsyniad sylweddau peryglus o dan adran 177(1) o'r DCGTh, a byddai'r ffi a gyfrifir yn unol â pharagraff (3) wedi bod yn swm llai pe bai'r hysbysiad gwreiddiol wedi bod ar delerau'r hysbysiad sydd wedi ei amrywio, y ffi sy'n daladwy yw'r swm llai hwnnw a rhaid ad-dalu unrhyw swm dros ben a dalwyd eisoes.

(8) Wrth benderfynu ffi o dan baragraff (7) ni chaniateir ystyried unrhyw newid i'r ffioedd sy'n cael effaith ar ôl gwneud y cais tybiedig.

(7) Where a hazardous substances contravention notice is varied under section 176(1) of the TCPA otherwise than to take account of a grant of hazardous substances consent under section 177(1) of the TCPA, and the fee calculated in accordance with paragraph (3) would have been a lesser amount if the original notice had been in the terms of the varied notice, the fee payable is that lesser amount and any excess amount already paid must be refunded.

(8) In determining a fee under paragraph (7) no account is to be taken of any change in fees which takes effect after the making of the deemed application.

(8) Mewn perthynas ag unrhyw gydsyniad, caniatâd neu awdurdodiad arall sy'n dod o fewn paragraff (6) neu (7) sy'n gallu cael ei amrywio neu ei addasu, rhaid i'r awdurdod cymwys ymdrin â'r addasiad neu'r amrywiad fel petai'n gydsyniad, yn ganiatâd neu'n awdurdodiad arall ar gyfer prosiect perthnasol at ddibenion y rheoliad hwn pan fo'r addasiad neu'r amrywiad hwnnw yn awdurdodi datblygiad sy'n dod o fewn paragraff (s) o'r Tabl yn Atodlen 4 i Orchymyn Cynllunio Gwlad a Thref (Gweithdrefn Rheoli Datblygu) (Cymru) 2012.

(9) Yn y rheoliad hwn, mae i "sefydliad newydd" yr un ystyr ag sydd i "new establishment" yn Erthygl 3 o'r Gyfarwyddeb.

(7) This regulation applies to a decision to carry out works under section 24(1) of the Highways Act 1980 (construction of new highways), which does not relate to the exercise of any of the provisions of paragraph (6)(i) or (j) as if it were "a consent, permission or other authorisation" referred to in paragraph (1).

(8) In relation to any consent, permission or authorisation falling within paragraph (6) or (7) which is capable of being varied or modified, the modification or variation must be treated by the competent authority as if it is a consent, permission or other authorisation for a relevant project for the purposes of this regulation where that modification or variation authorises development falling within paragraph (x) of the Table in Schedule 4 to the Town and Country Planning (Development Management Procedure) (Wales) Order 2012.

(9) In this regulation, "new establishment" ("sefydliad newydd") has the same meaning as in Article 3 of the Directive.

PART 3

Substances used in an industrial chemical process

<i>Column 1 Hazardous Substances</i>	<i>Column 2 Controlled quantity</i>
Where it is reasonable to foresee that a substance falling within Part 1 or Part 2 ("HS") may be generated during loss of control of the processes, including storage activities in any installation within an establishment, any substance which is used in that process ("S").	The amount of S which it is believed may generate (on its own or in combination with other substances used in the relevant process) an amount equal to or exceeding the controlled quantity of the HS in question.

(See note 23)

PART 4

Notes to Parts 1 to 3

1. Substances and mixtures are classified in accordance with the CLP Regulation⁽¹⁾.
2. Mixtures must be treated in the same way as pure substances provided they remain within concentration limits set according to their properties under the CLP Regulation, or its latest adaptation to technical progress, unless a percentage composition or other description is specifically given.
3. The controlled quantities set out in Parts 1 to 3 of this Schedule relate to each establishment.

The quantities to be considered for the application of these Regulations are the maximum quantities which are present or are likely to be present at any one time.

4. The following rule governing the addition of hazardous substances, or categories of dangerous substances, applies where appropriate.

In the case of an establishment where no individual hazardous substance is present in a quantity above or equal to the relevant controlled quantity, the following rule must be applied to determine whether the establishment is covered by the relevant requirements of these Regulations. These Regulations apply to establishments if the sum $q_1/Q_{L1} + q_2/Q_{L2} + q_3/Q_{L3} + q_4/Q_{L4} + q_5/Q_{L5} + \dots$ is greater than or equal to 1,

where

q_x = the quantity of dangerous substance x (or category of dangerous substances) falling within Part 1 or Part 2 of this Schedule; and

Q_{Lx} = the relevant controlled quantity for hazardous substance or category x from Column 2 of Part 1 or from Column 2 of Part 2 of this Schedule, except as set out in the following paragraph.

