“Recycling data

17A.—(1) Where information in a report submitted by a large producer (“LP”) under regulation 17 in relation to a period of six months ending on or after 30 June 2024 (“regulation 17 report”) concerns packaging which has already been the subject of a recycling obligation under regulation 4(4)(b) of, and Schedule 2 to, the 2007 Regulations (“relevant packaging”), LP may choose to submit a report under paragraph (2) of this regulation (a “regulation 17A report”).

(2) A regulation 17A report must state the proportion of relevant packaging which LP has been required to recycle under the 2007 Regulations (“P”), calculated as follows—

$$P = AP \times SP$$

where—

- (a) “AP” is the amount in kilograms of relevant packaging which has previously been taken into account to calculate the recycling obligations of a producer under the 2007 Regulations;
 - (b) “SP” is the sum of the percentages of that packaging which any class of producer has been required to recycle under the 2007 Regulations, as set out in paragraph 4 of Schedule 2 to those Regulations.
- (3) Where LP chooses to submit a regulation 17A report, LP must submit the report—
- (a) in such form as NRW may direct;
 - (b) on the date on which LP submits a regulation 17 report or such other date as NRW may direct.
- (4) Where a regulation 17A report is not submitted on the same date as the regulation 17 report, the regulation 17A report must also identify the data collection period it relates to.
- (5) In this regulation, “the 2007 Regulations” means the Producer Responsibility Obligations (Packaging Waste) Regulations 2007(1).”
