## EXPLANATORY NOTE

*(This note is not part of the Regulations)*

Part 2A of the Public Health (Control of Disease) Act 1984 enables the Welsh Ministers, by regulations, to make provision for the purpose of preventing, protecting against, controlling or providing a public health response to the incidence or spread of infection or contamination in Wales.

These Regulations are made in response to the threat to public health which is posed by the incidence and spread of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) in Wales.

These Regulations amend the Health Protection (Coronavirus Restrictions) (No. 5) (Wales) Regulations 2020 ([S.I. 2020/1609 \(W. 335\)](#)) to provide that they expire at the end of the day on 30 May 2022 (rather than 9 May 2022). The practical effect of this is to retain the requirement (in regulation 20) to wear face coverings in health and social care premises.

The Welsh Ministers' Code of Practice on the carrying out of Regulatory Impact Assessments was considered in relation to these Regulations. In accordance with the Code, a regulatory impact assessment as to the likely cost and benefit of complying with these Regulations has not been carried out, due to the need to put them in place urgently.