For the purposes of calculating Q_{Lx} only, where the hazardous substance is one specified in column 1 of the following table, the relevant controlled quantity is as set out in column 2 of the following table A:

Table A

<i>Column 1</i>	<i>CAS number</i>	<i>Column 2</i>
15. Hydrogen	1333-74-0	5
18. Liquefied flammable gases, Category 1 or 2 (including LPG) and natural gas (including liquid natural gas)	-	50

This rule must be used to assess the health hazards, physical hazards and environmental hazards. It must therefore be applied three times—

- (a) for the addition of hazardous substances listed in Part 2 that fall within acute toxicity category 1, 2 or 3 (inhalation route) or STOT SE category 1, together with hazardous substances falling within section H, entries H1 to H3 of Part 1;
- (b) for the addition of hazardous substances listed in Part 2 that are explosives, flammable gases, flammable aerosols, oxidising gases, flammable liquids, self-reactive substances and mixtures, organic peroxides, pyrophoric liquids and solids, oxidising liquids and solids, together with hazardous substances falling within section P, entries P1 to P8 of Part 1;

⁽¹⁾ Regulation (EC) No 1272/2008 of the European Parliament and the Council.

- (c) for the addition of hazardous substances listed in Part 2 that fall within hazardous to the aquatic environment acute category 1, chronic category 1 or chronic category 2, together with hazardous substances falling within section E, entries E1 and E2 of Part 1.

The relevant provisions of these Regulations apply where any of the sums obtained by (a), (b) or (c) is greater than or equal to 1.

5. In the case of hazardous substances which are not covered by the CLP Regulation, including waste, but which nevertheless are present, or are likely to be present, in an establishment and which possess or are likely to possess, under the conditions found at the establishment, equivalent properties in terms of major accident potential, these must be provisionally assigned to the most analogous category or named hazardous substance falling within the scope of these Regulations.

6. In the case of hazardous substances with properties giving rise to more than one classification, for the purposes of these Regulations the lowest controlled quantities apply. However, for the application of the rule in Note 4, the lowest controlled quantity for each group of categories in Notes 4(a), 4(b) and 4(c) corresponding to the classification concerned must be used.

7. Hazardous substances that fall within Acute Toxic Category 3 via the oral route (H 301) fall under entry H2 ACUTE TOXIC in those cases where neither acute inhalation toxicity classification nor acute dermal toxicity classification can be derived, for example due to lack of conclusive inhalation and dermal toxicity data.

8. The hazard class Explosives includes explosive articles (see Section 2.1 of Annex I to the CLP Regulation). If the quantity of the explosive substance or mixture contained in the article is known, that quantity must be considered for the purposes of these Regulations. If the quantity of the explosive substance or mixture contained in the article is not known, then, for the purposes of these Regulations, the whole article must be treated as explosive.

9. Testing for explosive properties of substances and mixtures is only necessary if the screening procedure according to Appendix 6, Part 3 of the UN Recommendations on the Transport of Dangerous Goods, Manual of Tests and Criteria (UN Manual of Tests and Criteria)(1) identifies the substance or mixture as potentially having explosive properties.

10. If Explosives of Division 1.4 are unpacked or repacked, they must be assigned to the entry P1a, unless the hazard is shown to still correspond to Division 1.4, in accordance with the CLP Regulation.

11.—(1) Flammable aerosols are classified in accordance with the Council Directive 75/324/EEC of 20 May 1975 on the approximation of the laws of the Member States relating to aerosol dispensers(2) (Aerosol Dispensers Directive). “Extremely flammable” and “Flammable” aerosols of Directive 75/324/EEC correspond to Flammable Aerosols Category 1 or 2 respectively of the CLP Regulation.

(2) In order to use this entry, it must be documented that the aerosol dispenser does not contain Flammable Gas Category 1 or 2 nor Flammable Liquid Category 1.

12. According to paragraph 2.6.4.5 in Annex I to the CLP Regulation, liquids with a flash point of more than 35°C need not be classified in Category 3 if negative results have been obtained in the sustained combustibility test L.2, Part III, section 32 of the UN Manual of Tests and Criteria. This is however not valid under elevated conditions such as high temperature or pressure, and therefore such liquids are included in this entry.

13. Ammonium nitrate (5,000/10,000): fertilisers capable of self-sustaining decomposition

(1) More guidance on waiving of the test can be found in the A.14 method description, *see* Commission Regulation (EC) No. 440/2008 of 30 May 2008 laying down test methods pursuant to Regulation (EC) No. 1907/2006 of the European Parliament and of the Council of the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) (O.J. L 142, 31.5.2008, p. 1).

(2) O.J. L 147, 9.6.1975, p. 40.

This applies to ammonium nitrate-based compound/composite fertilisers (compound/composite fertilisers contain ammonium nitrate with phosphate and/or potash) which are capable of self-sustaining decomposition according to the UN Trough Test (see UN Manual of Tests and Criteria, Part III, subsection 38.2), and in which the nitrogen content as a result of ammonium nitrate is—

- (a) between 15.75%(1) and 24.5%(2) by weight, and either with not more than 0.4% total combustible/organic materials or which fulfil the requirements of Annex III-2 to Regulation (EC) No 2003/2003 of the European Parliament and of the Council of 13 October 2003 relating to fertilisers(3);
- (b) 15.75% by weight or less and unrestricted combustible materials.

14. Ammonium nitrate (1,250/5,000): fertiliser grade

This applies to straight ammonium nitrate-based fertilisers and to ammonium nitrate-based compound/composite fertilisers which fulfil the requirements of Annex III-2 to Regulation (EC) No 2003/2003 and in which the nitrogen content as a result of ammonium nitrate is—

- (a) more than 24.5% by weight, except for mixtures of straight ammonium nitrate based fertilisers with dolomite, limestone and/or calcium carbonate with a purity of at least 90%;
- (b) more than 15.75% by weight for mixtures of ammonium nitrate and ammonium sulphate;
- (c) more than 28%(4) by weight for mixtures of straight ammonium nitrate-based fertilisers with dolomite, limestone and/or calcium carbonate with a purity of at least 90%.

15. Ammonium nitrate (350/2,500): technical grade

This applies to ammonium nitrate and mixtures of ammonium nitrate in which the nitrogen content as a result of the ammonium nitrate is—

- (a) between 24.5% and 28% by weight, and which contain not more than 0.4% combustible substances;
- (b) more than 28% by weight, and which contain not more than 0.2% combustible substances.

It also applies to aqueous ammonium nitrate solutions in which the concentration of ammonium nitrate is more than 80% by weight.

16. Ammonium nitrate (10/50): 'off-specs' material and fertilisers not fulfilling the detonation test

This applies to—

- (a) material rejected during the manufacturing process and to ammonium nitrate and mixtures of ammonium nitrate, straight ammonium nitrate-based fertilisers and ammonium nitrate-based compound/composite fertilisers referred to in Notes 14 and 15, that are being or have been returned from the final user to a manufacturer, temporary storage or reprocessing plant for reworking, recycling or treatment for safe use, because they no longer comply with the specifications of Notes 14 and 15;
- (b) fertilisers referred to in Note 13(a), and Note 14 to this Schedule which do not fulfil the requirements of Annex III-2 to Regulation (EC) No 2003/2003.

17. Potassium nitrate (5,000/10,000)

This applies to those composite potassium-nitrate based fertilisers (in prilled/granular form) which have the same hazardous properties as pure potassium nitrate.

18. Potassium nitrate (1,250/5,000)

This applies to those composite potassium-nitrate based fertilisers (in crystalline form) which have the same hazardous properties as pure potassium nitrate.

(1) 15.7% nitrogen content by weight as a result of ammonium nitrate corresponds to 45% ammonium nitrate.

(2) 24.5% nitrogen content by weight as a result of ammonium nitrate corresponds to 70% ammonium nitrate.

(3) O.J. L 304, 21.11.2003, p. 1.

(4) 28% nitrogen content by weight as a result of ammonium nitrate corresponds to 80% ammonium nitrate.

19. Upgraded biogas

For the purpose of the implementation of these Regulations, upgraded biogas may be classified under entry 18 of Part 2 of Schedule 1 where it has been processed in accordance with applicable standards for purified and upgraded biogas ensuring a quality equivalent to that of natural gas, including the content of Methane, and which has a maximum of 1% Oxygen.

20. Polychlorodibenzofurans and polychlorodibenzodioxins

The quantities of polychlorodibenzofurans and polychlorodibenzodioxins are calculated using the factors in Table 1—

21. In cases where this hazardous substance falls within category P5a Flammable liquids or P5b Flammable liquids, then for the purposes of these Regulations the lower controlled quantity applies.

22. Where a hazardous substance is covered by Part 1 of this Schedule and is also listed in Part 2, the controlled quantity set out in Column 2 of Part 2 apply.

23. In relation to Part 3—

- (a) where S also falls within Part 1 or Part 2, the classification with the lowest controlled quantity applies; and
- (b) where S also falls within Part 1 and Part 2, the controlled quantity which is lowest when the controlled quantities under Part 2 and Part 3 are compared applies.

24. Expressions appearing both in this Schedule and in the Directive have the same meaning for the purposes of this Schedule as they have for the purposes of the Directive.
